

## ACCOUNTS BOARD IS ASKED TO ACT

I. Newt Brown, Treasurer Of State  
Board Of Agriculture, Wants  
Records Of Board Investigated

### M'CRAY "LOAN" IS INVOLVED

Members Of Board Will Meet, Pro-  
bably Next Week, To Do Some In-  
vestigating On Its Own Account

(By United Press)

Indianapolis, Ind., October, 26.—I. Newt Brown, treasurer of the state board of agriculture has asked the state board of accounts to make an immediate and complete examination of the records of the board of agriculture, it was learned today.

Requests for the probe were made to clarify the mystery surrounding a transaction in which \$155,000 of the board's funds were involved with Governor McCray.

Brown maintained that the money was intended for deposit in the Discount and Deposit bank at Kentland Governor McCray's own bank. William Darroch, receiver for the bank, denied that any of the board of agriculture's funds had ever reached the bank.

Governor McCray insisted that the \$155,000 was loaned to him personally and that the loan was amply secured by collateral.

While Brown urged a probe of the board's records by the board of accounts, members of the agriculture board were understood to be preparing to do a little investigating of their own.

Arrangements are being made for a called meeting of the agriculture board, probably next week, to clear up numerous misunderstandings and rumors which have been current since it was learned the governor had obtained a "loan" of \$155,000 from the board's funds.

### Judgment Against Governor

Kentland, Ind., Oct. 26.—Ten civil suits brought against Governor McCray on notes endorsed by him have been settled in the Newton circuit court here by agreement of counsel in the cases. Judgment of \$41,345 was awarded against the governor.

It was the opinion of George Barnard, attorney who represented the governor in the proceedings, that the judgment would not jeopardize the trust agreement proposed by the government for the settlement of his affairs.

Cases against persons made codefendants with the governor were dismissed upon sworn statement from the various codefendants that they had not signed their names to the notes in question.

Attachment proceedings against the home of the governor here were dismissed. This property was all that the governor withheld from his list of assets submitted to his creditors.

Among judgments rendered were \$10,873 to the Delaware county National Bank, Muncie, and \$5,800 to the People's Trust and Savings Co., Laporte.

Additional suits against the governor are to come to trial next Wednesday.

## FATE IN HANDS OF THE JURY

Terre Haute Men Tried For Killing  
Garage Night Watchman.

Sullivan, Ind., Oct. 26.—The fate of Floyd and Clarence Shephard, charged with the murder of Otto Siefferman, Terre Haute garage night watchman, was in the hands of the jury this afternoon. The jury's verdict will end one of the most sensational murder trials ever heard in a Sullivan county court.

The Shephard brothers and William Goings were arrested on the morning of September 19, last, in Terre Haute, after the bullet riddled body of the night watchman had been found in south east Terre Haute.

Confessions revealed that robbery was the motive. The state demanded the electric chair. Goings will be tried immediately after a verdict is returned in the Shephard brothers trial.

## OFFICE WILL REMAIN OPEN

County Treasurer Arranges To Col-  
lect Taxes At Night

The county treasurer's office will be open tomorrow (Saturday) night and Friday and Saturday nights of next week and Monday night of the following week for the accommodation of taxpayers who are not able to pay their taxes in the day time.

Little more than a week remains for paying the fall installment of taxes, as the period ends Monday, November 5, but collections up to the opening of business today amounted to only \$166,519.83. Collections were very slow Thursday, amounting to only \$13,479.93. The sum falling due between now and one week from Monday will be about \$275,000.

## STANDARDS FOR THE LEAGUE WORK ARE SET

Epworth League Cabinet of Conners-  
ville District In Session At J. M.  
Walker's Home Thursday

### ARRANGES GROUP MEETINGS

The District Epworth League Cabinet of the Connersville district met Thursday from 10:30 a. m. to 3:30 p. m. at the home of the Rev. and Mrs. J. M. Walker in Morgan St. Those present were the Rev. R. R. Cross, of Milroy, president, Roma Fields of Quakertown, Wm. A. Hurst of St. Paul, Mrs. Mary Tohill of College Corner, Miss Mildred Conquest of Connersville, Mrs. Bernice Addison and Robert Kitley, of New Palestine, Miss Anna Schooley and the Rev. R. O. Pearson of Waldron, Mrs. Hildegard Morris of Shelbyville, Miss Gladys Marsh of Letts, The Rev. W. C. Patrick of College Corner, and the Rev. R. O. LaHue of Sandusky. The Rev. F. E. LeMasters of DePauw University was also present as a guest at noon.

Many important matters concerning the work among the young people of the district were considered. Standards for the League work were set, arrangements for three group meetings to be held on Nov. 10, were made, and a committee was appointed to make plans and estimates for the housing of the League delegates to the Epworth League assembly at the new grounds near Mitchell next August.

At noon the group were guests of Mrs. Walker at luncheon. Mrs. Lily Smith of Seymour, who has been a guest at the home of Dr. and Mrs. Walker since Monday assisted.

## M. E. TRAPP ASSUMES DUTIES OF GOVERNOR

Lieutenant Governor of Oklahoma  
Seated as a Result of Supreme  
Court Decision

### WALTON'S HOPES WITH SENATE

(By United Press)

Oklahoma City, Okla., Oct. 26.—M. E. Trapp today assumed the duties of governor of Oklahoma, replacing J. C. Walton, suspended during impeachment proceedings in the legislature.

Trapp took over the powers of office by virtue of a decision of the supreme court after Walton had challenged the right of the state senate to oust him pending hearing on the impeachment proceedings.

Walton's sole hope of retaining office today rested in his chance of preventing a two-thirds vote in the state senate for his removal. All his efforts were concentrated upon his defense of the charges pending against him.

The lower house of the legislature has now adopted fourteen of the 22 accusations brought against the governor and expected to complete voting on the entire indictment today.

"I will continue to fight," the governor said.

His defense in the senate will be based upon the contention that the charges against him are the result of a conspiracy among the Ku Klux Klan members of the legislature seeking his removal.

## NOW WON'T THAT BE WONDERFUL?

## CALLS ATTENTION TO '23 MOTOR ACT

Motorists Causing Injury to Person  
or Property Required to Report  
The Fact

### NOT GENERALLY ENFORCED

Statute Provides Fine or Sentence,  
or Both, And Upon Second Con-  
viction, Prison Term

Attention has been called to a motor vehicle act, passed by the 1923 legislature, which provides a penalty for persons driving machines, who fail to stop after any kind of an accident, and a law which has been sorely neglected in this city, and which also is probably not very well known by most motorists.

Every person driving a machine is advised to acquaint himself with the provisions of the law, which even not strictly enforced here, may cause someone serious trouble elsewhere, as the law is being followed closely in neighboring cities, and especially at Indianapolis.

The law provides that motorists shall stop their machine after any kind of an accident, and what they should do to conform with the law, is cited as follows in section 19 of the act:

"Any person operating a motor vehicle, causing an injury to a person, or an injury to property, due to

Continued on Page 11

## CRIMINAL CASES SENT HERE

Gregg Alyea, At One Time On Trial  
Here, Involved In Charges

Four criminal cases, involving a change of venue from the Decatur circuit court of Greensburg, have been sent to this county by Judge Craig, after granting the defendants the change from that county. Thomas Robbins is charged in two cases of unlawfully selling liquor, and Gregg Alyea, the other defendant, is charged on two similar counts.

The last named defendant is known here, as he was under indictment on a joint charge here several years ago on a conspiracy case, in which the Demaree brothers of Greensburg figured prominently, and for which several members of the alleged gang received sentences. In the trial here on those cases, frequent mention was made of liquor law violations.

## MRS. CARRIE BELL EXPIRES

Remains Brought Here Today From  
Indianapolis Hospital

Mrs. Carrie Bell of this city, expired this morning at 1:30 o'clock at the Robert W. Long hospital in Indianapolis, following a long illness of cancer, and her remains were brought to this city this afternoon, and taken to the home of B. L. Trabue, 715 North Harrison street. The deceased was a native of Dublin, Ind., and before her marriage was Carrie VanBaskirk. She was married to Robert Bell, who also survives. She would have been 49 years old next Tuesday. No relatives survive, as a child and grandchild preceded her in death.

The funeral arrangements were indefinite, excepting that burial would be in the cemetery at Bentonville.

## E. B. THOMAS SPEAKS TO THE KIWANIS CLUB

Former Rushville Man Tells Some-  
thing Of His Experiences During  
18 Months In San Juan

### OFFICIAL COMING NEXT WEEK

E. B. Thomas, formerly of this city, who left here eighteen months ago to become head of the United States federal land bank in Porto Rico, at San Juan, spoke to the Kiwanis club at its regular meeting Thursday, relating some of his experiences and telling something of the habits and customs of the people of the small island possession of the United States.

Mr. Thomas' addresses proved very entertaining and instructive, as it revealed what this country is doing for the benefit of the natives of the island, in providing capital so that they can do business on a larger scale.

Guests at the meeting yesterday, in addition to Mr. Thomas, included J. A. Gleason of Tipton, Cyrus Green of Morristown and Hudson R. Biery of Indianapolis, assistant to President Charles L. Henry of the L. & C. Traction company.

The Kiwanis club had planned to entertain ten representative farmers of Posey township at the next meeting, but the farmers asked to be excused until a later date on account of being busy with corn husking. Instead, Ray Wiesbrod of Richmond, lieutenant governor of Kiwanis for this district, will speak to the club.

## CAREER OF C. P. STEINMETZ ENDS

Electrical Wizard Snatched Light-  
ning From Clouds And Made  
Thunderbolts Do Bidding

### BRAIN ALERT TO THE END

Exhausted By Speaking Tour That  
Took Him To All Parts Of The  
United States

Schneetady, N. Y., Oct. 26.—Death today ended the career of Charles P. Steinmetz, the electrical wizard, the man who snatched down lightning from the skies and made the thunderbolt do his bidding. As Steinmetz lay in bed at his home here at 8 o'clock this morning recovering from exhaustion resulting from a long lecture tour, his heart ceased to beat.

"I feel fine today," he said to his nurse a minute before the end. "I will soon be up and around again."

A few seconds later his soul slipped away.

"His heart just stopped beating," said Dr. H. T. Groesbeck. The brain which devised means of harnessing the elements and creating "toy thunderstorms" in laboratories was alert to the end, but the body could no longer stand the strain which so many years of driving metal forces had put upon it.

Steinmetz, the hunch-backed little German who became chief consulting engineer of the General Electric Company, returned October 13 from a speaking tour which had taken him to all parts of the United States.

As in the case of the late President Harding and of Woodrow Wilson, he had over-taxed his strength endeavoring to see all the people he was called upon to see and to make all the speeches expected of him.

His body began to crack under the strain when he made an address to 3,500 people at Denver, Colo. He had expected to talk to 300 or 400 and the large audience made the effort much greater.

Nevertheless, and although he was fully aware of the weakness of his heart, he went through with his program. Upon his return to Schneetady, the exhaustion from which he was suffering forced him to give up his work temporarily and take to his bed.

He seemed to be showing steady improvement and physicians were much encouraged.

As he lay in bed, physically too weak to rise, his brain continued

## ARRANGES THROUGH SERVICE

I. & C. Will Connect With Bus For  
Brookville Here After Nov. 1.

The Indianapolis & Cincinnati Traction company has arranged for through connections between Indianapolis and Brookville by means of motor bus service between here and Brookville, to make connections with three cars each way every day, so that the I. & C. can sell tickets from Indianapolis to any point between Indianapolis and Brookville.

The new service will become effective November 1, and the rate from Indianapolis to Brookville will be \$2.00. The motor bus will make three round trips each day between Rushville and Brookville.

## APRIL BLOSSOMS IN BLEAK OCTOBER

Comedy On View At Graham Annex  
Auditorium Proves Fine Vehicle  
For Local Players

### WILL BE REPEATED TONIGHT

"April" Proves To Be No Hot House  
Plant Because It Amuses And  
Entertains "First Nighters"

Any April that can withstand the chill blasts of late October is an April worth seeing, and such an "April" is on view at the Graham Annex auditorium again tonight.

"April" blossomed out for the first time Thursday night at the auditorium, despite October frosts, and it proved to be no hot house plant because it amused and entertained the "first nighters."

And it was truly a "first night" performance because it was the first time "April" ever appeared on any stage although its namesake has been doing business at the same old stand for three hundred odd years.

Kenyon Nicholson of Indianapolis, the author, places "April Blair" in an almost impossible position from which she emerges through her own ingenuity and resourcefulness. The lines are clever and many humorous situations are developed, making it on the whole a very entertaining play.

Albert Cotton and Lavienna Compton played the leading parts very capably and Denning Havens, the director, put the finishing touch in the last act with his grotesque makeup and interpretation of the part as "Bill Drum," press agent for the "Snap-It-Up" show company, who made the way smooth for "April" (Miss Compton) and "Dick Barrington" (Mr. Cotton) by removing the thorn in "Dick's" side, "Tot Marvel" (Lillian Wilkinson), a chorus girl with whom Dick had become infatuated by the glare of the "bright lights" in Boston.

"April" took many people back to the time when the high school graduating class put on "The College Widow," under Tom J. Geraghty's direction, several years ago, and played several out-of-town engagements.

The principals were supported by a splendid cast and the play moved along with precision, though anything but that characterized the action, which demonstrated what a "hard-boiled" chorus girl can do to a "Baek Bay" family, even to upsetting the even temper of a household of servants, who resent the intrusion of a "theatrical person" in the home of aristocrats.

Miss Wilkinson portrayed the "stage" chorus girl—how true to life she was no one in the audience knew—and Gene Kelly was effective as "Bishop Carton," uncle to Dick, who was attracted to Miss Blair through her ability to finish his quotations from Shakespeare, in which he indulged all too frequently.

Hazel Dugal as "Annie" the maid who led the insurrection in the household and blackened the butler's eye, was convincing, probably because of her very red hair. Others who took parts as servants—Jack Neely as the butler, Margaret Oster as the maid, Laurence Adams as the chauffeur and William Worthington as the gardener, all gave very good interpretations. Mr. Worthington also played the part of a ministerial friend of the bishop's who discovered on old acquaintanceship with

## FRANCE IS READY TO ACCEPT "IF"

Insists Commission of Experts on  
German Debts Must be Named  
by Reparations Commission

### FINAL DECISION WITH BODY

Fate of American Readiness to Aid  
in Bringing About European Set-  
tlement Rests With France

(By United Press)

Brussels, Oct. 26.—The Belgian government is considering the Anglo-American economic conference and is believed to favor having the reparation problem turned over to a consultation body of experts who would be appointed by the reparation commission, it was learned here today.

By JOHN DEGANDET  
(U. P. Staff Correspondent)  
Paris, Oct. 26.—France will accept the proposal of Secretary Hughes for settlement of the question of German reparations by a commission of experts, only if such a commission is designated by the reparations commission, it was learned from a semi-official source here today.

France will insist the commission of experts must report to the reparations commission on any possibilities for readjustment of the entire question of German debts.

Final decision on all these questions must be left to the reparations commission, admittedly under French control.

Premier Poincare, the semi-official statement said, will be delighted if the United States will agree to collaborate thus in a settlement of the reparations question "within the limits of the treaty of Versailles."

By A. L. BRADFORD  
(U. P. Staff Correspondent)

Washington, Oct. 26.—The fate of American readiness fully to aid in bringing about a settlement of the European crisis today again rested upon the disposition of France.

As all eyes turned upon the Paris government, it was the hope of high officials and diplomats here that a world economic conference, participated in by the United States would soon be convened to make a sincere effort to solve the reparations problem.

The note of Secretary of State Hughes to the government of Great Britain definitely setting forth America's willingness and readiness to aid in a reparations solution, was hailed today as a great step forward in the long history of the reparations controversy.

This communication was regarded as ranking with the Hughes proposal of nearly a year ago, if not as the most important step so far taken in the European situation by the administration begun by the late President Harding.

By LLOYD ALLEN  
(U. P. Staff Correspondent)

London, Oct. 26.—The salvation of Europe has been checked squarely up to France, a majority of the British press and public alike believed today.

Following the exchange of telegrams between Foreign Minister Curzon and Secretary Hughes, in which the United States agreed to participate in an international economic conference provided "all" the European allies chiefly concerned in German reparations are represented, opinion here considered the fate of Europe as depending on the attitude of Premier Poincare.

Attention of the whole of Europe

April Blair and placed her "right" with the "family."

Thelma Fanning as Dick's mother and Magdalene Arbuckle as his aunt and wife of the bishop could scarcely have been better. Wade Dill took the part of a village policeman.

Homer Cole's orchestra played between acts and between the second and third acts. Hiss Helen Jaehne, high school instructor, sang a group of two numbers and was called back for another.

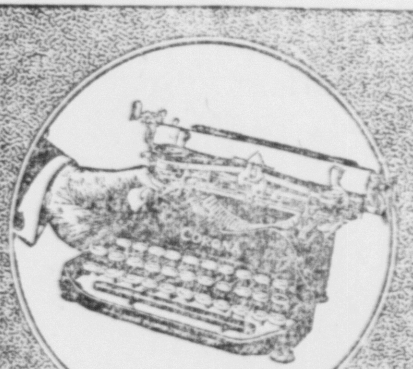

It would be unfair to tell the story completely because it would tend to lessen the enjoyment of those who will attend tonight.

Enough to say, however, that Miss Compton and Mr. Cotton do a very good job of acting, both as lovers and in the make-believe situations they are placed. Miss Compton was in good voice and Mr. Cotton, with expressive shrugs and grimaces, could scarcely have been better as a harassed young Harvard graduate in a mess, that threatened to ruin his future.

## Such Is Life!

When you take your girl to the dance this coming season she's liable to spring something like this on you. It's the latest in dancing slippers, just out in London.

## Come and see THE NEW CORONA

COMPARE the new portable typewriter with any other writing machine:

1. **Completeness:** It is really an office typewriter in portable form.
2. **Convenience:** Weighs less than 7 pounds. Fold it up, take it with you, typewrite anywhere.
3. **Durability:** Half a million in use; more than all other portables combined—sixteen years of satisfactory service.
4. **Speed:** Has the Standard Portable Keyboard—simple and easiest to learn for amateurs or touch-system operators.

\$50 with case.

## Fare Please

Society again has received a shock. Francis O. French, eldest son of Ames French and cousin of William Vanderbilt, has taken a job as taxi chauffeur in New York. He wants "to make another start in life." First photo taken showing French in his uniform.

## FRANCE IS READY TO ACCEPT "IF"

Continued From Page One

was centered on Paris as the first news of negotiations for the conference was made public.

A majority of the British press agreed this eleventh hour attempt for a settlement is absolutely vital if Europe is to be salvaged from desperation.

"We hope and earnestly believe that France will accept the invitation for a conference," the Daily News asserted today.

By CARL D. GROAT  
(U. P. Staff Correspondent)

Berlin, Oct. 26. —America's offer to participate in an impartial inquiry into Germany's ability to pay reparations has been made by a fresh declaration from Chancellor Stresemann that Germany will abide by results of such an examination.

The chancellor, in a speech at Hagen, reiterated the willingness of his government to submit the whole question of Germany's capacity to examination by impartial commission as suggested by Secretary Hughes in his New Haven address.

At the same time Stresemann warned France what she can expect if she rejects the United States offer.

"We already have offered more than we can fulfill," the chancellor asserted, "and we can't stand dictatorial treatment much longer."

Stresemann's speech strongly appealing to nationalistic sentiment had a steadying effect upon the country.

It was accompanied by strong action in Berlin where General Von Horn, military dictator for the Berlin area, forbade the currency printers to carry out the strike they announced yesterday. The government demanded printing of still more notes to meet the needs of the country for currency.

It was planned to print three hundred quadrillions of marks a week in notes of huge denominations.

The bread situation in the capital was somewhat improved today but

shortage of potatoes was serious. Barefooted beggars were seen haunting the residential districts where heavy iron bars and netting have been put on many doors and windows to guard against petty thievery.

Belgian soldiers were restoring order in Aix La Chapelle today after interfering between separatists and police in favor of the separatists. Four police were killed and fifteen wounded when the Belgians expelled the police from the city hall.

Herr Von Krupp, head of the famous steel works, was released from jail "temporarily" by the French today with three of his co-directors, Bruhno, Hartwig and Oesterle, it was reported from Essen. It was not expected they would return to jail.

Stresemann in his speech reiterated his previous declaration in the Reichstag that he would not sign any agreement that did not recognize the Ruhr and the Rhineland as German.

"We stand at the peak of the battle for the Ruhr and the Rhine," the chancellor said.

"The battle has been conducted with unequal weapons. Now separatist dangers have appeared, with French and Belgian aid."

"The federal government does not dream of bowing to this breach of the treaty of Versailles and all international law."

"The carnival spook of separatism must be ended in 24 hours more."

## 80 AT "CHURCH NIGHT"

No less than eighty persons were present during the second "Church Night" program held Thursday evening at the First Baptist church. A delicious supper was served at 6:45 o'clock followed by the study periods at 7:30 p. m. Forty-one are enrolled to date in the three study classes. Twenty children attended the children's hour during the study class period. The program closed with a service of worship and prayer. These programs are a special feature of the congregational activities until the holidays.

## Dignity for Afternoon Frocks

Dignity is the watchword among the new styles. Dresses are long and straight, with skirts about ankle length. Long sleeves, graceful drapes, and smooth flounces prevail. Sketched here are some of the most delightful of afternoon gowns.

THE WAY OF ESCAPE:—It shall come to pass in the day that the Lord shall give thee rest from thy sorrow, and from thy fear, and from thy hard bondage wherein thou wast made to serve.—Isaiah 14: 3.

## Education Pays Farmer

"In dollars how much does education increase the earning capacity of the young farmer?" is a question asked by the U. S. Bureau of Education. Some of the State Agricultural Colleges are publishing figures in answer to this question.

The Georgia Agricultural College collected the facts from 1,271 farmers of that State and found that those who had no schooling earned on an average of only \$240 a year, those with a good common high school education earned \$565 a year and those who had completed a high school course earned an average of \$664. The men who had completed an agricultural short course earned \$896 and those who had graduated from the agricultural college were earning an average of \$1,254 a year.

The Kansas Agricultural College had 1,237 reports. The average young farmer with a common school education earned \$422 a year, the high school graduate \$554. The men who had taken the short course in agriculture earned an average of \$859 a year, and the college graduate \$1,452.

## The Lawmaking Mania

Uncle Sam is afflicted with the lawmaking disease. His case is the worst in the history of the world.

The output is so large the law libraries cannot house it, the lawyers cannot digest or assimilate it.

It is said to be a fact that the 48 state legislatures enact more laws than are even proposed by five great nations.

The ratio before the war was fifty new laws in our country to one by any great nation of Europe.

It takes 650 large volumes to hold in printed form the Supreme Court opinions on questions of constitutionality.

The law library of Columbus University contains 100,000 volumes and increases at rate of 8000 a year.

Why not stop manufacturing so many laws, try enforcing some of them and repeal some of the others?

A smaller legislative output would be an evidence of political sanity.

## Over-Insurance And Arson

Over-insurance is one of the principal factors contributing to incendiary fires, Newman T. Miller, state fire marshal, states in discussing the causes of arson in Indiana.

Eighty-four percent of the incendiary fires in Indiana are the result of desire for personal gain, Mr. Miller says. They are caused mostly by the expectation of collecting the insurance. What is needed to check and control this crime evil, he says, is some method whereby insurance companies can limit amount of insurance to the actual value of the insured property. If this could be done Mr. Miller believes most of the fire loss from incendiarism will be eliminated, as there could be but slight gain in a recovery equal only to the value of the property destroyed.

The other principal causes of incendiary fires are revenge and the attempts to cover up other crimes. About 12 percent are due to efforts to cover up crimes. An increasing number have been laid to this cause in the last few years, as manufac-

tures of liquor have resorted to this means to cover up evidences of illicit distilling.

Prompt investigations and prosecutions of arson cases have resulted in reducing the number of incendiary fires in this state in recent years, and a relentless enforcement of the laws will be kept up, the fire marshal has declared.

## Current Comment

Not a Christmas Tree  
(Philadelphia Public Ledger)

President Coolidge speaks the American mind when he opposes the canceling of the Allied war indebtedness to this country. He voices American feeling also when taking the position that while there should be no cancellation, the nation is in favor of making very liberal arrangements in the fixing of interest rates and periods of payment.

The cancellationists are afoot with a revival of their perennial agitation that "something must be done." There, is however, so little genuine sentiment in America for out-and-out cancellation that it may be regarded as negligible. What the cancellationists lack in numbers they make up in noise. A considerable number of our self appointed liberals are "hipped" on the matter. It is favorite indoor, tea-flight, sport of theirs to resign, with a grand and sweeping gesture, the \$9,000,000,000 to \$11,000,000,000 Americans raised by taxation and Liberty Bond drives.

Dig deeply enough into the agitation and it appears that the essence of the whole business is to "help poor Germany." The arguments boiled down are that we can richly afford it anyway and that if we relieve the Allies of their debts to us then they will all be far more lenient on the much abused Teuton. France could then be bulldozed into withdrawing from the Ruhr and reducing her reparations bill. In other words, America should pay a large chunk of Germany's obligations to the Allies. Certain of our banking interests, for reasons that are fairly obvious, are very keen about swaying America over to the cancellationist attitude.

The cancellationists are battering their heads against a wall. The average American voter who names congressmen and ballots for Presidents is in favor of getting our money back when and if we can. If that is impossible, he believes these debts should stand on the books. There is not the slightest disposition to play the Shylock about it. On the other hand, there is no inclination to write ourselves down as a nation of easy marks or set ourselves up as an international Christmas tree.

Tom Sims Says

Why do they make court houses look so much like churches? A juror was caught asleep in Detroit.

Thousands of timid travelers will enjoy learning a Pullman porter was shot in Illinois.

## Commands German Reichswehr

General Von Seeckt is chief of staff of the Army of the German Republic, and his will be the task of putting down the various revolutions now threatening the Berlin government. He is shown reviewing the government troops who have just quelled an uprising in Kustrin.

FIFTEEN YEARS  
AGO TODAY

Tuesday, October 27, 1908

Nathan Weeks, Taylor Kitchen, Ad Denning, Will Bliss and Homer Powell will form a reception committee that will go to Connersville tomorrow morning to meet Senator Beveridge and accompany him here on the special train.

Rather mysterious were the invitations which summoned the Coterie to Mrs. Bingham's to meet "elves and haunts and spooks and things" in East Sixth street yesterday afternoon. Since this is the season "when owl-hoot and goblins seot and witches come and go," none was surprised when Mrs. Bingham announced a journey through the realms of English and American literature in search of the supernatural. After the reading of the paper, Mrs. A. L. Gary was initiated into the mysteries of the Coterie with all the most approved methods.

The silver wedding anniversary of Mr. and Mrs. Lewis Bagley occurred last Saturday evening at their home in Posey township.

On every hand activity rules the day in the Republican ranks. Not only is the county committee putting forth every honorable method to secure Republican votes, but all over Rush county the loyal members of the G. O. P. are shaping up matters for the big doings next Saturday.

Thomas Conroy, head chef at the Conroy restaurant here, was run down by a bicycle rider in Indianapolis yesterday and sustained a painful injury on the leg. "But you ought to see the other fellow," says Conroy with a great deal of satisfaction. He was thrown on his head for his reckless driving.

The engagement of Miss Bertha Meggie and Derby Green was announced last night at the regular Tri Kappa meeting at the home of Miss Helen Campbell. After the refreshments had been served, mints with cards tied on them imparted the intelligence of the announcement. The marriage will occur in December.

Mrs. Hannah Brown, who lives with her daughter, Mrs. Will Gregg, in West First street, suffered a second stroke of paralysis last Saturday and is in a very bad condition today.

Miss Mary Schattner, daughter of Mr. and Mrs. John Schattner of North Main street, and Henry Heckman, son of Mr. and Mrs. Henry Heckman, Sr., living southwest of this city, will be married at the Catholic church Thursday, Nov. 12 by Rev. Walter Cronin.

John VanOsdol left this morning for Scottsburg, Ind., where he will resume his duties as conductor on the Lewisville & Southern Traction Line.

## SAFETY SAM

Now'n then we run across a feller who thinks he's a careful driver b'cause he slowed down an' looked both ways at a car line in th' spring o' 1918!

PALACE STOVES NOW USED TO  
COOK FOR POOR CHILDREN

By GUS M. OEHRM

Berlin, Oct. 26—The stoves that once cooked the meals of the Hohenzollerns today prepared food for hundreds of hungry little children of poverty stricken families in Berlin.

At least a portion of the propaganda for the opening up of the famous castle of Kaiser Wilhelm at the end of Unter den Linden for practical purposes has been effective. The great kitchens where once the food of royalty was prepared have been replaced at the disposal of Austrian relief organizations, which are opening community food dispensing agencies throughout Germany.

The work, under the leadership of Frau Dr. Genia Schwarzwald of Vienna, is in return for similar aid given Austria during her trying days just following the armistice.

Food for from 3,000 to 4,000 persons may be prepared at one time in the big kitchens of the castle which, until opened for relief purposes, were unused since the Hohenzollerns left the castle so suddenly in early November, 1918. Last Summer a big hotel proposed to lease the kitchens from the Republican Government, but was turned down when rooms for restaurant purposes were also demanded.

Last Summer a move was organized by the Socialist press demanding that the castle be utilized for a apartments for the house-hunting folks of Berlin. This was unsuccessful a portion of the castle having long since been used as a museum, though most of the 700 rooms are locked to public gaze.

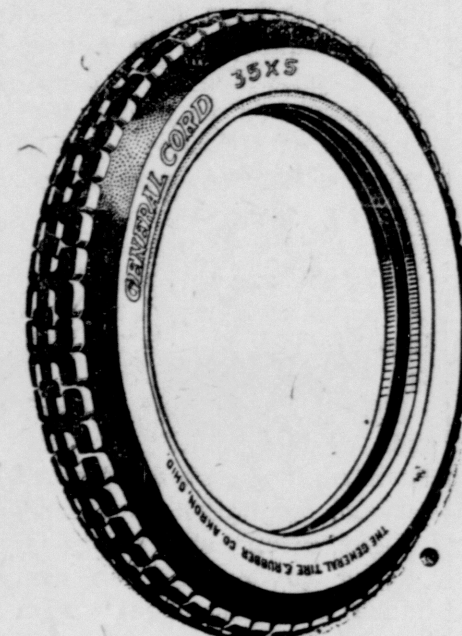

The castle attendants, who keep it in order and handle the museum crowds, etc., occupy servant quarters. It is necessary to keep quite a personnel on duty, the window washing job alone being quite an item—980 huge windows demanding periodic cleaning.

In Winter only twenty-nine of the rooms are heated. For this purpose huge piles of coke are heaped in the great open court beside the statue of Knight George, who killed the dragon. A few private wine dealers have rented space in the cellars to store their wet goods. Some few rooms have been occupied by public organizations, including the American Quaker Relief Organization, which has practically closed out its offices here. Much of the paintings, silver and linen have been taken away, some to other museums. Much of the furniture has been removed, the exiled Kaiser having taken many truck loads to Holland.

Vorwaerts, leading Socialist paper, recently demanded that the Government put aside sentimentality and turn the castle to financial gain. "The city needs money," the paper declares, urging the use of the castle for apartments, which would not only bring great revenue, but greatly aid in solving the vexing housing problem of Berlin.

Fort Wayne — Surveying for a \$10,000 tabernacle has been started at Lake Webster by officials of the Epworth League institute of the Northern Indiana M. E. Conference.

## Hardly Enough to Notice

Yet you would pay the railroad three times as much for 21,000 as for a 7000 mile ticket.

## CHURCH LEADERS IN SESSION

Music Subject Of Discussion At M. E. District Meeting Here

The officers of the church music organizations and several church leaders and organists of the Connersville district met at the home of Dr. and Mrs. J. M. Walker last evening from 7 to 9 o'clock p. m. for the purpose of discussing plans for the promotion of music in the district for this year. Those present were Mr. and Mrs. Garnet Chafee and Raymond Winton of Shelbyville; the Rev. R. O. Pearson and Mrs. Dr. Schooley and her daughter, Miss Anna, of Waldron the Rev. E. H. Omahundro, Mr. and Mrs. Chamberlain, Miss Sophia Macy, and Morris Clark of Liberty; the Rev. Arthur Jean of Fairfield; the Rev. Oscar Jean of Glenwood; and Mrs. A. L. Riggs and O. P. Wamsley of this city. An interesting and profitable discussion of the problems before them was had.

## Has Trouble

Jack Walton of Oklahoma isn't the only state executive having trouble. Gov. Walter M. Pierce of Oregon has been threatened with recall.

NOTRE DAME TO ENTER  
GAME WITHOUT LAYDEN

## MANY NET TEAMS IN PLAY TONIGHT

Seven Rush County High Schools  
Take The Floor Tonight in Basket-  
ball Conflicts

### GAMES THROUGHOUT STATE

Webb Plays at Carthage, New Salem  
at Moscow, Center at Raleigh And  
Morristown at Manila

Several high school basketball  
teams will be in action today in this  
county, with games scheduled at  
Carthage where Webb will do their  
best to bring home a victory, and  
Center will go over to Raleigh for  
a game. New Salem also will try  
their luck tonight at Blue Ridge,  
meeting the Moscow team, and Mor-  
ristown will journey down to Mani-  
la for a game.

The season in the county will soon  
be in full blossom, as other teams  
are preparing to throw their hats in-  
to the ring, and almost every team  
will be in action by next week, No-  
vember 2.

On that night, Rushville high  
school will pry off the lid with  
Brookville as their opponent, and on  
account of repair work under way  
at the Graham Annex gymnasium, it  
will be necessary for the first R. H.  
S. game to be played at the Modern  
Appliance gymnasium, rented by the  
Webb school for their games this  
season.

With only a few Rush county  
teams in action tonight, there are  
several hundred other teams in the  
state taking the floor and many of  
them are making their initial ap-  
pearance for the season. The list of  
games scheduled tonight in Indiana  
is as follows:

Bringinghurst at Rockfield.  
Bringinghurst at Rockfield.  
Ambia at Williamsport.  
Clarks Hill at Colfax.  
Camden at Royal Center.  
Chalmers at Buffalo.  
Clayton at Plainfield.  
Cynthiana at Madison.  
Darrington at New Richmond.  
Delphi at Rossville.  
Fairland at Waldron.  
Kingman at Hillsboro.  
Green Twp. at Bloomingdale.  
Hazleton at Francisco.  
Lacarne at Royal Center.  
Lafontaine at Laketon.  
Jasper at Logansport.  
Jamestown at Pittsboro.

# NEWSY GOSSIP IN THE WORLD OF SPORT

MANY HIGH SCHOOLS GO  
INTO ACTION TONIGHT

## Happy

Here's "Young" Stribling of Macon, Ga., with his family. Mr. Stribling, be it known, is the gent who recently caused the uproar in fistic circles by making Mike McGigue, light heavy champ, step some. First the referee called the bout a draw, then gave it to Stribling, according to wire reports, and finally called it a draw again. "Ma" Stribling (left), "Pa" Stribling (right) and the baby of the family helped their batter to train.

New Market at Wingate.  
North Vernon at Vevay.  
Monroe City at Oaktown.  
Monitor at West Point.  
McClint at Wallace.  
Ochlandon at New Augusta.  
Seima at Hartford City.  
Stockwell at Mulberry.  
Waynetown at Veedsburg.  
Whitestown at Carmel.  
Walton at Sharpville.  
Union at Owensville.  
Boxley at Seireleville.  
Arcadia at Young America.  
Raub at Sheldon.  
Pine Village at Newton.  
Leesburg at New Carlisle.  
Charlottesville at McCordsville.  
Atlanta at Walnut Grove.  
New Paris at Nappanee.  
Belleme at Marshall.  
Quincy at Paragon.  
Woleott at Brooks.  
Deedsville at Macy.  
Cortland at Scottsburg.  
West Baden at Winslow.  
Ambia at Williamsport.  
Mecca at Rockville.

Flint at Orland.  
Montorey at Medaryville.  
South Whitley at Ligonier.  
Becker at Freelandville.  
Remington at Freeland Park.  
Ashboro at Clay City.  
Converse at Bunker Hill.  
Pine Township at Boswell.  
Deer Creek at Cutler.

### MOVES TO INDIANAPOLIS

Mrs. Irene Reeves, who has been living northwest of Rushville, has accepted a position in the securities department of the J. F. Wild and company bank of Indianapolis and is moving to Indianapolis for permanent residence. Mrs. Reeves became widely known as a breeder of Big Type Poland China hogs, having taken up the business following the death of her husband, George Reeves several years ago.

The ladies of the Center Christian church will hold a market Saturday, October 27, at Cosand's millinery store.

## IRISH CRIPPLED FOR TECH GAME

Minus Star Fullback And Worn by  
Travel, Notre Dame Will Have  
Hard Going Saturday

### OTHER GAMES IN MID-WEST

Remarkable Showing of Purdue  
Against Iowa Is Worrying Chicago  
Fans Considerably

Chicago, Oct. 26—Back on their home field, worn by travel and crippled from the loss of Layden, star fullback, Notre Dame will trot onto the field tomorrow against the mighty of the south, Georgia Tech. The southern team is going to have its golden opportunity in tomorrow's game. It is likely that only the shrewd cunning of Coach Knute Rockne will stand between the Georgia Tech team and victory. That craftiness of Coach Rockne is sufficient strength for the followers of the Irish however. When the whistle blows tomorrow Notre Dame will once more be favorites and favorites at big odds.

Iowa and Ohio State are to clash in the consolation game in Ohio stadium at Columbus, O. Each was defeated by a strong Big Ten team last week.

Chicago is host to two Big Ten games tomorrow. Illinois meets Northwestern and Chicago plays Purdue.

Illinois, lacking both regular tackles, will face the danger of an up-set defeat by Northwestern. Against Chicago the Purple team looked dangerous.

The remarkable showing of Purdue against Iowa earlier in the year is giving the Chicago fans worry for Saturday. If Chicago continues to play its ball following game and converts blocked punts into touchdowns Purdue will return home defeated.

Another team will be relegated to the list of vanquished in the Minnesota-Wisconsin game at Madison, Wis. Minnesota has not played in a Big Ten conference game this year but is picked to lose by those who saw the Badgers crush Indiana with a 52 to 0 defeat last week.

Traditional rivalry holds sway at Ann Arbor, Mich., where the Michigan Aggies battle Michigan for the championship of Wolverine state.

Wounded from many changes in coaching systems in recent years, the farmers are given only an outside chance to win, by western conference fans.

Indiana has no game scheduled. Tackling practice and a short game between the varsity and freshmen teams will be their program, Coach Ingram announced.

### Sideline Glimpses

Chicago—Coach Stagg sent his squad through army drill on new formations today.

Evanson—Northwestern tapered down to signal practice today.

Urbana, Ill.—Coach Zuppke today assigned two linemen to the task of preventing injury to Grange, star back, from needless piling on by opposing team. The linemen will uncover Grange as soon as the whistle blows.

Madison, Wis.—Coach Jack Ryan sent his men through a long signal practice today to perfect the attack for the Minnesota game here Saturday.

Ann Arbor, Mich.—A veteran with reserve backfield players was the prospect for Michigan today on the eve of the Michigan Aggie game.

Minneapolis—Minnesota went through a short signal drill at Milwaukee today before continuing their trip to Madison Wis., for the Wisconsin game.

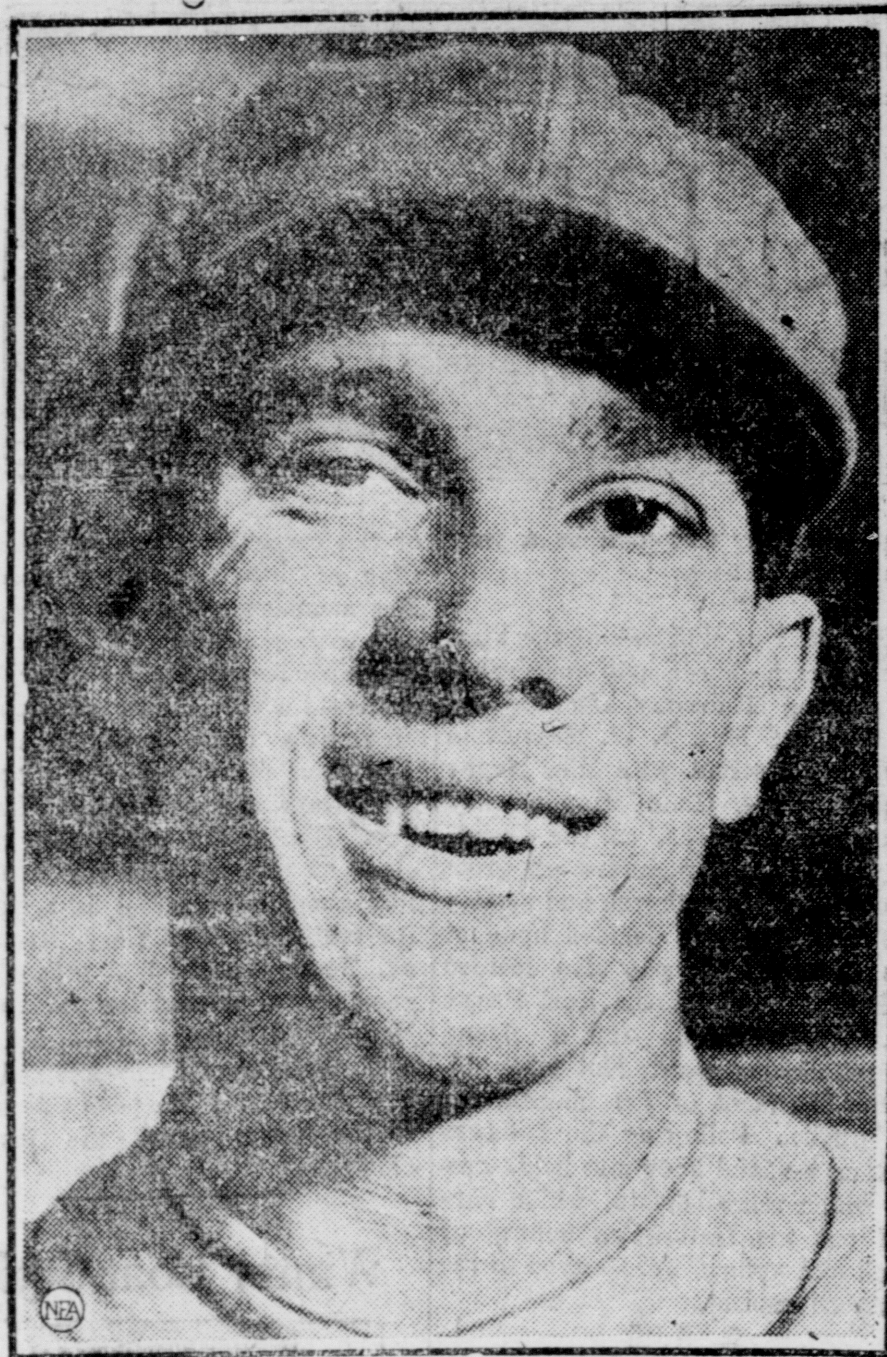

Iowa City—Light signal drills at Ohio stadium today were promised Iowa by Coach Howard Jones when the team entrained for Columbus late yesterday.

South Bend, Ind.—Georgia Tech will be guests at the dance given by Notre Dame seniors tomorrow evening after their game with Notre Dame. Tonight both rival teams are to attend a vaudeville program.

Lafayette, Ind.—Purdue left her Chicago this morning for the Chicago game tomorrow. Light signal drill will be taken on Staggs Field today.

Bloomington, Ind.—Regular tackling practice and a short scrimmage between freshmen and varsity elevens will mark the work for Indiana this week as no game is scheduled.

## ALL HAIL TO THE KING

John L. Simmons, Washington, D. C., catcher, is sand-lot champ of America. He earned his title in Cleveland, O., where city champs met in a play-off under auspices of NEA Service. Big league scouts and papers picked him as the best of the lot. Simmons is but 20 years old and is a "simon-pure amateur."

### Football at Halfway Mark

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, Oct. 26—Nothing but circus adjectives can be used to herald the approach of the weekly football attractions as the season draws to its close. "Bigger and better than ever, filling and thrilling," can be used aptly as descriptive for each succeeding program.

Again tomorrow, the card which will be offered for fans all over the country will be the best of the season. Last week's was just as much the best before this week's and next week's will be another best.

Three big inter-sectional games furnish the brightest spots on a very fine schedule that will be played off tomorrow.

Little Centre College, for several years one of the finest attractions in the country, will make its annual invasion of the east by appearing against Pennsylvania in Philadelphia.

Earlier in the season, the wise birds in the east, remarked: "Well, this is Centre's last big whirl in the east. The Colonels are through."

On the contrary, the evidence points now that Center not only is

likely will beat Penn and retain its former rating in the east.

Georgia Tech, once the leading standard bearer of the south and still one of the most illustrious representatives, also journeys across the border to meet the great Notre Dame team on one of the few occasions when the Notre Dame students have a chance to see their "Mick" idols in action in a big game.

This game should be one of the best in the season and Tech has assumed a big obligation.

Detroit University, which has risen high in the football world in recent years, also invades the east with a game against Washington and Jefferson. These two teams have become established rivals, and as both are high-class teams they should provide one of the real battles of the day.

Perhaps the most important game of the day, because of its effect on the eastern championship fight, will be staged in New York between the powerful West Virginia eleven and the always good Penn State team.

West Virginia was one of the outstanding teams of 1922, and the Mountaineers have another fine eleven this year. Penn State always has a smart, capable team.

## WILL MEET RIVERSIDE A. A.

Arlington A. A. Will Play Team That  
Has Been Defeated Only Twice

The Arlington Athletic club will meet the Riverside A. A. team of Indianapolis at Arlington Sunday. The game will be called promptly at 2:30. This team has been defeated only two times in 4 years and last Sunday they defeated the Western Independents of Indianapolis 63 to 0.

This looks like another hard game for the Arlington team, but it is in good condition and the strongest lineup of the season will start the game in order again to get in the win column. Ex-Captain Chet Northam has returned from Florida and will be in Arlington's line-up, which will greatly strengthen the team. Vern Keith and Rowland Coon of Shelbyville will also be in the game and will add strength to the Arlington aggregation.

### 6 Fielding Averages Are Used By Big Ten Football Coaches

Chicago, Oct., 27. — Accurate "fielding averages" of football players are necessary to insure fairness in choosing the eleven best men from the big squads which turn out each fall at "Big Ten" schools, according to coaches. Elaborate score sheets are used to show how many tackles each man made or missed, passes caught and dropped, success or failure at blocking, and a dozen other details in which coaches are interested.

Fraternity and class rivalry make a record necessary, according to Coach Fisher of Michigan, to protect coaches against charges of favoritism in picking the "varsity." Men who are "flashy" on the gridiron sometimes accomplish less than the man who remains in the background.

The scoring system is also helpful in aiding a coach to select a team from his squad suited to the opponents for a particular game. If the opponent aggregation is known to have strong ends and the center line is weak, the scoring charts will show which backs are more efficient at gaining through the line rather than skirting the extremities.

By use of the charts, coaches are able to instruct quarterbacks which carriers are liable to gain on certain plays. Interesting comparisons are found in yards gained by bucking and running backs.

The idea of gauging football efficiency by keeping a written record is not new, but has been developed to a much greater extent this season, it is said. Lake Forest (Ill.) college is credited with a well organized system of scoring tackles by both linemen and backs as early as 1893.

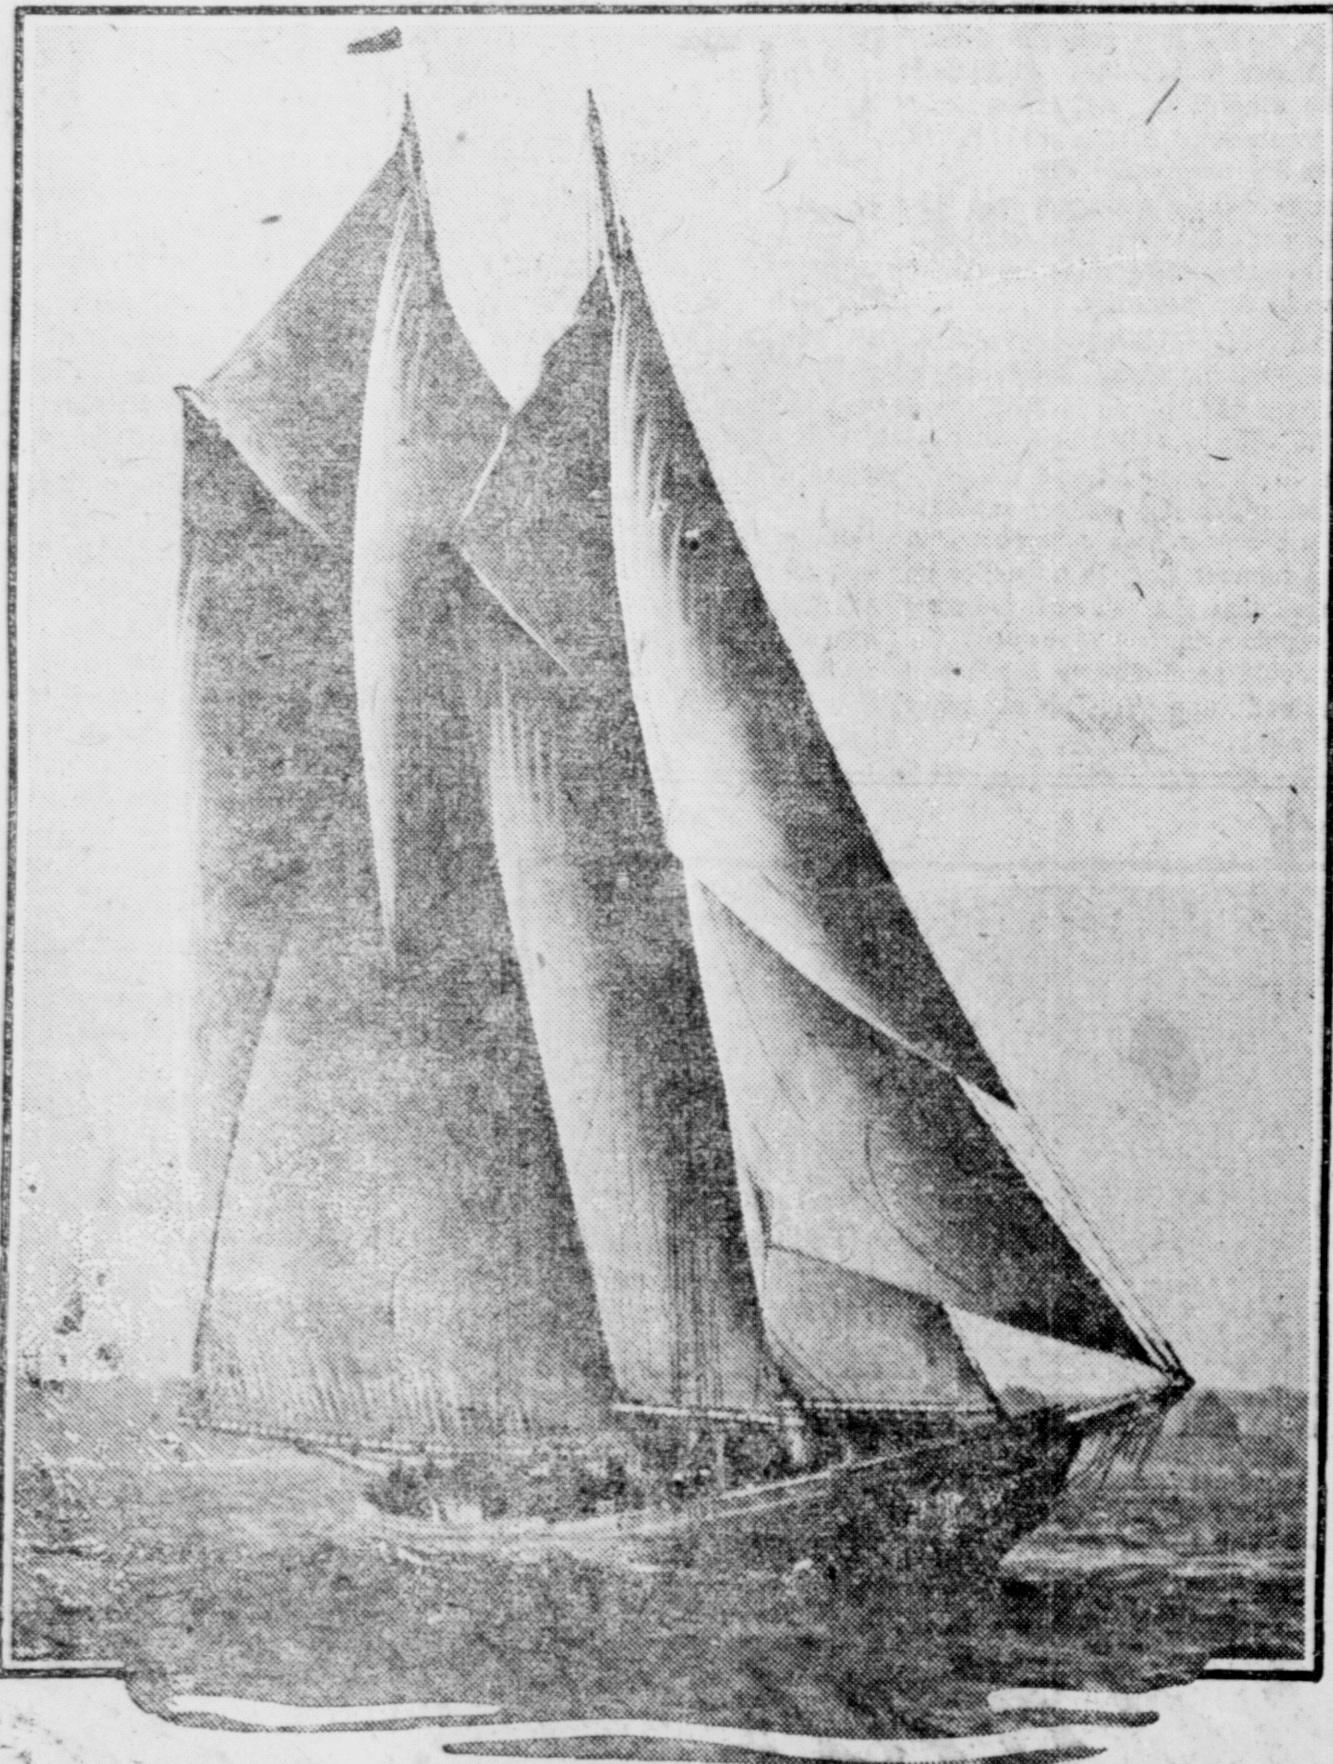

Scoring is done by student experts at Michigan where the system is said to be most efficient. At other schools, a coach or assistant keeps track of the plays.

## Social Notes

The regular meeting of the Rebekah Lodge will be held tonight at seven o'clock in the lodge rooms in West Second street.

Mrs. Verl Bebout will be hostess to the members of the Komentri Club Monday afternoon at 2:30 o'clock at her home in North Perkins street.

The Glenwood Christian church Sunday school will give a masked Hallowe'en social Tuesday evening, October 30, in the basement of the church. Everyone is invited to attend.

The Ladies Aid Society of St. Paul's M. E. church will meet Tuesday afternoon at 2:30 o'clock with Mrs. Homer Powell, 701 North Morgan street. She will be assisted by Mrs. Sarah Kinnear and Mrs. Sam Morgan.

A Hallowe'en dance will be given Tuesday evening, October 30 at the Elks club and the Miami Lucky Seven will furnish the music. A program of dances to suit everybody will be given, including the circle waltz. The dance is strictly invitational.

The choir of the Little Flatrock Christian church will hold a rehearsal Saturday night at the church, to practice for special music which will be rendered at the Sunday services, and all members are urged to be present. The executive committee will meet at the close of the practice hour.

Miss Maude Muncie, daughter of Mr. and Mrs. Siem Muncie of this county, and Green Morris of Indianapolis, were married at the St. Paul's Methodist Episcopal church Thursday afternoon by the Rev. W. H. Hargett. They will reside in Indianapolis. Mr. Morris is a conductor on the Shelbyville division of the Indianapolis & Cincinnati traction line.

Mrs. R. O. Veatch acted as a charming hostess for the Christian Union Aid society of Homer at her home Thursday afternoon near Homer. The regular business session was held in which it was decided to hold a food sale at Shelbyville near Thanksgiving. After this a short literary program was given, Mrs. Ethel Hufferd and Mrs. Margaret Miller giving interesting readings. At the close of the afternoon the hostess served delicious refreshments. The next meeting will be held November 22, with Mrs. Charles Cassidy. All members are requested to

## Can You Imagine?

YOUNG MEN'S CIRCLE  
MAIN ST. CHRISTIAN CHURCH  
Sunday School 9:30 A. M.

be present for this will be a very important meeting.

The Band of Workers of the First Presbyterian church held their regular meeting Thursday afternoon at the home of Mrs. J. W. Hogsett in North Main street, with Miss Nancy Hogsett, Mrs. Gunn Haydon and Mrs. James Brooks, as the assisting hostesses. Business of great importance to the church and society was discussed and decided upon at this meeting. It was also decided to hold a lunch at the Earl Payne sale, November 8, and a penny supper, Friday night, November 16, in the basement of the church, for the public. Following the business session, a social hour was held, during which refreshments, which carried out the Hallowe'en colors of black and yellow, were served to the members present.

The charity card party given by the Psi Iota Xi sorority Thursday afternoon at the Elks club rooms, was a charming social event of the Hallowe'en season. Yellow and black the Hallowe'en colors, were used profusely in the decorations of the club rooms and the many floor lamps with their attractive shades of the premonitory color scheme, cast a soft glow over the card tables and made a very pretty setting for the party. Other Hallowe'en emblems such as pumpkin faces, autumn leaves and black cats and witches, added to the decorative scheme.

Twenty-one tables of Bridge and Five Hundred were in session during the afternoon and a pretty handkerchief was given to a lady of each table as a favor. The sorority cleared \$55 from the party, which will be used for charitable purposes. Everything used for the event was donated and all the money taken in by the Psi Iota Xi sorority, was clear money.

As a closing feature of the charity party, refreshments in keeping with Hallowe'en were served to the guests.

Mrs. Albert L. Winship and Mrs. Charles A. Mauzy entertained the members of the Happy-Go-Lucky club and their husbands Thursday evening at the home of Mrs. Winship in North Main street with a 6:30 o'clock dinner party. The dining table was prettily decorated for the dinner with a large bouquet of chrysanthemums. Following the serving of the repast, an informal social evening was enjoyed.

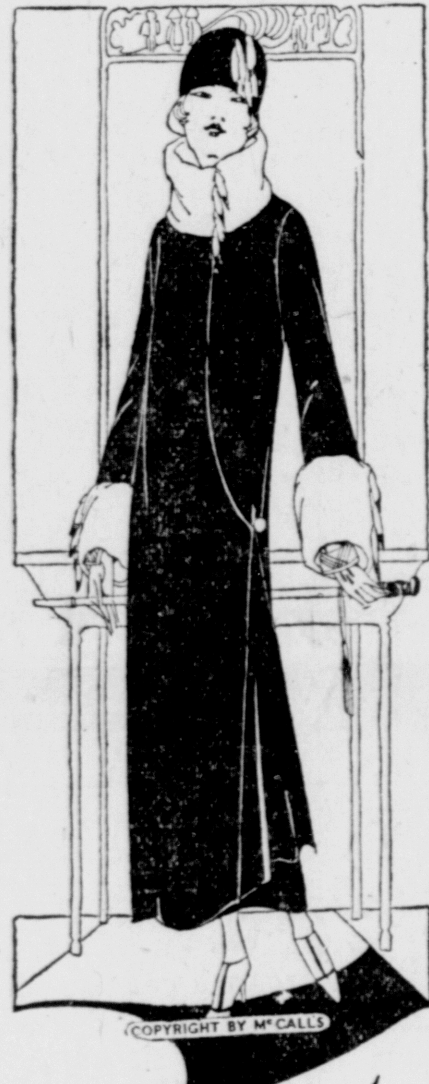

Mr. and Mrs. Guy Wiley entertained the members of the Thursday Evening club last evening at their home near Fairview. The guests were entertained with a Hallowe'en party, each one being masked and much enjoyment was had, guessing the identity of those who came masked. The home was decorated in keeping with the Hallowe'en spirit. The guests played euchre during the evening and when the card games were over, appropriate refreshments were served by the hostess.

The King's Heralds of the St. Paul's Methodist Episcopal church were entertained Thursday afternoon at four o'clock at the home of the Misses Virginia and Kathryn Bussard in East Sixth street. Thirty two members were present, and three new members were taken in at this meeting. Mrs. Foster Miller conducted the devotional period and the subject for discussion was "Japan." Anna Rebecca Allen rendered a piano solo. Hallowe'en refreshments were served at the close of the meeting.

Mrs. Curtis Scholl was hostess Thursday afternoon to the members

of the Priscilla Art and Literary Club at her home near Fairview. The members responded to the roll call with a county of Indiana and its characteristics. Mrs. Jesse Rees prepared a very interesting paper on "Indiana's Natural Scenery." A duet was played on the piano by Mrs. Ruth Hill and Miss Meriam Fry. During the social hour at the close of the program the members told ghost stories and as a reward for telling the best story, Mrs. Donald Foster received a gift. Three guests were present for the meeting, Mrs. Virgil Vickery of Raleigh, Mrs. J. E. Walther of Glenwood and Mrs. Glen Smelser. A luncheon was served to the guests when the program closed.

## Winter Coat Style

This is one of the most popular of the new styles for wraps shown in advance winter models. It retains the slight side drape and the flat front which is smarter still. The high collar is new and the curved opening line from throat to hip. Soft pile fabrics are especially adaptable for these graceful lines.

## CAREER OF C. P. STEINMETZ ENDS

Continued from Page One  
working and planning new electrical miracles.

Workmen were busy constructing, on top of one of the General Electric company buildings a Steinmetz lightning laboratory, where "the wizard" intended to make the elements perform according to his whim.

## TO EXPLORE MAYA RACE IN MEXICO

Exploration Soon To Be Made May Resurrect A Civilization Antedating That Of Ancient Egypt

### MAYAS LIVED IN YUCATAN

Carnegie Institution Of Washington Has Signed A Contract With The Mexican Government

By A. L. BRADFORD  
(U. P. Staff Correspondent)

Washington, Oct. 26—One of the most important scientific explorations probably ever undertaken and one which may resurrect a civilization antedating that of ancient Egypt will begin soon, in accordance with a contract recently signed between the Carnegie Institution of Washington.

This will be a complete exploration of the Maya race of Mexico. The Maya civilization flourished in Yucatan, Mexico. The impending exploration is regarded as of the greatest importance and significance to the scientific world.

The group of scientists who will undertake the exploration probably will be headed by Dr. S. G. Morley. Dr. Morley has lived and studied many years in Yucatan and is the possessor of the most profound knowledge on the Maya race. It is expected that at least he will be in charge of the archeological phase of the exploration.

Work is now in progress in Yucatan to clear away woods and brush that have grown up around the ruins of the Maya civilization in order to facilitate the investigations of the scientists.

A great human aid for the impending exploration has been discovered in Yucatan—a Maya boy, who is a direct descendant of the last Mayan king, according to word received here. It is said that this boy is able to read some of the ancient Maya writing and he will be employed to aid the scientists in their efforts to translate these thoughts of the hidden centuries.

The world has been unable only to guess at the achievements of the Maya civilization. But now the scientific exploration led by the Carnegie Institution is to make the most complete investigation of all phases

of the civilization of the Mayas.

The great Maya cities will be in part restored, the lives of the people will be delved into and the conditions under which they flourished will be studied to determine how this mysterious race was able to achieve its progress. The Maya treasures will be salvaged, and after the work has been completed this ancient resurrected civilization will be preserved for posterity.

As an example of the great attainments which the Mayas developed, it is said at the Carnegie Institution here that the so-called ball court of the ancient Maya city of Chichen-Itza, on which the coming explorations will center, was constructed in such a manner and its acoustics so arranged that the voice of ordinary pitch spoken in one corner of the court could be distinctly heard and understood opposite, about sixty yards away.

world on the subject of the Maya

The greatest scientists in the civilization will be asked by the Carnegie Institution to take part in the explorations.

### K. OF P. WORK TO BEGIN

The Knights of Pythias will meet Monday night at which time the active work for the fall and winter season will begin, and a class of 7 candidates will take the rank of Page. All members are urged to attend and renew their loyal interest in the lodge.

Bloomington—Plans for the erection of a \$75,000 building for social and religious educational work for the university students are under way according to the Rev. C. W. Harris, student pastor of the Presbyterian church here.

## Oklahoma's Great Flood

Houses were washed from their foundations and danced like corks upon the rolling flood waters inundating Oklahoma City. This first photo received from the devastated area shows some of the floating dwellings drifting down one of the principal thoroughfares. Four blocks away from this scene stands the largest traffic bridge in the world, which was severely damaged by the onrushing wall of the cataract.

## Just Think of It!

And here is the latest story they tell about Carmel Myers, movie actress of the west coast. They say—get this—that she bit into an oyster and found a pearl worth 16,200,000,000,000 German marks! Lucky girl. We haven't tried to verify the story—but she is a beautiful girl, isn't she?

## All Over Indiana

Greensburg —Mike Heger's ensilage cutter is not receiving fodder this week because Mike had too great faith in its cutting ability and fed it an ax.

Logansport —"Sure, she's boiling in the celler right now" replied Harrison N. Miller, 62, farmer near here, when prohibition officers visited his farm.

Seymour — A phonograph has rights, Edward Aufenberg has come to believe. Just as his machine "Goo-goo-Google eyes" in "Barney Google," the machine quit googling, had a tantrum and flew to pieces.

Warsaw —Emil Fencil and his brother look so much alike that witnesses, during Emil's trial, became so confused that he was released because of mistaken identity.

Fort Wayne — "Some persons know more about profits than prophets" Rev. Charles Reign Scoville told his audience at a revival here.

Tipton —A municipal swimming pool is assured Tipton. The Kiwanis club has raised \$6,400 to make Tipton safe for swimmers. The goal is \$9,000.

Booneville — A gubernatorial boom for Roscoe Kiper, former state senator from Warrick and Vanderburg counties, is under way among Republican workers and friends of Kiper here.

Tipton —A strange hog disease has appeared on Tipton county farms. The hogs become paralyzed in the hips for a few days, then die. Stockmen have been unable to classify it, and no cure is being effected.

Kokomo —Larry Ryan, Democratic county chairman, and C. H. Havens, former postmaster here, are behind a movement to organize a Ralston-Prentiss club in Howard county.

Logansport —Mrs. Elsa C. Roby, 80, has filed suit against her son, Conrad. She asks support, charging her son is in possession of the family home place and has refused to allow her to make her home there.

Boonville —A new waterworks system is contemplated for Boonville. A firm of Indianapolis engineers have been employed to make a water survey of the city.

Danville —An orchestra of 298 pieces has been organized among pupils of the Hendricks county public schools. A concert will be given in the spring.

Hartford City —H. L. Kegerreis has received a letter from Mrs. Harding in answer to two poems on the late president's death which he wrote and sent to the widow.

## BIRTHS

An eight pound boy has been born to the wife of Lewis J. Newhouse, at their home in Center township. The baby has been named, John Emmert Newhouse.

### 4 DIE AT GRADE CROSSING

Attica, O., Oct. 26—Authorities today probed a grade crossing accident which claimed four lives near here last night. An automobile waited while a freight train pulled past the crossing. Then as the automobile started over the track, it was struck by a freight engine running from the other direction.

## In Wind's Path

Photo shows Verdugo Valley (Cal.) fire, which, fanned by strong winds, swept miles of forest timber and threatened Pasadena and other cities. Many summer homes were destroyed.

GRAND OPENING OF *Gordon's* TO-MORROW  
Underselling Stores Saturday, Oct. 27th

## TO HONOR BIRTH OF HARDING NOV. 2

Logansport Is Making Plans For Big  
Republican Gathering In Observance Of Harding Day

### PROGRAM NOT ANNOUNCED

Plan of All Republicans Is To Make  
The Gathering Outstanding  
Observance In State

Logansport, Ind., Oct. 26—Plans are being made here to care for a big Republican gathering in observance of Harding Day on November 2, the birthday anniversary of the late President. John B. Smith of this city, and Robert C. Hiles, also of this city, are in charge of the arrangements, but the detailed program has not yet been announced. Mr. Smith is the Republican county chairman.

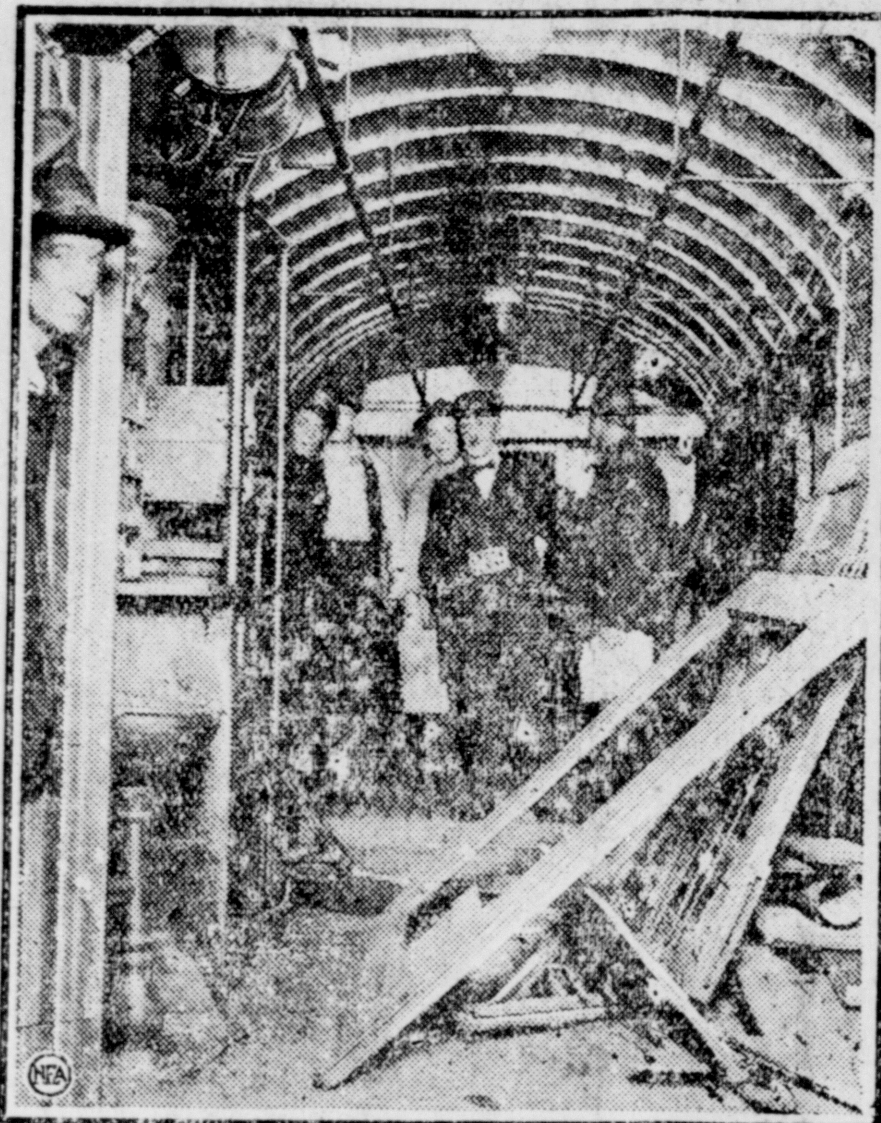

Delegations of Republicans from many nearby cities are planning to be in attendance, coming from Lafayette, Peru, Rochester, Delphi, Winamac, Monticello, Kokomo, Tip-

ton and Wabash, according to word received by Mr. Smith. Many of the prospective visitors have informed Mr. Smith that they will motor to this city, some coming in the afternoon and others for the evening ceremonies.

While Harding Day will be observed throughout Indiana, the plan of the local Republicans is to make the gathering here the outstanding observance in the state. The record of constructive achievement made by Mr. Harding as President will be the theme of the program, which will seek to emphasize that he put into effect economies of administration that have saved and are saving billions of dollars to the taxpayers. The specific achievements to be cited are the reduced government expenditures, lowered taxes, the prosperity that restored work for 5,000,000 men, who were idle when Harding took office, the foreign policy, culminating in the arms limitation treaties that stopped competition in building warships at enormous annual expense, and the gradual improvement of agricultural conditions, due to the tariff.

"The farmer, the laborer and the merchant know the distance they have traveled from 16-cent corn, 5,000,000 unemployed, and the gloomy business outlook of two years ago," said Mr. Smith, summing up

## It's All the Bandits Left

These few pieces of twisted wood and steel mutely tell the story of the recent sensational Southern Pacific holdup in a tunnel near Ashland, Ore. The debris is all that remains of the mail car the bandits dynamited. Three trainmen and a mail clerk were killed in the robbery. And this picture also gives an idea of the damage done to the baggage car adjoining the wrecked coach.

reasons for tribute being paid to the Harding administration of government.

### CLARKSBURG

Samuel L. Dobyns aged 68, died last Friday morning at six o'clock after an illness of only one hour, apoplexy being the cause of his death. He is survived by the widow, who was formerly Miss Boling, and a brother, Lemuel Dobyns of Greensburg; two sisters, Mrs. Jesse Whitten of Greensburg and Mrs. McCracken of Alabama who were here to attend his funeral. The funeral was held Sunday afternoon at two o'clock in the Christian church, the Rev. Walter Crawley officiating. Burial took place in the Clarksburg cemetery.

Mr. and Mrs. J. H. Travis of near Rushville were the guests of Mrs. Lucy Wilkinson Sunday.

Mr. and Mrs. Roy Angle and family were the guests of Mr. and Mrs. Oscar Carroll of near Rushville Sunday.

Mr. and Mrs. Birney Bohannon of Richmond were the guests of Mr. and Mrs. Albert Ray Sunday.

William Boling has gone on a visit with Mr. and Mrs. Lum Thompson of near Milroy.

Mr. and Mrs. Chester Bergen and family of near Fayetteville were the guests of Mr. and Mrs. Walter Brodie Sunday.

Win Hite has been ill with neuralgia.

Mrs. Mrs. Clint Emmert spent Saturday in Cincinnati, Ohio.

Mrs. Seierest of Laurel was the guest of her sister, Mrs. Clint Emmert Wednesday.

Roland Dobyns, who lives in the

south, is the guest of relatives here. Dr. and Mrs. Prosser Clark spent Wednesday night in Indianapolis.

Mrs. Mollie Robinson has moved into Firman Linville's house by the school house.

Ed Christian and family of Connersville were the guests of Mr. and Mrs. Wess Christian Sunday afternoon.

Max Kanouse visited with friends here over the week-end.

Mrs. Queen Spillman of Greensburg has been the guests of Mrs. Alex Burns.

The Ladies Aid society of the M. E. church held an all day meeting at the home of Mrs. Bert Cooper Wednesday. Dinner and supper were served to the public. They made between \$25 and \$30.

Mr. and Mrs. Lum Thompson of near Milroy attended the funeral of S. L. Dobyns here Sunday.

Several from here attended the Sunday school parade Saturday afternoon in Greensburg.

Fred Goddard's house caught fire on Tuesday afternoon but was put out before much damage was done.

## MOVIES

### "Penrod" At Princess

All the impishness of American boyhood jumps to the screen in "Penrod," the first National attraction which will be the feature picture at the Princess today and Saturday. Produced by Marshall Neilan from Booth Tarkington's inimitable stories the picture makes no pretence of "high brow" study; but offers an ebullience of American boyhood for sheer entertainment.

Just how many scraps an enterprising American youth can get into is apparently the chief object Penrod starts out to demonstrate. One of the most humorous scenes shows how he makes his bow in amateur theatricals when Mrs. Laura Rewbush produces her own childbrain "The Children's Pageant of the Table Round."

Unlike modern femininity Penrod carries a strict aversion to bare legs, especially when his upper trunks are a recognizable remnant from Dad's last winter red flannel underwear. So Penrod scurries into the dressing room of the leading lady and jumps into a borrowed pair of underwear that is about four sizes too large.

Just about the time that Queen Guinevere of the Table Round is making her most beautiful speech Penrod's upholstery begins to slip and descend. The ridicule of Maurice Levy, a rival for the hand of his lady fair, complicates matters and a general fight ensues, during which the curtain is rung down.

Freddie Barry in the role of Penrod is said to give the most creditable and laughable performance of the year in this production.

### DRIVER OF CAR RELEASED

Fort Wayne, Ind., Oct. 26—After a coroner's investigation, Willis Green, held in connection with the death of Carl Piepenbrink, was released from custody here. Green was arrested when it was reported that Piepenbrink's death was indirectly due to injuries received in a fight with Green.

### DRY AGENT'S HOME BLASTED

Dr. S. E. Conrad, Youngstown, O.,  
And Family, Not Injured

Youngstown, Ohio, Oct. 26—The home of Dr. S. E. Conrad, state dry agent of Salem, was destroyed by a blast of dynamite early Thursday.

Dr. and Mrs. Conrad and their daughter were badly shaken up but not severely injured.

The blast shattered windows in the Methodist church next door and cracked windows in buildings for several blocks.

Dr. Conrad, known as the "lone wolf" of dry raiders, has figured in several sensational raids in Youngstown recently.

Police believe the explosion today was the work of bootleggers.

### NEW LAMP BURNS 94% AIR

#### Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be a superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. N. Johnson, 609 W. Lake St., Chicago, Ill., is offering to send a lamp on 10 days FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

## The Hot Blast Air Tight FLORENCE

Will heat three times more space, at one-quarter the cost, in burning soft coal than any other stove with the same size firepot.

### WHY?

Because the damper back of the firepot burns the cheap-est soft coal or screenings and all the smoke and soot with

the same regularity and cleanliness as the burning of gas, producing a steady heat day and night.

### No Smoke! No Soot! No Dirt!

Two tons out of every three tons of soft coal are wasted in all heating stoves constructed without a damper back of the firepot. Besides the offense inside and outside the house from the accumulation of soot.

The Florence makes its own gas and burns it and makes its own coke and burns it.

You will have steady heat day and night. The medium size holds fire 3 days and 3 nights with one filling, other sizes in proportion.

The Florence is an investment. It pays for itself every two years in the saving of coal. In zero weather it will pay for itself the first season in the saving of doctor bills by elimination of irregular heat.

## DeLaval

DID YOU KNOW that the 1924 DeLaval Cream Separator has a smaller bowl than ever before.

DID YOU KNOW that you could get any part of your separator, it doesn't matter how old it is.

DID YOU KNOW that we could fix your separator if it's a DeLaval.

DID YOU KNOW that TEN years ago I tried to sell a fellow a DeLaval Cream Separator and he bought another make and since that time he has had two different make separators and the other day he bought a DeLaval

DID YOU KNOW that that man paid enough money for those other two machines to keep his DeLaval in repair and oil for a hundred years.

DID YOU KNOW that you need not buy but one DeLaval Separator, because you can get a new bowl and new bearings and shafts to fit your old frame.

DID YOU KNOW that sooner or later you will buy a DeLaval Cream Separator.

DID YOU KNOW that if you want to know anything about a DeLaval Cream Separator that our Mr. Pike can tell you.

## DeLaval

DID YOU KNOW that the DeLaval Separator is better and will out last any three of any other make

DID YOU KNOW that we have never traded for an old DeLaval separator.

DID YOU KNOW that we would not trade for any other.

## Gunn Haydon

### NEFF'S CORNER

Mr. and Mrs. Roscoe Lefforge, Mr. and Mrs. George Cameron and Miss Mag Emsweller attended church at Connersville Tuesday night of last week.

## 12 Good Reasons Why You Should Have An Account With This Strong Association

BECAUSE it is ABSOLUTELY SAFE. We loan on First Mortgages on improved Rushville and Rush County real estate.

BECAUSE we never go over two-thirds the value and generally about one-half.

BECAUSE with every payment our security gets better.

BECAUSE We HAVE NO BAD OR DOUBTFUL LOANS, and if any loss should develop in the future we have a fund of \$3500.00 to take care of it. This fund can be used for no other purpose.

BECAUSE the title to the property is investigated and is "good" before we will accept the loan.

BECAUSE we require borrowers to carry insurance to protect us in case of loss by fire or storm, usually to the full amount of the loan.

BECAUSE we are under State Examination the same as Banks and Trust Companies.

BECAUSE our active officers are under a heavy SURETY Company bond.

BECAUSE you can deposit to suit your convenience and you can withdraw in whole or in part WITHOUT NOTICE.

BECAUSE WE PAY 6 PER CENT AND NOT 3 OR 4 PER CENT. If not withdrawn this interest draws interest as it is compounded.

BECAUSE if you do not own your own home, possibly we can help you accumulate enough to make your payment of a part of the purchase price and we can help you with the balance.

BECAUSE there are many more GOOD reasons and no BAD ones.

Drop in and see us, maybe we can be of some benefit to you.  
We will be pleased to see you.

## ROADS, SCHOOLS LARGEST ITEMS

Analysis of Tax Collections Show  
60 Percent Collected Goes to  
These Two Funds

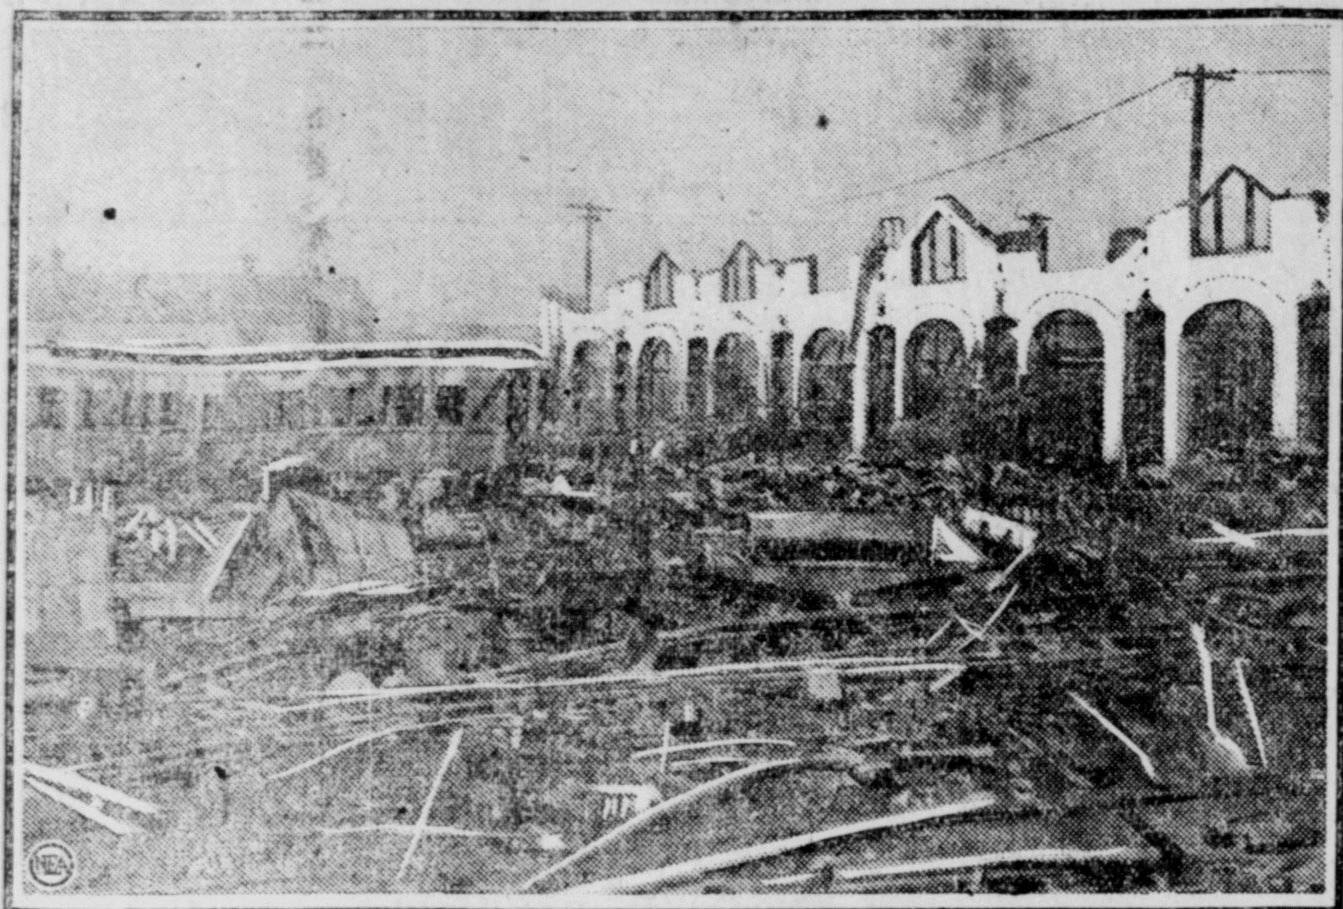

### OTHER DIVISIONS MADE

Study of Items Show That Schools  
Get 40 Cents And Roads 20 Cents  
of Each \$100

Indianapolis, Ind., Oct. 26—Sixty cents in every tax dollar is spent for schools and roads, according to the State Tax Board, which has completed an analysis of the use that is made of the taxes levied for collection this year. Particular interest attaches to the board's analysis because of the approach of Nov. 5, the last day for paying the last installment of the 1923 taxes.

While tax collections will not be completed by the county treasurers for almost three weeks, the board's analysis nevertheless applies to the 1923 taxes, being based on the amount levied for collection this year by the several units of government that exercise a taxing power.

In its analysis, the board distinguishes between the various levies made for state, county, township and city purposes, and also points out that 12.69 cents of each tax dollar is under state control and that the remaining 87.31 cents are under local control. The showing that more than half the tax money goes for roads and schools is given by the board, adding together the various

A fierce blaze in the railroad yards at Camden, N. J., destroyed \$700,000 worth of property, leaving but the ashes and the charred shells of steel coaches. One fireman was injured, but no lives were lost.

educational and road levies of the four taxing units. A study of these items reveals that schools get about 40 cents, and roads about 20 cents, with a considerable part of the road money going to pay off bonds and interest for past improvements.

The division of the tax dollar by cents and fractions thereof according to the use made of the money is shown by the board's analysis, which follows:—

State	
State tax (administrative purposes)	1.12
Benevolent institutions	3.64

Tuition (grade teachers' salaries)	3.39
Purdue, Indiana & State Normal	2.27
Vocational education	.23
Teachers' pensions	.23
Agricultural Experiment Station	.18
State highways	1.36
World War Memorial	.18

County	
County tax (administrative purposes)	9.24
Gravel road repairs	5.60
Road bonds and interest	11.60

Township	
Township tax (administrative purposes)	1.46
Tuition	18.32
Special school	14.59
Roads and additions	2.27
Poor	.70

City	
General Fund	12.53
Street	.36
Light and water	.49
Miscellaneous (see note)	10.25

Note:—The miscellaneous items include local levies made to raise funds for special judgments, sinking funds for special judgments, sinking pools, playgrounds, street oiling, cemeteries, police pensions, etc.

### The Life of a Home

A healthy, happy, contented wife is the life and joy of the home and the greatest inspiration a man can have, yet how many homes in America are blighted by the ill-health and sufferings of the wife and mother. It may be backache, headaches, the tortures of a displacement or some other ailment peculiar to her sex, which makes her irritable, despondent, and her whole life a burden. Every woman in this condition should rely upon Lydia E. Pinkham's Vegetable Compound made from roots and herbs to restore her to health and happiness, for statistics prove that it benefits 98 out of every 100 women who try it.

## STEEL INDUSTRY OUTLOOK BRIGHT

Many Inquiries And Large Orders  
Received From Railroads Has  
Given New Impetus

### 1924 ORDERS ARE LARGE

Japanese Industries And Reconstruction Firms Show Interest  
Following The Disaster

By BRUCE SHORT

President, Engineers Sales Corporation  
(Written for United Press)  
Indianapolis, Ind., Oct. 26—The appearance of inquiries for large orders from railroads has given new impetus to the steel industry which brightens the outlook for general business conditions.

These railroads have been withholding their orders pending concession in prices. It remains to be seen what the concessions will be if any at all are granted.

Booking of orders for this period of October have been far above the average for September. This condition indicates an improving condition of all kinds of business, because steel is taken as a barometer of trade for enterprises in which it does not enter directly.

Orders for steel rails used on railroads and interurban lines for 1924 delivery are far in excess of the number of volume received at the various mills during the first nine months of 1922 for 1923 delivery.

Japanese industries and reconstruction firms have begun to place their orders which consist mostly of galvanized sheets of steels and nails. The Japanese disaster revealed to a greater extent than had ever been revealed before, the superiority of American concrete and steel construction.

All buildings and structures in the region of the earthquake, fire and tidal wave which were of American construction went through the catastrophe with small damage, while other buildings nearby were wrecked. This fact is sufficient to induce residents of Japan and other countries of the orient to buy American products in preference to those from other nations.

The imperial government of Japan has appointed a committee to investigate the advisability of rebuilding certain sections that were destroyed in the calamity. The government is considering the formation of a purchasing organization to buy all supplies and equipment. The purpose of this is to eliminate any unjust prices which "scalpers" of construction material may try to obtain.

### PROBES AUTO ACCIDENT

Muncie, Ind., Oct. 26—A grand jury investigation of the auto accident here two weeks ago which caused the death of Miss Matilda Shront, 23, was asked by Coroner J. F. Downing in his verdict filed today. He charges that Jesse Lawson was responsible for the accident and that Lawson was intoxicated and driving at a furious speed when the crash happened.

### NURSES' OFFICERS TO MEET

Indianapolis, Ind., October 26—Officers of the Indiana State Nurses' Association will meet at the state-house Saturday to outline plans for the coming year and appoint standing committees. Miss Ina Gaskill, president announced today.

## CHAS. M. TROWBRIDGE'S SALE OF 50 High Class Duroc Jersey Hogs TO BE HELD AT WOODLAWN FARM Wednesday, Oct. 31, 1923

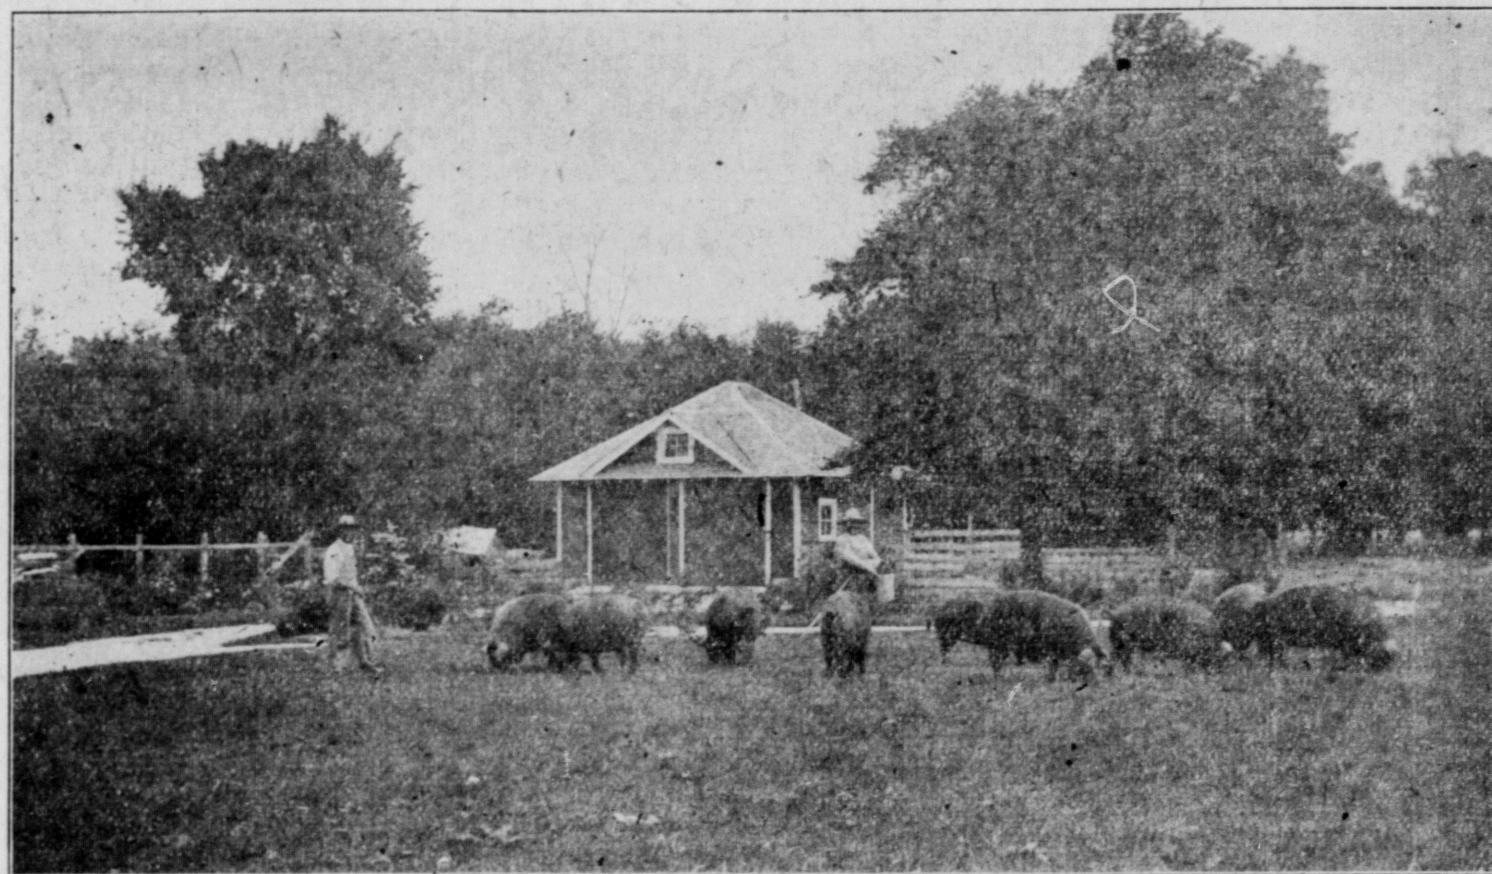

Farm three-quarters of a mile west of Mays, Ind.; ten miles north of Rushville; seven miles southeast of Knightstown. Midway between Indianapolis and Richmond—four miles south of National Road.

20 SPRING BOARS

30 SPRING GILTS

Sired by Hoosier Giant, Jr., Foust's Top Col. Jr., Uneeda Orion  
Sensation, Barton's Sensation Leader, Orion King Perfect

Some of the greatest boars of the breed. Dams equally well bred and big room sows.

### A FARMER'S INSPIRATION

The Old Red Sow is the surest way for the farmer to avoid bankruptcy. Drive your corn off on four legs and leave the fertilizer on your farm. Work at your trade throughout the year, the same as the merchant and factory. The farmer carries the burden, but he will not balk. The greatest minds of the Nation are at work to tide the farmer over a business earthquake following a world war. Pork means profit. Ton litters pay taxes. Balanced rations mean better results. Sanitation means safety first. Pure bred hogs mean cheaper production.

Good Dinner will be served by Ladies of Center Church.

IGLEHART and BUTTON, Auctioneers.

EDGAR PHILLIPS, Clerk.

### CHICAGO WANTS CONVENTION

Believes It Can Snatch Democratic  
Meeting Away From New York

Chicago, Oct. 26—A campaign was launched today by businessmen and political leaders to bring the Democratic national convention to Chicago.

After conferring with George Brennan, Democratic chieftain of Illinois, who believes it is not yet too late to snatch the big convention away from New York City, two representatives of the Chicago Association of Commerce announced they would start a campaign to raise \$100,000 the amount Brennan said would be necessary.

While political leaders believe it is practically certain the Republican convention will be held in this city, the newly elected Democratic administration is anxious to have the second big conclave here also. New York has been suggested as the possible convention city for the Democrats.

### Nearly Died on Birthday

"On my last birthday, eight months ago, I had another close call. We had just finished dinner. My stomach began to hurt me, a minute later I lay unconscious. Three doctors worked on me. I was soaked with a cold sweat when I came to. The next week, telling a friend about it and he advised trying Mayr's Wonderful Remedy. Since taking a course of your medicine I have been able to eat anything. I have no more pains or bloating and am feeling better than for ten years." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by druggists everywhere.

## GOVERNMENT NOW FIGURES ECONOMY

It is An Unpopular Issue With Printers And Engravers Dismissed From Service

### 118 MEN WERE NOT NEEDED

Another Example How Big After-War Force of Employees is Being Reduced as Needed

Washington, Oct. 26—The difficulties which officials of the National Administration always meet when they endeavor to reduce the public payroll are illustrated by the turn of events when there was a recent dismissal of 118 plate printers at the Bureau of Engraving and Printing. It was found that there were more employees than were needed and an order was made for the dismissal of this number. In order that the dismissals might be made with a view to promoting the interests of the Government and without injustice to employees, an efficiency test was made so that the least efficient might be dismissed and the Government thereby retain those who will render the most acceptable service.

In this case, as in almost every other when dismissals are ordered, a protest went up from those who were to be severed from the Government payroll. This protest would have been heard regardless of the personnel to be dismissed. Not only did the individual employees protest personally but they took their complaints to their Senators and Congressmen in an effort to secure the assistance of their representatives in the legislative branch of the Government to retain their positions in the executive branch. Naturally, members of Congress, feeling it their duty to look after the welfare of all their constituents, backed up these protests as strongly as they felt they were justified in doing.

There were no charges of dishonesty or incompetence against the persons who were singled out for dismissal. The fact is that during the war, when the government was issuing bonds, there was an abnormal amount of work for the bureau of engraving and printing and the number of employees was greatly enhanced. There have already been large reductions in the force, and these reductions are continuing because the work of the bureau is

### Good News

Secretary of Navy Denby, his friends are glad to know, is again out of the hospital. He suffered with a torn tendon in one heel, and still must use the crutch, as the photo shows. Snapped as he came from the Orthopedic Hospital, New York.

steadily diminishing. Moreover, better methods have been instituted which also permit the employment of a smaller number of persons.

Feeling under obligations to protect the public interest by reducing the number of employees whenever possible, the administration ordered the dismissals and did everything that could possibly be done to guard against favoritism or the retention of the least efficient. Notwithstanding its good purpose and its effort to perform its duty as fairly as possible, the administration is subjected to severe criticism by the persons who are dismissed and by their friends, and influence is sought to prevent this reduction of public expense. Some newspapers at the national capital take up the cause of the dismissed employees and encourage the feeling that an injustice has been done.

From the practical standpoint the situation which confronts this administration and every other administration is this: Persons who are threatened with dismissal, and their friends, bring every possible influence to bear to prevent the reduction in the public payroll. On the other hand, there is no public interest in the effort at economy. The administration gets censure on the one hand and no praise on the other. No taxpayers' league will send in a communication commending the administration for its effort at retrenchment.

It is this fact that makes difficult the task of any administration following a period of abnormal governmental activity such as that during the world war.

## AUGMENTS STATE HIGHWAY SYSTEM

J. D. Williams Speaks of Future Plans of State Roads' Body Which Puts Indiana Well to Front

### ROADS TOUCH 92 COUNTIES

Sixty-six Percent of Total Population of Indiana is Benefited From State Highway System

Indianapolis, Ind., Oct. 26—Distances are shortened, isolated parts of Indiana placed in touch with the larger commercial and industrial centers, and southern Indiana's fruit belt and great scenic beauty now have an outside market and is available to thousands of tourists respectively, by augmentation of the state highway system and the construction and maintenance work of the past year, John D. Williams, director of the state roads' body declared today, speaking of future plans of that governmental agency which is putting the state well to the front in the good roads program of the nation.

Mr. Williams said that the federal aid system in Indiana now touches each of the 92 counties, and that state roads pass through all but four of ninety-three cities of over 2,500 population. Cities of this class excepted are Dunkirk, 2,532; Gas City, 2,870; Hobart, 3,450, and Nappanee, 2,678. A population of 1,472,483 or 99.22% of the population of the state residing in cities over 2,500 are served.

Relative to towns under 2,500 population, the state system passes through 537 municipalities and serves 239,204 people or approximately 40% of the population living in towns of this class. State roads pass through a total of 626 towns and serve a population of 1,711,687 people or approximately 80% of the public living in cities and towns, and 58.41% of the total population of the state.

Assuming that 30 percent of the state's rural population is served by state roads, then a total of 1,951,687 people or 66.6% of the total population of Indiana benefits from the state highway system.

There are approximately 4,652.5

miles in the Indiana state road system. On the basis of population served in cities and towns only, the average population per mile of road is 367.9; on the basis of total population served, the average population per mile by state roads is 629.9.

lation served, the average population per mile is 419.5, and on the basis of the state's entire population, the average population served per mile by state roads is 629.9.

# JOINTS-EASE

For  
Stiff, Swollen Joints  
RHEUMATIC OR OTHERWISE

Says: "When Joint-Ease Gets in—  
Joint Agony Gets Out."

It was a high-class pharmacist who saw prescription after prescription fail to help hundreds of his customers to get rid of rheumatic swellings and stiff inflamed joints.

And it was this same man who asserted that a remedy could and would be compounded that would make creaky, swollen, tormented joints work with just as much smoothness as they ever did.

Now this prescription, rightly named Joint-Ease, after being tested successfully on many obstinate cases, is offered through progressive pharmacists to the millions of people who suffer from ailing joints that need limbering up.

Swollen, twingy, inflamed, stiff pain-tormented joints are usually caused by rheumatism, but whatever the cause Joint-Ease soaks right in, through skin and flesh and gets right to and corrects the trouble at its source.

Remember Joint-Ease is for ailments of the joints, whether in ankle, knee, hip, elbow, shoulder, spine or finger, and when you rub it on, you may expect speedy and gratifying results.

It is now on sale at all druggists and druggists everywhere for 60 cents a tube.

## WILL FLING HAT INTO RING

Shank Expected To Announce Candidacy For Governor Saturday

Indianapolis, Ind., October 26.—Mayor Samuel Lewis Shank will send his hat sailing into the ring for the gubernatorial race Saturday night, his friends said today.

The occasion of the announcement will be a dinner given for the mayor's cabinet by Charles E. Coffin president of the board of works.

"I've received some mighty encouraging reports from big men over the state and unless something turns up, I expect I'll be in the race soon," Shank said.

The mayor indicated he is preparing a platform to present in his announcement speech. One of the planks probably will be a proposal that a few state highways be electrically lighter from border to border.

"I've got a lot of other stuff that hasn't been proposed before, too," the mayor said.

## CALLS ATTENTION TO '23 MOTOR ACT

(Continued from Page One)

the culpability of said operator, who leaves the place of said injury or accident, without stopping and giving his name, residence, including street and street number, and operator's license number to the injured party, or to a police or peace officer, or in case no police or peace officer is in the vicinity of the place of said injury or accident, then reporting the same to the nearest police station, peace officer or judicial officer, shall be guilty of a felony."

The penalty for failing to comply with the above statute, is a fine not exceeding \$500, to which the court may add imprisonment in jail or at the penal farm, for a term not exceeding two years. The court may, if it sees fit, inflict either a fine or sentence, or both.

If a person shall be convicted for the second time on the charge of failing to stop, the crime becomes punishable with a prison term of not less than one year, nor more than five years, and upon conviction for the second time, it is the duty of the court to certify the facts to the secretary of state, who shall revoke the license of the person convicted for a period of one year.

The law sets out also that it shall be unlawful for any convicted person, having been twice found guilty, to operate any motor vehicle, either his own or anyone else's car, during that period of one year, in which the secretary of state designates by regulation the license.

voicing the license. There is a penalty attached for the violation of this section.

Under the motor vehicle law, it relates that any person making a false statement in a verified application for registration, shall be guilty of a misdemeanor, punishable by a fine not exceeding \$50.

The law also continues: "Any person operating a motor vehicle or motor bicycle, while in an intoxicated condition, or under the influence of drugs, shall be guilty of a misdemeanor punishable by a fine not exceeding \$500, to which shall be added imprisonment in the county jail or at the Indiana State Farm, for not less than ten days or more than six months, and for a second or subsequent offense, such person shall be deemed guilty of a felony, and shall be punished by imprisonment for a term of not less than 1 nor more than 5 years.

## OXYGEN BIG FACTOR IF GIVEN CORRECTLY

Dr. McMeekham Declares Athletes Would Out-Do Themselves With Oxygen Stimulant

## WAS WHAT FIRPO NEEDED

Chicago, Oct. 24.—If Luis Angel Firpo had been given a shot of oxygen just before that fatal second round of his fight with Jack Dempsey in New York, the South American probably would have won the heavy weight championship, Dr. F. H. McMeekham, Avon Lake, Ohio, told the United Press today. Dr. McMeekham is attending the meeting of the National Anesthesia Research Society here, and is regarded as one of the leading anesthetists of the country.

"Oxygen is a powerful stimulant and if properly administered athletes could out-do themselves and send present world records toppling," Mr. McMeekham said.

"Take running for instance," he said. "If runners were given oxygen a few moments before they enter a race they could lower existing speed records by a considerable margin. The oxygen would give the runner his second wind, and you would never see him dropping at the tape. He would finish with a great burst of speed and be as fresh as when he started."

"If Firpo had been given oxygen during that minute's rest he would have come up for the second round with his second wind, a clearer head and we might have had to chase to Argentina to reclaim the title."

Dr. George W. Crile, noted surgeon of Cleveland, told the 13th annual conference of the American College of Surgeons that the human body is an electrical machine composed of twenty eight trillion electric cells. Death results when the body ceases to capture energy to run the organism he said.

## TAX ON SIGNS ALONG ROADS IS URGED BY HIGHWAY OFFICIALS

Indianapolis, Ind., Oct. 26.—Massachusetts will hereafter put a tax on the highway sign even though erected on private property, according to GOOD ROADS MAGAZINE. Highway officials of that state contend that the value of the sign is derived from the public highway, not from the private property on which it is located, and that the first obligation is to the public who owns the highway and gives the sign an advertising value. Permission from the land owner is a secondary matter. It would be well for other legislatures to extend the Massachusetts idea and give the highway authorities some control over all signs erected on private property that in any way derive their value from their location as regards public highway.

thinks the editor of this eastern magazine. This is the only way that the highway officials can keep any control over the sign and billboard nuisance along the public highways.

It will be recalled that more than a year ago the Indiana highway commission through its director, John D. Williams, promulgated an order to remove all advertising signs on the right-of-way of state roads. Millions of signs were removed, and today state roads are practically free of advertising matter. Members of the Indiana commission after investigation, determined that such a step would reduce traffic hazards, because in the majority of cases

signs were erected at sharp turns and on steep grades thereby obstructing sight distances. Their version proved correct for with the removal of signs accidents are less frequent.

Mr. Williams has announced that as soon as the state system is marked with the new numbers and danger and information signs, which work is now progressing well, it is contemplated to remove all signs of whatsoever character off state controlled roads leaving nothing but signs erected by the commission.

## MORRISTOWN TO HOLD ELECTION

Two Tickets Are In The Field And Interest Is Being Shown In Forthcoming Ballotting

### REPUBLICAN AND CITIZEN

Clerk, Treasurer And Two Councilmen Are To Be Selected By Citizens Of Town Nov. 6

A general election will be held in Morristown on November 6, and two tickets have been placed in the field, with considerable interest being shown in the campaign, although it is an off-year in elections.

Morristown is the center of political interest and occupies somewhat of an uncommon station at this time as plans are going on for the town election that will be held there Tuesday, Nov. 6. Although this is an off year generally for elections in Indiana, the incorporated towns in practically every county will vote for town officials, keeping alive the feeling that politics is never quite entirely dropped in the state.

The residents of Morristown will elect a councilman for the second and third wards and a clerk and treasurer of the town at the November election, the only political election held in this section this year. Reports from the community state that the interest in the election is very tense and that campaigning is being conducted with as much spirit as in the years of regular political elections.

Two tickets have been placed in the field for the November election at Morristown. The republican and citizens' tickets are both strongly organized with candidates named for each of the four offices to be filled in the election. The two tickets were organized at meetings held weeks ago by the citizens of the town.

The citizens' ticket has Charles Jackson as candidate for clerk; Carl Reece, candidate for town treasurer;

## THE OLD HOME TOWN By Stanley

Oliver Olinger, for councilman, second ward, and Charles Campbell, for councilman in the third ward.

Republicans have nominated Henry E. Barnard for town clerk; Levi Trimble, town treasurer; Robert F. Seng, for councilman in the second ward and Eugene Cole for councilman in the third ward.

### Prussia, Facing Hunger, Appeals To The Public

By GUS M. OEHM

Berlin, Oct. 26. —At least one warm meal a day for every Prussian during the coming Winter is the slogan announced by the Prussian Government.

Pointing out the great need for community co-operation because of "results growing out of the war, the Ruhr occupation and the crash of the mark and high prices," the Prussian Ministry promising food for everybody who needs it, appeals for aid from those who have aid to give. "Only he who breaks bread with the starving has a right to sit at his covered table in his warm dwellings," the appeal declares, stressing the fact that great sums of money are needed to feed the thousands who will be without work this Winter.

"Our plans must be put into immediate execution," it continues. "Every man whose hearth is still warm, whose pantries are still filled, who can supply his own daily needs, should be glad to aid those who power to work is breaking down through hunger. He must make it possible to shield our children, old folks and prospective mothers from want.

The Prussian Government will mobilize its technical relief organizations in the shortest possible time to carry out its plan of establishing community feeding centers in every city and village. The poor people the suffering middle classes and others in need must have at least one warm meal a day."

Germany has taken steps to insure a potato reserve for the Winter—at the expense of the brandy industry. The Food Ministry, pointing out that the coming potato harvest will not live up to expectations and that the potato is Germany's cheapest and most utilized food, has instructed the Railroad Ministry temporarily to refuse to deliver potatoes to distilleries, lake factories, starch factories, dried potato and other alleged non-essential industries.

Much of the present potato crop has been plundered by individuals and organized bands, who have gone into the fields by the thousands, carrying away tons upon tons of potatoes. This has discouraged the agricultural barons, who threaten not to plant a new crop.

Announcing the program "Potatoes for Food," the Government has taken a direct slap at the distilling business, which must now obtain either by private automobiles or other non-Governmental delivery means. The railroads, until enough potato reserves are gathered to insure a sufficient Winter supply, must refrain from delivering to them.

This step is considered a serious blow to alcohol distilleries, but is greeted with approval by the populace.

**1200 PURDUE MEN GOING**  
Lafayette, Ind.—More than 1,200 Purdue students will make their annual pilgrimage to Chicago Saturday to witness the Purdue-Chicago football game. They will be accompanied by the famous Purdue University military band, which has the largest drum in the world. Before the grid battle, the Chicago and Purdue cross country teams will engage in the initial run of the season for both teams.

## M. E. CENTENARY GIVES NEW SPIRIT

Bishop McConnell's Statement Reviews Centenary Program Which Was Inaugurated in May 1919

TO REACH CLIMAX MAY 1, 1924

Movement Put Stress on Making Mind Serve God And Filled Colleges With Service Candidates

Chicago, Oct. 26.—"The Centenary program of the Methodist Episcopal Church was the first large-scale attempt to give Christianity a new start—to adapt it to world-wide needs—to put a new spirit at work on a world-wide area," says Bishop Francis J. McConnell of Pittsburgh, Pa., in a statement issued to the four and one-half million members of the Methodist Episcopal Church and to its ten million adherents, by the Committee on Conservation and Advance.

Bishop McConnell's statement, which was issued today, reviews the Centenary Program, which was inaugurated in May 1919, and will reach its climax on May 1st, 1924, when the General Conference assembles at Springfield, Mass. At that time one million dollars was subscribed for the Centenary Program for missionary and benevolent work at home and abroad for five years.

Bishop McConnell says, "The Centenary Movement put the stress on making the mind serve God. It filled our colleges with candidates for service at home and abroad. It dared remind the church that the best of Christendom's equipment of training is none too good for him who would preach the gospel at home or abroad.

"The funds already received make the Centenary the most outstanding enterprise of the sort in our history, perhaps the most outstanding in the history of Protestant Christianity.

"Let it not be forgotten that when through increased pressure of new fields the church was not able to send to college and theological school all the young men coming into her ministry the Centenary funds made possible at least a measure of training in institutes and by correspondence and by personal conferences for nearly three thousand of our younger ministers.

"It is to the everlasting glory of Methodism that during a time when all the world was at war, when plausible excuses for religious inactivity were more plentiful than at any time in a generation, when the struggle to meet the rising cost of living was at its most acute stage, when the nation was calling on its citizens for almost incredible sacrifices, the Methodist Church challenged every one of its members to give to the utmost for the sake of that whole world which the founder of Methodism called his parish.

"When hereafter the critics ask as to when the church ever tried to make adequate response in deed to crisis affecting all humanity, the response can legitimately be the recital of the program of the Centenary movement.

"It is to the everlasting credit of the Centenary that from the beginning it conceived of service to the world in terms of prepared leadership.

"The Centenary, without granting any extravagant sums at all, nevertheless gave enough to lift enterprises which were immediately below the threshold of success over the threshold to positive triumph.

"I can conceive that, in a world where the temperature never got above thirty-two degrees, the inhabitants might not believe the story of what would happen with just one more degree of heat. The thirty-third degree, Fahrenheit, however, in a thirty-two degree world would be altogether revolutionary. It would surely start things to moving. To many a home and foreign missionary enterprise the Centenary was the thirty-third degree Fahrenheit.

## ACCOUNTS BOARD IS ASKED TO ACT

I. Newt Brown, Treasurer of State Board of Agriculture, Wants Records of Board Investigated

### M'CRAY "LOAN" IS INVOLVED

Members of Board Will Meet, Probably Next Week, To Do Some Investigating On Its Own Account

(By United Press)

Indianapolis, Ind., Oct. 26.—I. Newt Brown, treasurer of the state board of agriculture has asked the state board of accounts to make an immediate and complete examination of the records of the board of agriculture, it was learned today.

Requests for the probe were made to clarify the mystery surrounding a transaction in which \$155,000 of the board's funds were involved with Governor McCray.

Brown maintained that the money was intended for deposit in the Discount and Deposit bank at Kentland Governor McCray's own bank. William Darroch, receiver for the bank, denied that any of the board of agriculture's funds had ever reached the bank.

Governor McCray insisted that the \$155,000 was loaned to him personally and that the loan was amply secured by collateral.

While Brown urged a probe of the board's records by the board of accounts, members of the agriculture board were understood to be preparing to do a little investigating of their own.

Arrangements are being made for a called meeting of the agriculture board, probably next week, to clear up numerous misunderstandings and rumors which have been current since it was learned the governor had obtained a "loan" of \$155,000 from the board's funds.

### Judgment Against Governor

Kentland, Ind., Oct. 26.—Ten civil suits brought against Governor McCray on notes endorsed by him have been settled in the Newton circuit court here by agreement of counsel in the cases. Judgment of \$11,315 was awarded against the governor.

It was the opinion of George Barnard, attorney who represented the governor in the proceedings, that the judgment would not jeopardize the trust agreement proposed by the government for the settlement of his affairs.

Cases against persons made codefendants with the governor were dismissed upon sworn statement from the various codefendants that they had not signed their names to the notes in question.

Attachment proceedings against the home of the governor here were dismissed. This property was all that the governor withheld from his list of assets submitted to his creditors.

Among judgments rendered were \$10,873 to the Delaware county National Bank, Muncie, and \$5,800 to the People's Trust and Savings Co., Laporte.

Additional suits against the governor are to come to trial next Wednesday.

## FATE IN HANDS OF THE JURY

Terre Haute Men Tried for Killing Garage Night Watchman.

Sullivan, Ind., Oct. 26.—The fate of Floyd and Clarence Shephard, charged with the murder of Otto Siefferman, Terre Haute garage night watchman, was in the hands of the jury this afternoon. The jury's verdict will end one of the most sensational murder trials ever heard in a Sullivan county court.

The Shephard brothers and William Goings were arrested on the morning of September 19, last, in Terre Haute, after the bullet-riddled body of the night watchman had been found in south east Terre Haute.

Confessions revealed that robbery was the motive. The state demands the electric chair. Goings will be tried immediately after a verdict is returned in the Shephard brothers trial.

## OFFICE WILL REMAIN OPEN

County Treasurer Arranges To Collect Taxes At Night

The county treasurer's office will be open tomorrow (Saturday) night and Friday and Saturday nights of next week and Monday night of the following week for the accommodation of taxpayers who are not able to pay their taxes in the day time.

Little more than a week remains for paying the fall installment of taxes, as the period ends Monday, November 5, but collections up to the opening of business today amounted to only \$166,519.83. Collections were very slow Thursday, amounting to only \$13,479.93. The sum falling due between now and one week from Monday will be about \$275,000.

## STANDARDS FOR THE LEAGUE WORK ARE SET

Epworth League Cabinet of Connersville District In Session At J. M. Walker's Home Thursday

### ARRANGES GROUP MEETINGS

The District Epworth League Cabinet of the Connersville district met Thursday from 10:30 a. m. to 3:30 p. m. at the home of the Rev. and Mrs. J. M. Walker in Morgan St. Those present were the Rev. R. R. Cross, of Milroy, president, Roma Fields of Quakertown, Wm. A. Hurst of St. Paul, Mrs. Mary Tobill of College Corner, Miss Mildred Conquest of Connersville, Mrs. Bernice Addison and Robert Kitley, of New Palestine, Miss Anna Schooley and the Rev. R. O. Pearson of Waldron, Mrs. Hildegard Morris of Shelbyville, Miss Gladys Marsh of Letts, The Rev. W. C. Patrick of College Corner, and the Rev. R. O. LaHue of Sandusky. The Rev. F. E. LeMasters of DePauw University was also present as a guest at noon.

Many important matters concerning the work among the young people of the district were considered. Standards for the League work were set, arrangements for three group meetings to be held on Nov. 10, were made, and a committee was appointed to make plans and estimates for the housing of the League delegates to the Epworth League assembly at the new grounds near Mitchell next August.

At noon the group were guests of Mrs. Walker at luncheon. Mrs. Lily Smith of Seymour, who has been a guest at the home of Dr. and Mrs. Walker since Monday assisted.

## M. E. TRAPP ASSUMES DUTIES OF GOVERNOR

Lieutenant Governor of Oklahoma Seated as a Result of Supreme Court Decision

### WALTON'S HOPES WITH SENATE

(By United Press)

Oklahoma City, Okla., Oct. 26.—M. E. Trapp today assumed the duties of governor of Oklahoma, replacing J. C. Walton, suspended during impeachment proceedings in the legislature.

Trapp took over the powers of office by virtue of a decision of the supreme court after Walton had challenged the right of the state senate to oust him pending hearing on the impeachment proceedings.

Walton's sole hope of retaining office today rested in his chance of preventing a two-thirds vote in the state senate for his removal. All his efforts were concentrated upon his defense of the charges pending against him.

The lower house of the legislature has now adopted fourteen of the 22 accusations brought against the governor and expected to complete voting on the entire indictment today.

"I will continue to fight," the governor said.

His defense in the senate will be based upon the contention that the charges against him are the result of a conspiracy among the Ku Klux Klan members of the legislature seeking his removal.

## NOW WON'T THAT BE WONDERFUL?

## CALLS ATTENTION TO '23 MOTOR ACT

Motorists Causing Injury to Person or Property Required to Report The Fact

### NOT GENERALLY ENFORCED

Statute Provides Fine or Sentence, or Both, And Upon Second Conviction, Prison Term

Attention has been called to a motor vehicle act, passed by the 1923 legislature, which provides a penalty for persons driving machines, who fail to stop after any kind of an accident, and a law which has been sorely neglected in this city, and which also is probably not very well known by most motorists.

Every person driving a machine is advised to acquaint himself with the provisions of the law, which even not strictly enforced here, may cause someone serious trouble elsewhere, as the law is being followed closely in neighboring cities, and especially at Indianapolis.

The law provides that motorists shall stop their machine after any kind of an accident, and what they should do to conform with the law, is cited as follows in section 19 of the act:

"Any person operating a motor vehicle, causing an injury to a person, or an injury to property, due to

Continued on Page 11

## CRIMINAL CASES SENT HERE

Gregg Alyea, At One Time On Trial Here, Involved In Charges

Four criminal cases, involving a change of venue from the Decatur circuit court of Greensburg, have been sent to this county by Judge Craig, after granting the defendants the change from that county. Thomas Robbins is charged in two cases of unlawfully selling liquor, and Gregg Alyea, the other defendant, is charged on two similar counts.

The last named defendant is known here, as he was under indictment on a joint charge here several years ago on a conspiracy case, in which the Demaree brothers of Greensburg figured prominently, and for which several members of the alleged gang received sentences. In the trial here on those cases, frequent mention was made of liquor law violations.

## MRS. CARRIE BELL EXPIRES

Remains Brought Here Today From Indianapolis Hospital

Mrs. Carrie Bell of this city, expired this morning at 1:30 o'clock at the Robert W. Long hospital in Indianapolis, following a long illness of cancer, and her remains were brought to this city this afternoon, and taken to the home of B. L. Trabue, 715 North Harrison street. The deceased was a native of Dublin, Ind., and before her marriage was Carrie VanBerk. She was married to Robert Bell, who also survives. She would have been 49 years old next Tuesday. No relatives survive, as a child and grandchild preceded her in death.

The funeral arrangements were indefinite, excepting that burial would be in the cemetery at Bentonville.

## E. B. THOMAS SPEAKS TO THE KIWANIS CLUB

Former Rushville Man Tells Something Of His Experiences During 18 Months In San Juan

### OFFICIAL COMING NEXT WEEK

E. B. Thomas, formerly of this city, who left here eighteen months ago to become head of the United States federal land bank in Porto Rico, at San Juan, spoke to the Kiwanis club at its regular meeting Thursday, relating some of his experiences and telling something of the habits and customs of the people of the small island possession of the United States.

Mr. Thomas' addresses proved very entertaining and instructive, as it revealed what this country is doing for the benefit of the natives of the island, in providing capital so that they can do business on a larger scale.

Guests at the meeting yesterday, in addition to Mr. Thomas, included J. A. Gleason of Tipton, Cyrus Green of Morristown and Hudson R. Biery of Indianapolis, assistant to President Charles L. Henry of the L. & C. Traction Company.

The Kiwanis club had planned to entertain ten representative farmers of Posey township at the next meeting, but the farmers asked to be excused until a later date on account of being busy with corn husking. Instead, E. B. Thomas of Richmond, Indiana, and Governor of Kiwanis for this district, will speak to the club.

## CAREER OF C. P. STEINMETZ ENDS

Electrical Wizard Snatched Lightning From Clouds And Made Thunderbolts Do Bidding

### BRAIN ALERT TO THE END

Exhausted By Speaking Tour That Took Him To All Parts Of The United States

Schenectady, N. Y., Oct. 26.—Death today ended the career of Charles P. Steinmetz, the electrical wizard, the man who snatched down lightning from the skies and made the thunderbolt do his bidding.

As Steinmetz lay in bed at his home here at 8 o'clock this morning recovering from exhaustion resulting from a long lecture tour, his heart ceased to beat.

"I feel fine today," he said to his nurse a minute before the end. "I will soon be up and around again." A few seconds later his soul slipped away.

"His heart just stopped beating," said Dr. H. T. Groesbeck.

The brain which devised means of harnessing the elements and creating "toy thunderstorms" in laboratories was alert to the end, but the body could no longer stand the strain which so many years of driving metal forces had put upon it.

Steinmetz, the hunch-backed little German who became chief consulting engineer of the General Electric Company, returned October 13 from a speaking tour which had taken him to all parts of the United States.

As in the case of the late President Harding and of Woodrow Wilson, he had over-taxed his strength endeavoring to see all the people he was called upon to see and to make all the speeches expected of him.

His body began to crack under the strain when he made an address to 3,500 people at Denver, Colo. He had expected to talk to 300 or 400 and the large audience made the effort much greater.

Nevertheless, and although he was fully aware of the weakness of his heart, he went through with his program. Upon his return to Schenectady, the exhaustion from which he was suffering forced him to give up his work temporarily and take to his bed.

He seemed to be showing steady improvement and physicians were much encouraged.

As he lay in bed, physically too weak to rise, his brain continued

## ARRANGES THROUGH SERVICE

I. & C. Will Connect With Bus For Brookville Here After Nov. 1.

The Indianapolis & Cincinnati Traction company has arranged for through connections between Indianapolis and Brookville by means of motor bus service between here and Brookville, to make connections with three cars each way every day, so that the I. & C. can sell tickets from Indianapolis to any point between Indianapolis and Brookville.

The new service will become effective November 1, and the rate from Indianapolis to Brookville will be \$2.00. The motor bus will make three round trips each day between Rushville and Brookville.

## APRIL BLOSSOMS IN BLEAK OCTOBER

Comedy On View At Graham Annex Auditorium Proves Fine Vehicle For Local Players

### WILL BE REPEATED TONIGHT

"April" Proves To Be No Hot House Plant Because It Amuses And Entertains "First Nighters"

Any April that can withstand the chill blasts of late October is an April worth seeing, and such an "April" is on view at the Graham Annex auditorium again tonight.

"April" blossomed out for the first time Thursday night at the auditorium, despite October frosts, and it proved to be no hot house plant because it amused and entertained the "first nighters."

And it was truly a "first night" performance because it was the first time "April" ever appeared on any stage although its namesake has been doing business at the same old stand for three hundred odd years.

Kenyon Nicholson of Indianapolis, the author, places "April Blair" in an almost impossible position from which she emerges through her own ingenuity and resourcefulness. The lines are clever and many humorous situations are developed, making it on the whole a very entertaining play.

Albert Cotton and Lavienna Compton played the leading parts very capably and Denning Havens, the director, put the finishing touch in the last act with his grotesque makeup and interpretation of the part as "Bill Drum," press agent for the "Snap-It-Up" show company, who made the way smooth for "April" (Miss Compton) and "Dick Barrington" (Mr. Cotton) by removing the thorn in "Dick's" side, "Tot Marvel" (Lillian Wilkinson), a chorus girl with whom Dick had become infatuated by the glare of the "bright lights" in Boston.

"April" took many people back to the time when the high school graduating class put on "The College Widow," under Tom J. Geraghty's direction, several years ago, and played several out-of-town engagements.

The principals were supported by a splendid cast and the play moved along with precision, though anything but that characterized the action, which demonstrated what a "hard-boiled" chorus girl can do to a "Back Bay" family, even to upsetting the even temper of a household of servants, who resent the intrusion of a "theatrical person" in the home of aristocrats.

Miss Wilkinson portrayed the "stage" chorus girl—how true to life she was no one in the audience knew—and Gene Kelly was effective as "Bishop Carton," uncle to Dick, who was attracted to Miss Blair through her ability to finish his quotations from Shakespeare, in which he indulged all too frequently.

Hazel Dugal as "Annie" the maid who led the insurrection in the household and blackened the butler's eye, was convincing, probably because of her very red hair. Others who took parts as servants—Jack Neely as the butler, Margaret Oster as the maid, Laurence Adams as the chauffeur and William Worthington as the gardener, all gave very good interpretations. Mr. Worthington also played the part of a ministerial friend of the bishop's who disapproved on old acquaintanceship with

## FRANCE IS READY TO ACCEPT "IF"

Insists Commission of Experts on German Debts Must Be Named by Reparations Commission

### FINAL DECISION WITH BODY

Fate of American Readiness to Aid in Bringing About European Settlement Rests With France

(By United Press)

Brussels, Oct. 26.—The Belgian government is considering the Anglo-American economic conference and is believed to favor having the reparations problem turned over to a consultation body of experts who would be appointed by the reparations commission, it was learned here today.

By JOHN DEGANDT (U. P. Staff Correspondent)

Paris, Oct. 26.—France will accept the proposal of Secretary Hughes for settlement of the question of German reparations by a commission of experts, only if such a commission is designated by the reparations commission, it was learned from a semi-official source here today.

France will insist the commission of experts must report to the reparations commission on any possibilities for readjustment of the entire question of German debts.

Final decision on all these questions must be left to the reparations commission, admittedly under French control.

Premier Poincare, the semi-official statement said, will be delighted if the United States will agree to collaborate thus in a settlement of the reparations question "within the limits of the treaty of Versailles."

By A. L. BRADFORD (U. P. Staff Correspondent)

Washington, Oct. 26.—The fate of American readiness fully to aid in bringing about a settlement of the European crisis today again rested upon the disposition of France.

As all eyes turned upon the Paris government, it was the hope of high officials and diplomats here that a world economic conference, participated in by the United States would soon be convened to make a sincere effort to solve the reparations problem.

The note of Secretary of State Hughes to the government of Great Britain definitely setting forth America's willingness and readiness to aid in a reparations solution, was hailed today as a great step forward in the long history of the reparations controversy.

This communication was regarded as ranking with the Hughes proposal of nearly a year ago, if not as the most important step so far taken in the European situation by the administration begun by the late President Harding.

By LLOYD ALLEN (U. P. Staff Correspondent)

London, Oct. 26.—The salvation of Europe has been checked squarely up to France, a majority of the British press and public alike believed today.

Following the exchange of telegrams between Foreign Minister Curzon and Secretary Hughes, in which the United States agreed to participate in an international economic conference provided "all" the European allies chiefly concerned in German reparations are represented, opinion here considered the fate of Europe as depending on the attitude of Premier Poincare.

Attention of the whole of Europe

## ROBERT WEST, 91, IS DEAD

Father Of Rushville Man Expires At Lima, Ohio

Robert West age 91 years, a resident of Lima, O., died at his home in that city, and his remains were brought here last night and taken to the home of his son, William West, 510 West Second street. The deceased formerly resided in Greensburg, and services will be held here Saturday morning at ten o'clock, and the remains will be taken to that city for burial. The deceased is survived by nine children, including the son of this city.

## EXCHANGE

American Security Co.  
Junior Class Raleigh High School

Saturday, Oct. 27

## First Presbyterian Church

Pastor, Rev. Gibson Wilson.  
9:30, Sabbath school for all J. T. Arbuckle, Supt.

Morning worship, 10:30 a. m. Subject "Christianity's Ambition."

Christian Endeavor 6 p. m. Miss Imogene Megee leader. The young people have been organized into a society and invite others to meet with them.

LOG SCHOOL HOUSES YET

Warsaw, Ind., Oct. 26.—The log school house still exists in some sections of the U. S., according to Wallace Bowman, Warsaw, who writes from Lusk, Wyoming that he is the lone instructor in such a building located near the Wyoming town. The building is 20 feet in length by 18 feet in width. He has 40 pupils.

## NIGHT CLASSES BEGUN

Lafayette, Ind., Oct. 26.—Night classes in the treating of steel not only for regular vocation school pupils but for men in industry have been started in two Indiana cities, South Bend and Gary by the engineering extension services of Purdue University. Similar classes will start early in November in Fort Wayne, Wabash, Marion, Anderson and Indianapolis and as many other places as can be supplied.

Requests have come from several other cities. The work is being given by John F. Keller, one of the best known steel treating specialists in the country. He has had over 30 years of practical and teaching experience.

## TO ERADICATE SNAKE ROOT

Connersville, Ind., October, 26.—Marion F. Detrick, county agent of Fayette county has started a campaign to eradicate wild snake root, which has recently been discovered in three different localities in the county. Eating the weed is frequently fatal to animals, according to Detrick, and persons who drink milk from cows that have eaten wild snake root are attacked with an illness known as "milk sickness."

## VETERINARIAN SUED

The Pitman-Moore Company of Indianapolis, are plaintiffs in a suit filed today in the circuit court against Elbert H. Morris, a veterinarian of Milroy, the complaint being on an account, in which the plaintiffs demand \$75 judgment for merchandise purchased by the defendant.

was centered on Paris as the first news of negotiations for the conference was made public.

A majority of the British press agreed this eleventh hour attempt for a settlement is absolutely vital if Europe is to be salvaged from desperation.

"We hope and earnestly believe that France will accept the invitation for a conference," the Daily News asserted today.

By CARL D. GROAT  
(U. P. Staff Correspondent)

Berlin, Oct. 25. —America's offer to participate in an impartial inquiry into Germany's ability to pay reparations has been made by a fresh declaration from Chancellor Stresemann that Germany will abide by results of such an examination.

The chancellor, in a speech at Hagen, reiterated the willingness of his government to submit the whole question of Germany's capacity to examination by impartial commission as suggested by Secretary Hughes in his New Haven address.

At the same time Stresemann warned France what she can expect if she rejects the United States offer.

"We already have offered more than we can fulfill," the chancellor asserted, "and we can't stand dictatorial treatment much longer."

Stresemann's speech strongly appealing to nationalistic sentiment had a steady effect upon the country.

It was accompanied by strong action in Berlin where General Von Horn, military dictator for the Berlin area, forbade the currency printers to carry out the strike they announced yesterday. The government demanded printing of still more notes to meet the needs of the country for currency.

It was planned to print three hundred quadrillions of marks a week in notes of huge denominations.

The bread situation in the capital was somewhat improved today but

shortage of potatoes was serious. Barefooted beggars were seen haunting the residential districts where heavy iron bars and netting have been put on many doors and windows to guard against petty thievery.

Belgian soldiers were restoring order in Aix La Chapelle today after interfering between separatists and police in favor of the separatists. Four police were killed and fifteen wounded when the Belgians expelled the police from the city hall.

Herr Von Krupp, head of the famous steel works, was released from jail "temporarily" by the French today with three of his co-directors, Bruhno, Hartwig and Oesterle, it was reported from Essen. It was not expected they would return to jail.

Stresemann in his speech reiterated his previous declaration in the Reichstag that he would not sign any agreement that did not recognize the Ruhr and the Rhineland as German.

"We stand at the peak of the battle for the Ruhr and the Rhine," the chancellor said.

"The battle has been conducted with unequal weapons. Now separatist dangers have appeared, with French and Belgian aid."

"The federal government does not dream of bowing to this breach of the treaty of Versailles and all international law."

"The carnival spook of separatism must be ended in 24 hours more."

80 AT "CHURCH NIGHT".

No less than eighty persons were present during the second "Church Night" program held Thursday evening at the First Baptist church. A delicious supper was served at 6:45 o'clock followed by the study periods at 7:30 p. m. Forty-one are enrolled to date in the three study classes. Twenty children attended the children's hour during the study class period. The program closed with a service of worship and prayer. These programs are a special feature of the congregational activities until the holidays.

Dignity for Afternoon Frocks

Dignity is the watchword among the new styles. Dresses are long and straight with skirts about ankle length. Long sleeves, graceful drapes, and smooth flounces prevail. Sketched here are some of the most delightful of afternoon gowns.

THE WAY OF ESCAPE.—It shall come to pass in the day that the Lord shall give thee rest from thy sorrow, and from thy fear, and from thy hard bondage wherein thou wast made to serve.—Isaiah 14: 3.

## Education Pays Farmer

"In dollars how much does education increase the earning capacity of the young farmer?" is a question asked by the U. S. Bureau of Education. Some of the State Agricultural Colleges are publishing figures in answer to this question.

The Georgia Agricultural College collected the facts from 1,271 farmers of that State and found that those who had no schooling earned on an average of only \$240 a year, those with a good common high school education earned \$565 a year and those who had completed a high school course earned an average of \$664. The men who had completed an agricultural short course earned \$896 and those who had graduated from the agricultural college were earning an average of \$1,254 a year.

The Kansas Agricultural College had 1,237 reports. The average young farmer with a common school education earned \$422 a year, the high school graduate \$554. The men who had taken the short course in agriculture earned an average of \$850 a year, and the college graduate \$1,152.

## The Lawmaking Mania

Uncle Sam is afflicted with the lawmaking disease. His case is the worst in the history of the world. The output is so large the law libraries cannot house it, the lawyers cannot digest or assimilate it.

It is said to be a fact that the 48 state legislatures, enact more laws than are even proposed by five great nations.

The ratio before the war was fifty new laws in our country to one by any great nation of Europe.

It takes 650 large volumes to hold in printed form the Supreme Court opinions on questions of constitutionality.

The law library of Columbus University contains 100,000 volumes and increases at rate of 8000 a year.

Why not stop manufacturing so many laws, try enforcing some of them and repeal some of the others? A smaller legislative output would be an evidence of political sanity.

## Over-insurance And Arson

Over-insurance is one of the principal factors contributing to incendiary fires. Newman T. Miller, state fire marshal, states in discussing the causes of arson in Indiana.

Eighty-four percent of the incendiary fires in Indiana are the result of desire for personal gain, Mr. Miller says. They are caused mostly by the expectation of collecting the insurance. What is needed to check and control this crime evil, he says, is some method whereby insurance companies can limit amount of insurance to the actual value of the insured property. If this could be done Mr. Miller believes most of the fire loss from incendiary fires will be eliminated, as there could be but slight gain in a recovery equal only to the value of the property destroyed.

The other principal causes of incendiary fires are revenge and the attempts to cover up other crimes. About 12 percent are due to efforts to cover up crimes. An increasing number have been laid to this cause in the last few years, as manufac-

tures of liquor have resorted to this means to cover up evidences of illicit distilling.

Prompt investigations and prosecutions of arson cases have resulted in reducing the number of incendiary fires in this state in recent years, and a relentless enforcement of the laws will be kept up, the fire marshal has declared.

No Help For Them in Sight  
(Louisville Courier-Journal)

Sick Federal employers are to be paid by order of President Coolidge. But what about those who are sick for Federal employment?

## Current Comment

Not a Christmas Tree  
(Philadelphia Public Ledger)

President Coolidge speaks the American mind when he opposes the canceling of the Allied war indebtedness to this country. He voices American feeling also when taking the position that while there should be no cancellation, the nation is in favor of making very liberal arrangements in the fixing of interest rates and periods of payment.

The cancellationists are afoot with a revival of their perennial agitation that "something must be done." There, is however, so little genuine sentiment in America for out-and-out cancellation that it may be regarded as negligible. What the cancellationists lack in numbers they make up in noise. A considerable number of our self appointed liberals are "hipped" on the matter. It is favorite indoor, tea-flight, sport of theirs to resign, with a grand and sweeping gesture, the \$9,000,000,000 to \$11,000,000,000 Americans raised by taxation and Liberty Bond drives.

Dig deeply enough into the agitation and it appears that the essence of the whole business is to "help poor Germany." The arguments boiled down are that we can richly afford it anyway and that if we relieve the Allies of their debts to us then they will all be far more lenient on the much abused Teuton. France could then be bulldozed into withdrawing from the Ruhr and reducing her reparations bill. In other words, America should pay a large chunk of Germany's obligations to the Allies. Certain of our banking interests, for reasons that are fairly obvious, are very keen about swaying America over to the cancellationist attitude.

The cancellationists are battering their heads against a wall. The average American voter who names congressmen and ballots for Presidents is in favor of getting our money back when and if we can. If that is impossible, he believes these debts should stand on the books. There is not the slightest disposition to play the Shylock about it. On the other hand, there is no inclination to write ourselves down as a nation of easy marks or set ourselves up as an international Christmas tree.

## Commands German Reichswehr

General Von Seeckt is chief of staff of the Army of the German Republic, and his will be the task of putting down the various revolutions now threatening the Berlin government. He is shown reviewing the government troops who have just quelled an uprising in Kurland.

FIFTEEN YEARS  
AGO TODAY

Tuesday, October 27, 1908

Nathan Weeks, Taylor Kitchen, Ad Denning, Will Bliss and Homer Powell will form a reception committee that will go to Connersville tomorrow morning to meet Senator Beveridge and accompany him here on the special train.

Rather mysterious were the invitations which summoned the Coterie to Mrs. Bigham's to meet "elves and haunts and spooks and things" in East Sixth street yesterday afternoon. Since this is the season "when owl-hoot and goblins scot and witches come and go," none was surprised when Mrs. Bigham announced a journey through the realms of English and American literature in search of the supernatural. After the reading of the paper, Mrs. A. L. Gary was initiated into the mysteries of the Coterie with all the most approved methods.

The silver wedding anniversary of Mr. and Mrs. Lewis Bagley occurred last Saturday evening at their home in Posey township.

On every hand activity rules the day in the Republican ranks. Not only is the county committee putting forth every honorable method to secure Republican votes, but all over Rush county the loyal members of the G. O. P. are shaping up matters for the big doings next Saturday.

Thomas Conroy, head chef at the Conroy restaurant here, was run down by a bicycle rider in Indianapolis yesterday and sustained a painful injury on the leg. "But you ought to see the other fellow," says Conroy with a great deal of satisfaction. He was thrown on his head for his reckless driving.

The engagement of Miss Bertha Megee and Derby Green was announced last night at the regular Tri Kappa meeting at the home of Miss Helen Campbell. After the refreshments had been served, mints with cards tied on them imparted the intelligence of the announcement. The marriage will occur in December.

Mrs. Hannah Brown, who lives with her daughter, Mrs. Will Gregg, in West First street, suffered a second stroke of paralysis last Saturday and is in a very bad condition today.

Miss Mary Schattner, daughter of Mr. and Mrs. John Schattner of North Main street, and Henry Heckman, son of Mr. and Mrs. Henry Heckman, Sr., living southwest of this city, will be married at the Catholic church Thursday, Nov. 12 by Rev. Walter Cronin.

John VanOsdel left this morning for Scottsburg, Ind., where he will resume his duties as conductor on the Lewisville & Southern Traction Line.

## SAFETY SAM

Now'n then we run across a fellow who thinks he's a careful driver b'cause he slowed down an' looked both ways at a car line in th' spring o' 1918!

## The Hodge - Podge

By a Paragrapher with a Soul

A skull one million years old, found in Patagonia, is petrified and solid. How little men have changed in all these years.

It's too bad the Oklahoma legislature can't be moved to New York where they pack 'em in for prize fights at a million a fight.

Henry Ford says he is for Coolidge if he makes the country dry, which may or may not be a blow to prohibition, according to your way of looking at it.

Time was when being an old man's darling was preferred to a young man's slave. But your twentieth century flapper will be neither—not if she knows it.

If the American surgeons in session at Chicago continue to air their views through the public press, we will all have so much knowledge that we can perform our own.

The news that asthma and hay fever are germ diseases probably got a chilly reception up at the Michigan resort hotels.

## CHURCH LEADERS IN SESSION

Music Subject Of Discussion At M. E. District Meeting Here

The officers of the church music organizations and several choir leaders and organists of the Connersville district met at the home of Dr. and Mrs. J. M. Walker last evening from 7 to 9 o'clock p. m. for the purpose of discussing plans for the promotion of music in the district for this year. Those present were Mr. and Mrs. Garnet Chaffee and Raymond Winton of Shelbyville; the Rev. R. O. Pearson and Mrs. Dr. Schooley and her daughter, Miss Anna, of Waldron the Rev. E. H. Omahundro, Mr. and Mrs. Chamberlain, Miss Sophia Magy, and Morris Clark of Liberty, the Rev. Arthur Jean of Fairfield, the Rev. Oscar Jean of Glenwood; and Mrs. A. L. Riggs and O. P. Wamsley of this city. An interesting and profitable discussion of the problems before them was had.

## Has Trouble

Jack Walton of Oklahoma, isn't the only state executive having trouble. Gov. Walton of Oklahoma has been threatened with death.

PALACE STOVES NOW USED TO  
COOK FOR POOR CHILDREN

By GUS M. OEHM

Berlin, Oct. 26.—The stoves that once cooked the meals of the Hohenzollerns today prepared food for hundreds of hungry little children of poverty stricken families in Berlin.

At least a portion of the propaganda for the opening up of the famous castle of Kaiser Wilhelm at the end of Unter den Linden for practical purposes has been effective. The great kitchens where once the food of royalty was prepared have been replaced at the disposal of Austrian relief organizations, which are opening community food dispensing agencies throughout Germany.

The work, under the leadership of Frau Dr. Genia Schwarzwald of Vienna, is in return for similar aid given Austria during her trying days just following the armistice.

Food for from 3,000 to 4,000 persons may be prepared at one time in the big kitchens of the castle which, until opened for relief purposes, were unused since the Hohenzollerns left the castle so suddenly in early November, 1918. Last Summer a big hotel proposed to lease the kitchens from the Republican Government, but was turned down when rooms for restaurant purposes were also demanded.

Last Summer a move was organized by the Socialist press demanding that the castle be utilized for a parlments for the house-hunting folks of Berlin. This was unsuccessful a portion of the castle having long since been used as a museum, though most of the 700 rooms are locked to public gaze.

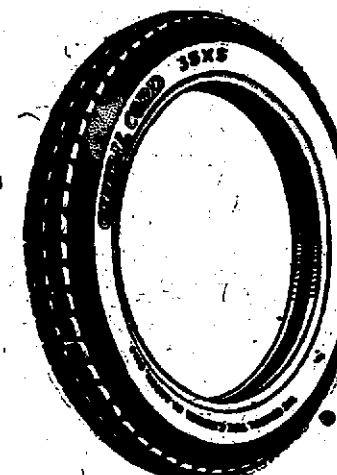

The castle attendants, who keep it in order and handle the museum crowds, etc., occupy servant quarters. It is necessary to keep quite a personnel on duty, the window washing job alone being quite an item—200 huge windows demanding periodic cleaning.

In Winter only twenty-nine of the rooms are heated. For this purpose huge piles of coke are heaped in the great open court beside the statue of Knight George, who killed the dragon. A few private wine dealers have rented space in the cellars to store their wet goods. Some few rooms have been occupied by public organizations, including the American Quaker Relief Organization, which has practically closed out its offices here. Much of the paintings, silver and linen have been taken away, some to other museums. Much of the furniture has been removed, the exiled Kaiser having taken many truck loads to Holland.

Vorwärts, leading Socialist paper, recently demanded that the Government put aside sentimentality and turn the castle to financial gain. "The city needs money," the paper declares, urging the use of the castle for apartments, which would not only bring great revenue, but greatly aid in solving the vexing housing problem of Berlin.

Fort Wayne — Surveying for a \$10,000 tabernacle has been started at Lake Webster by officials of the Epworth League institute of the Northern Indiana M. E. Conference.

## Hardly Enough to Notice

Yet you would pay the railroad three times as much for 21,000 as for a 7000 mile ticket.

GAME WITHOUT LAYDEN

# NEWSY GOSSIP IN THE WORLD OF SPORT

MANY HIGH SCHOOLS GO  
INTO ACTION TONIGHT

## MANY NET TEAMS IN PLAY TONIGHT

Seven Rush County High Schools  
Take The Floor Tonight in Basket-  
ball Conflicts

### GAMES THROUGHOUT STATE

Webb Plays at Carthage, New Salem  
at Moscow, Center at Raleigh And  
Morristown at Manila

Several high school basketball  
teams will be in action today in this  
county, with games scheduled at  
Carthage where Webb will do their  
best to bring home a victory, and  
Center will go over to Raleigh for  
a game. New Salem also will try  
their luck tonight at Blue Ridge,  
meeting the Moscow team, and Mor-  
ristown will journey down to Mani-  
la for a game.

The season in the county will soon  
be in full blossom, as other teams  
are preparing to throw their hats in-  
to the ring, and almost every team  
will be in action by next week, No-  
vember 2.

On that night, Rushville high  
school will pry off the lid with  
Brookville as their opponent, and on  
account of repair work under way  
at the Graham Annex gymnasium, it  
will be necessary for the first R. H.  
S. game to be played at the Modern  
Appliance gymnasium, rented by the  
Webb school for their games this  
season.

With only a few Rush county  
teams in action tonight, there are  
several hundred other teams in the  
state taking the floor and many of  
them are making their initial ap-  
pearance for the season. The list of  
games scheduled tonight in Indiana  
is as follows:

Bringhurst at Rockfield.  
Bringhurst at Rockfield.  
Ambia at Williamsport.  
Clarks Hill at Colfax.  
Camden at Royal Center.  
Chalmers at Buffalo.  
Clayton at Plainfield.  
Cottersville at Madison.  
Dunkerton at New Richmond.  
Dehli at Rossville.  
Fairland at Waldron.  
Kingman at Hillshoro.  
Green Twp. at Bloomington.  
Hazelton at Francisco.  
Lucerne at Royal Center.  
Lafayette at Laketon.  
Jasper at Logansport.  
Jamestown at Pittsboro.

Here's "Young" Stribling of Macon, Ga., with his family. Mr. Stribling, be it known, is the gent who recently caused the uproar in fistic circles by making Mike McTigue, light heavy champ, step some. First the referee called the bout a draw, then gave it to Stribling, according to wire reports, and finally called it a draw again. "Ma" Stribling (left), "Pa" Stribling (right) and the baby of the family helped their father to train.

New Market at Wingate.  
North Vernon at Vevay.  
Monroe City at Oaktown.  
Monitor at West Point.  
McIntosh at Wallace.  
Oakland at New Augusta.  
Selma at Hartford City.  
Stockwell at Mulberry.  
Waynetown at Veederburg.  
Whitestown at Carmel.  
Walton at Sharpsville.  
Union at Owensville.  
Boxley at Seelyville.  
Arcadia at Young America.  
Raub at Sheldon.  
Pine Village at Newton.  
Leesburg at New Carlisle.  
Charlottesville at McCordsville.  
Atlanta at Walnut Grove.  
New Paris at Nappanee.  
Belleme at Marshall.  
Quincy at Paragon.  
Waleott at Brooks.  
Deedsville at Maey.  
Cortland at Scottsburg.  
West Baden at Winslow.  
Ambia at Williamsport.  
Mecca at Rockville.

Flint at Orland.  
Montorey at Medaryville.  
South Whitley at Ligonier.  
Becker at Freelandville.  
Remington at Freeland Park.  
Ashboro at Clay City.  
Converse at Bunker Hill.  
Pine Township at Boswell.  
Deer Creek at Cutler.

### MOVES TO INDIANAPOLIS

Mrs. Irene Reeves, who has been living northwest of Rushville, has accepted a position in the securities department of the J. P. Wild and company bank of Indianapolis and is moving to Indianapolis for permanent residence. Mrs. Reeves became widely known as a breeder of Big Type Poland China hogs, having taken up the business following the death of her husband, George Reeves several years ago.

The ladies of the Center Christian church will hold a market Saturday, October 27, at Cosand's millinery store.

## IRISH CRIPPLED FOR TECH GAME

Minus Star Fullback And Worn by  
Travel, Notre Dame Will Have  
Hard Going Saturday

### OTHER GAMES IN MID-WEST

Remarkable Showing of Purdue  
Against Iowa Is Worrying Chicago  
Fans Considerably

Chicago, Oct. 26—Back on their home field, worn by travel and crippled from the loss of Layden, star fullback, Notre Dame will trot onto the field tomorrow against the mighty of the south, Georgia Tech. The southern team is going to have its golden opportunity in tomorrow's game. It is likely that only the shrewd cunning of Coach Knute Rockne will stand between the Georgia Tech team and victory.

That craftiness of Coach Rockne is sufficient strength for the followers of the Irish however. When the whistle blows tomorrow Notre Dame will once more be favorites and favorites at big odds.

Iowa and Ohio State are to, clash in the consolation game in Ohio stadium at Columbus, O. Each was defeated by a strong Big Ten team last week.

Chicago is host to two Big Ten games tomorrow. Illinois meets Northwestern and Chicago plays Purdue.

Illinois, lacking both regular tackles, will face the danger of an up-set defeat by Northwestern. Against Chicago the Purple team looked dangerous.

The remarkable showing of Purdue against Iowa earlier in the year is giving the Chicago fans worry for Saturday. If Chicago continues to play its ball following game and converts blocked punts into touchdowns Purdue will return home defeated.

Another team will be relegated to the list of vanquished in the Minnesota-Wisconsin game at Madison, Wis. Minnesota has not played in a Big Ten conference game this year but is picked to lose by those who saw the Badgers crush Indiana with a 52 to 0 defeat last week.

Traditional rivalry holds sway at Ann Arbor, Mich., where the Michigan Aggies battle Michigan for the championship of Wolverine state.

Weakened from many changes in coaching systems in recent years, the farmers are given only an outside chance to win, by western conference fans.

Indiana has no game scheduled. Tackling practice and a short game between the varsity and freshmen teams will be their program, Coach Ingram announced.

### Sideline Glances

Chicago—Coach Stagg sent his squad through army drill on new formations today.

Evanston—Northwestern tapered down to signal practice today.

Urbana, Ill.—Coach Zuppke today assigned two linemen to the task of preventing injury to Grange, star back, from needless piling on by opposing team. The linemen will uncover Grange as soon as the whistle blows.

Madison, Wis.—Coach Jack Ryan sent his men through a long signal practice today to perfect the attack for the Minnesota game here Saturday.

Ann Arbor, Mich.—A veteran with reserve backfield players was the prospect for Michigan today on the eve of the Michigan Aggie game.

Minneapolis—Minnesota went through a short signal drill at Milwaukee today before continuing their trip to Madison Wis., for the Wisconsin game.

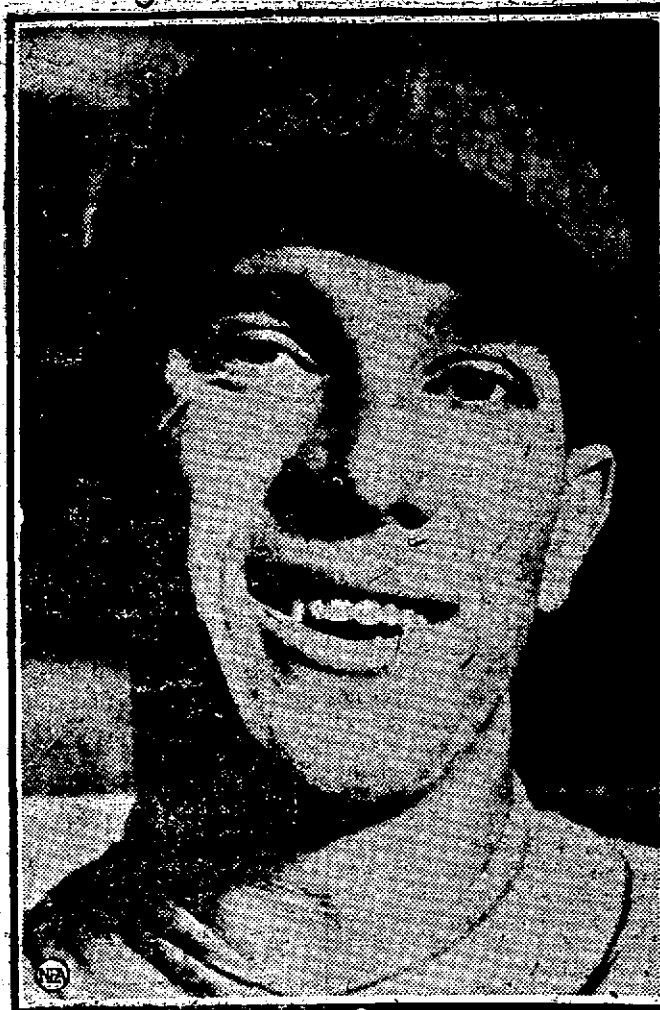

Iowa City—Light signal drills at Ohio stadium today were promised Iowa by Coach Howard Jones when the team entrained for Columbus late yesterday.

South Bend, Ind.—Georgia Tech will be guests at the dance given by Notre Dame seniors tomorrow evening after their game with Notre Dame. Tonight both rival teams are to attend a vaudeville program.

Lafayette, Ind.—Purdue left her Chicago this morning for the Chicago game tomorrow. Light signal drill will be taken on Stagg Field today.

Bloomington, Ind.—Regular tackling practice and a short scrimmage between freshmen and varsity eleven will mark the work for Indiana this week as no game is scheduled.

## ALL HAIL TO THE KING

John L. Simmons, Washington, D. C., catcher, is sand-lot champ of America. He earned his title in Cleveland, O., where city champs met in a play-off under auspices of NEA Service. Big league scouts and papers picked him as the best of the lot. Simmons is but 20 years old and is a "simon-pure amateur."

### Football at Halfway Mark

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, Oct. 26—Nothing but circus adjectives can be used to herald the approach of the weekly football attractions as the season draws to its close. "Bigger and better than ever, filling and thrilling," can be used aptly as descriptive for each succeeding program.

Again tomorrow, the card which will be offered for fans all over the country will be the best of the season. Last week's was just as much the best before this week's and next week's will be another best.

Three big inter-sectional games furnish the brightest spots on a very fine schedule that will be played off tomorrow.

Little Centre College, for several years one of the finest attractions in the country, will make its annual invasion of the east by appearing against Pennsylvania in Philadelphia.

Earlier in the season, the wise birds in the east, remarked: "Well, this is Centre's last big whirl in the east. The Colonels are through."

On the contrary, the evidence points now that Centre not only is

likely will beat Penn and retain its former rating in the east.

Georgie Tech, once the leading standard bearer of the south, and still one of the most illustrious representatives, also journeys across the border to meet the great Notre Dame team on one of the few occasions when the Notre Dame students have a chance to see their "Mick" idols in action in a big game.

This game should be one of the best in the season and Tech has assumed a big obligation.

Detroit University, which has risen high in the football world in recent years, also invades the east with a game against Washington and Jefferson. These two teams have become established rivals, and as both are high-class teams they should provide one of the real battles of the day.

Perhaps the most important game of the day, because of its effect on the eastern championship fight, will be staged in New York between the powerful West Virginia eleven and the always good Penn State team.

West Virginia was one of the outstanding teams of 1922, and the Mountaineers have another fine eleven this year. Penn State always has a smart, capable team.

## WILL MEET RIVERSIDE A. A.

Arlington A. C. Will Play Team That  
Has Been Defeated Only Twice

The Arlington Athletic club will meet the Riverside A. A. team of Indianapolis at Arlington Sunday. The game will be called promptly at 2:30. This team has been defeated only two times in 4 years and last Sunday they defeated the Western Independents of Indianapolis 63 to 0.

This looks like another hard game for the Arlington team, but it is in good condition and the strongest lineup of the season will start the game in order again to get in the win column. Ex-Captain Chet Northam has returned from Florida and will be in Arlington's line-up, which will greatly strengthen the team. Vern Keith and Rowland Coon of Shelbyville will also be in the game and will add strength to the Arlington aggregation.

### 6 Fielding Averages Are Used By Big Ten Football Coaches

Chicago, Oct. 27. — Accurate "fielding averages" of football players are necessary to insure fairness in choosing the eleven best men from the big squads which turn out each fall at "Big Ten" schools, according to coaches. Elaborate score sheets are used to show how many tackles each man made or missed, passes caught and dropped, success or failure at blocking, and a dozen other details in which coaches are interested.

Fraternity and class rivalry make a record necessary, according to Coach Fisher of Michigan, to protect coaches against charges of favoritism in picking the "varsity." Men who are "flashy" on the gridiron sometimes accomplish less than the man who remains in the background.

The scoring system is also helpful in aiding a coach to select a team from his squad suited to the opponents for a particular game. If the opponent aggregation is known to have strong ends and the center line is weak, the scoring charts will show which backs are more efficient at gaining through the line rather than skirting the extremities.

By use of the charts, coaches are able to instruct quarterbacks which carriers are liable to gain on certain plays. Interesting comparisons are found in yards gained by bucking and running backs.

The idea of gauging football efficiently by keeping a written record is not new, but has been developed to a much greater extent this season, it is said. Lake Forest (Ill.) college is credited with a well organized system of scoring tackles by both linemen and backs as early as 1893.

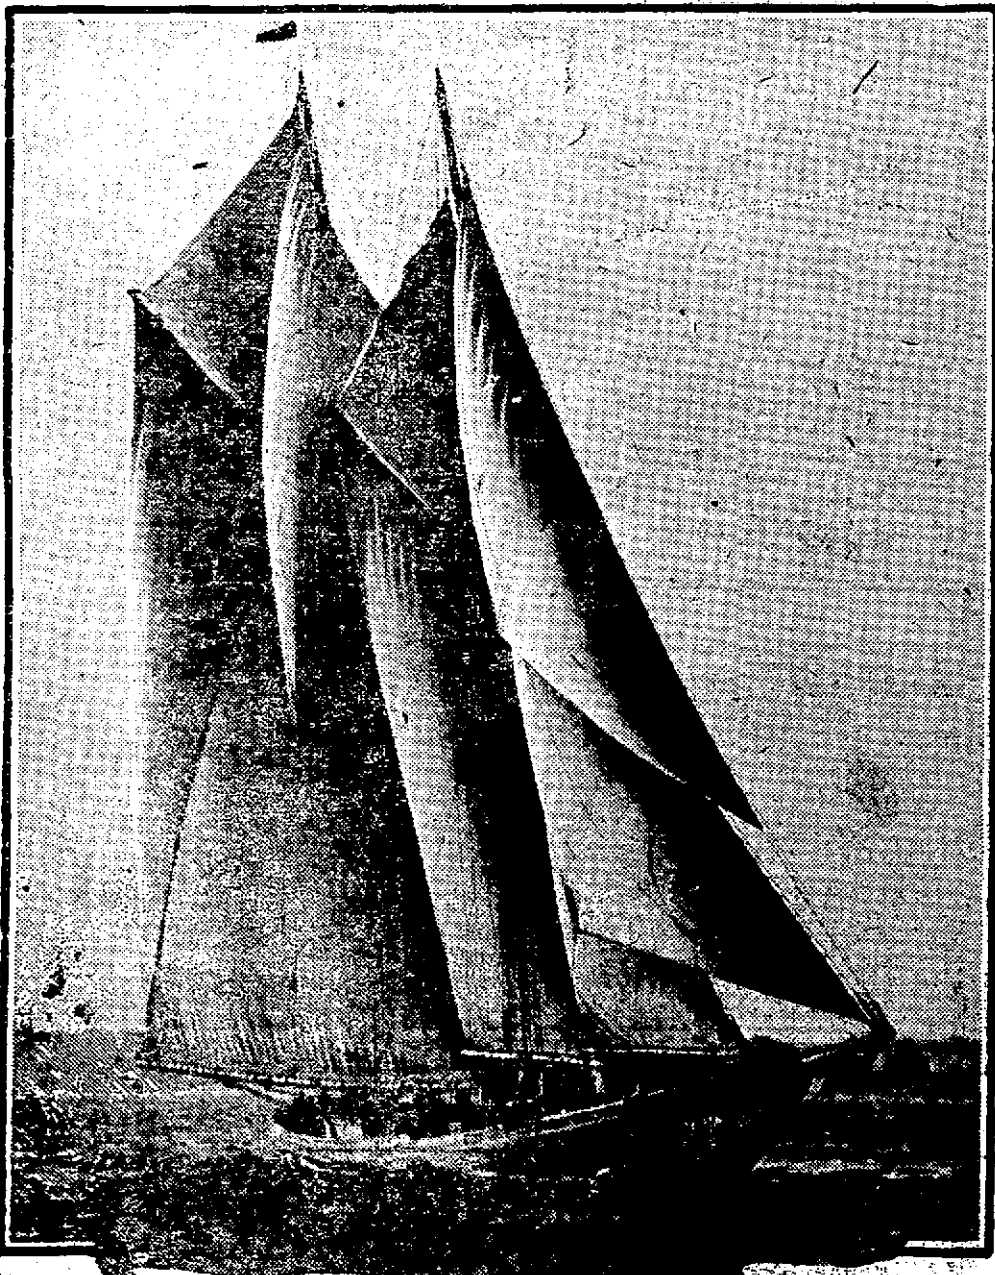

Scoring is done by student experts at Michigan where the system is said to be most efficient. At other schools, a coach or assistant keeps track of the plays.

EXCHANGE Tompkins Implement Store Saturday Oct. 27 By the Ladies' of G. A. R

Social Notes

The regular meeting of the Rebekah Lodge will be held tonight at seven o'clock in the lodge rooms in West Second street.

Mrs. Veri Bebout will be hostess to the members of the Komentri Club Monday afternoon at 2:30 o'clock at her home in North Perkins street.

The Glenwood Christian church Sunday school will give a masked Hallowe'en social Tuesday evening, October 30, in the basement of the church. Everyone is invited to attend.

The Ladies Aid Society of St. Paul's M. E. church will meet Tuesday afternoon at 2:30 o'clock with Mrs. Homer Powell, 701 North Morgan street. She will be assisted by Mrs. Sarah Kinnear and Mrs. Sam Morgan.

A Hallowe'en dance will be given Tuesday evening, October 30 at the Elks club and the Miami Lucky Seven will furnish the music. A program of dances to suit everybody will be given, including the circle waltz. The dance is strictly invitational.

The choir of the Little Flatrock Christian church will hold a rehearsal Saturday night at the church, to practice for special music which will be rendered at the Sunday services, and all members are urged to be present. The executive committee will meet at the close of the practice hour.

Miss Maude Muncie, daughter of Mr. and Mrs. Siem Muncie of this county, and Green Morris of Indianapolis, were married at the St. Paul's Methodist Episcopal church Thursday afternoon by the Rev. W. H. Hargrett. They will reside in Indianapolis. Mr. Morris is a conductor on the Shelbyville division of the Indianapolis & Cincinnati traction line.

Mrs. R. O. Veatch acted as a charming hostess for the Christian Union Aid society of Homer at her home Thursday afternoon near Homer. The regular business session was held in which it was decided to hold a food sale at Shelbyville near Thanksgiving. After this a short literary program was given, Mrs. Ethel Hufferd and Mrs. Margaret Miller giving interesting readings. At the close of the afternoon the hostess served delicious refreshments. The next meeting will be held November 22, with Mrs. Charles Cassidy. All members are requested to

be present for this will be a very important meeting.

The Band of Workers of the First Presbyterian church held their regular meeting Thursday afternoon at the home of Mrs. J. W. Hogsett in North Main street, with Miss Nancy Hogsett, Mrs. Gunn Haydon and Mrs. James Brooks, as the assisting hostesses. Business of great importance to the church and society was discussed and decided upon at this meeting. It was also decided to hold a lunch at the Earl Payne sale, November 8, and a penny supper, Friday night, November 16, in the basement of the church, for the public. Following the business session, a social hour was held, during which refreshments, which carried out the Hallowe'en colors of black and yellow, were served to the members present.

The charity card party given by the Psi Iota Xi sorority Thursday afternoon at the Elks club rooms, was a charming social event of the Hallowe'en season. Yellow and black the Hallowe'en colors, were used profusely in the decorations of the club rooms and the many floor lamps with their attractive shades of the premonishing color scheme, cast a soft glow over the card tables and made a very pretty setting for the party. Other Hallowe'en emblems such as pumpkin faces, autumn leaves and black cats and witches, added to the decorative scheme.

Twenty-one tables of Bridge and Five Hundred were in session during the afternoon and a pretty handkerchief was given to a lady of each table as a favor. The sorority cleared \$55 from the party, which will be used for charitable purposes. Everything used for the event was donated and all the money taken in by the Psi Iota Xi sorority, was clear money.

As a closing feature of the charity party, refreshments in keeping with Hallowe'en were served to the guests.

Mrs. Albert L. Winship and Mrs. Charles A. Mauzy entertained the members of the Happy-Go-Lucky club and their husbands Thursday evening at the home of Mrs. Winship in North Main street with a 6:30 o'clock dinner party. The dining table was prettily decorated for the dinner with a large bouquet of chrysanthemums. Following the serving of the repast, an informal social evening was enjoyed.

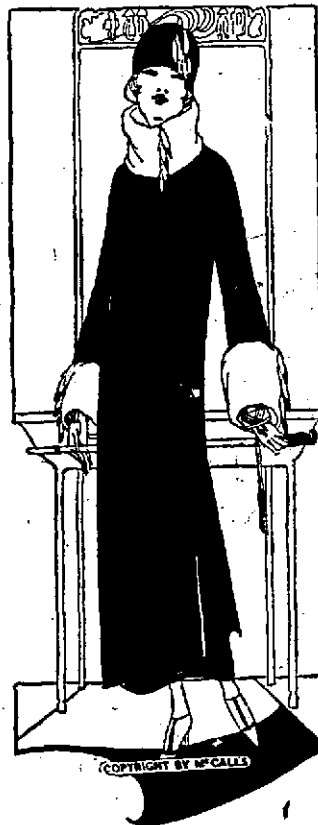

Mr. and Mrs. Guy Wiley entertained the members of the Thursday Evening club last evening at their home near Fairview. The guests were entertained with a Hallowe'en party, each one being masked and much enjoyment was had, guessing the identity of those who came masked. The home was decorated in keeping with the Hallowe'en spirit. The guests played euchre during the evening and when the card games were over, appropriate refreshments were served by the hostess.

The King's Heralds of the St. Paul's Methodist Episcopal church were entertained Thursday afternoon at four o'clock at the home of the Misses Virginia and Kathryn Bussard in East Sixth street. Thirty two members were present, and three new members were taken in at this meeting. Mrs. Foster Miller conducted the devotional period and the subject for discussion was "Japan." Anna Rebecca Allen rendered a piano solo. Hallowe'en refreshments were served at the close of the meeting.

Mrs. Curtis Scholl was hostess Thursday afternoon to the members

of the Priscilla Art and Literary Club at her home near Fairview. The members responded to the roll call with a county of Indiana and its characteristics. Mrs. Jesse Rees prepared a very interesting paper on "Indiana's Natural Scenery." A duet was played on the piano by Mrs. Ruth Hill and Miss Meriam Fry. During the social hour at the close of the program the members told ghost stories and as a reward for telling the best story, Mrs. Donald Foster received a gift. Three guests were present for the meeting, Mrs. Virgil Vickery of Raleigh, Mrs. J. E. Walther of Glenwood and Mrs. Glen Smelser. A luncheon was served to the guests when the program closed.

Winter Coat Style

This is one of the most popular of the new styles for wraps shown in advance winter models. It retains the slight side drape and the flat front which is smarter still. The high choker collar is new and the curved opening line from throat to hip. Soft pile fabrics are especially adaptable for these graceful lines.

CAREER OF C. P. STEINMETZ ENDS

Continued from Page One working and planning new electrical miracles.

Workmen were busy constructing, on top of one of the General Electric company buildings a Steinmetz lightning laboratory, where "the wizard" intended to make the elements perform according to his whim.

TO EXPLORE MAYA RACE IN MEXICO

Exploration Soon To Be Made May Recurrect A Civilization Antedating That Of Ancient Egypt

MAYAS LIVED IN YUCATAN

Carnegie Institution Of Washington Has Signed A Contract With The Mexican Government

By A. L. BRADFORD (U. P. Staff Correspondent)

Washington, Oct. 26—One of the most important scientific explorations probably ever undertaken and one which may resurrect a civilization antedating that of ancient Egypt will begin soon, in accordance with a contract recently signed between the negie Institution of Washington.

This will be a complete exploration of the Maya race of Mexico. The Maya civilization flourished in Yucatan, Mexico. The impending exploration is regarded as of the greatest importance and significance to the scientific world.

The group of scientists who will undertake the exploration probably will be headed by Dr. S. G. Morley. Dr. Morley has lived and studied many years in Yucatan and is the possessor of the most profound knowledge on the Maya race. It is expected that at least he will be in charge of the archeological phase of the exploration.

Work is now in progress in Yucatan to clear away woods and brush that have grown up around the ruins of the Maya civilization in order to facilitate the investigations of the scientists.

A great human aid for the impending exploration has been discovered in Yucatan—a Maya boy, who is a direct descendant of the last Mayakings, according to word received here. It is said that this boy is able to read some of the ancient Maya writing and he will be employed to aid the scientists in their efforts to translate these thoughts of the hidden centuries.

The world has been unable only to guess at the achievements of the Maya civilization. But now the scientific exploration led by the Carnegie Institution is to make the most complete investigation of all phases

Just Think of It!

And here is the latest story they tell about Carmel Myers, movie actress of the west coast. They say—get this—that she bit into an oyster and found a pearl worth 16,200,000,000,000 German marks! Lucky girl. We haven't tried to verify the story—but she is a beautiful girl, isn't she?

of the civilization of the Mayas.

The great Maya cities will be in part restored, the lives of the people will be delved into and the conditions under which they flourished will be studied to determine how this mysterious race was able to achieve its progress. The Maya treasures will be salvaged, and after the work has been completed this ancient resurrected civilization will be preserved for posterity.

As an example of the great attainments which the Mayas developed, it is said at the Carnegie Institution here that the so-called ball court of the ancient Maya city of Chichen-Itza, on which the coming explorations will center, was constructed in such a manner and its acoustics so arranged that the voice of ordinary pitch spoken in one corner of the court could be distinctly heard and understood opposite, about sixty yards away.

world on the subject of the Maya

The greatest scientists in the civilization will be asked by the Carnegie Institution to take part in the explorations.

K. OF P. WORK TO BEGIN

The Knights of Pythias will meet Monday night at which time the active work for the fall and winter season will begin, and a class of 7 candidates will take the rank of Page. All members are urged to attend and renew their loyal interest in the lodge.

Bloomington—Plans for the erection of a \$75,000 building for social and religious educational work for the university students are under way according to the Rev. C. W. Harris, student pastor of the Presbyterian church here.

All Over Indiana

Greensburg—Mike Heger's ensilage cutter is not receiving fodder this week because Mike had too great faith in its cutting ability and fed it an ax.

Logansport—"Sure, she's boiling in the celler right now" replied Harrison N. Miller, 62, farmer near here, when prohibition officers visited his farm.

Seymour—A phonograph has rights, Edward Aufenberg has come to believe. Just as his machine "Goo-goo-Googie eyes" in "Barney Googie," the machine quit googling, had a tantrum and flew to pieces.

Warsaw—Enil Fencil and his brother look so much alike that witnesses, during Emil's trial, became so confused that he was released because of mistaken identity.

Fort Wayne—"Some persons know more about profits than prophets" Rev. Charles Reign Seoville told his audience at a revival here.

Tipton—A municipal swimming pool is assured Tipton. The Kiwanis club has raised \$6,400 to make Tipton safe for swimmers. The goal is \$9,000.

Booneville—A gubernatorial boom for Rosecoe Kiper, former state senator from Warrick and Vanderburg counties, is under way among Republican workers and friends of Kiper here.

Tipton—A strange hog disease has appeared on Tipton county farms. The hogs become paralyzed in the hips for a few days, then die. Stockmen have been unable to classify it, and no cure is being effected.

Kokomo—Larry Ryan, Democratic county chairman, and C. H. Havens, former postmaster here, are behind a movement to organize a Ralston-for-president club in Howard county.

Logansport—Mrs. Elsa C. Roby, 80, has filed suit against her son, Conrad. She asks support, charging her son is in possession of the family home place and has refused to allow her to make her home there.

Boonville—A new waterworks system is contemplated for Boonville. A firm of Indianapolis engineers have been employed to make a water survey of the city.

Danville—An orchestra of 298 pieces has been organized among pupils of the Hendricks county public schools. A concert will be given in the spring.

Hartford City—H. L. Kegerreis has received a letter from Mrs. Harding in answer to two poems on the late president's death which he wrote and sent to the widow.

BIRTHS

An eight pound boy has been born to the wife of Lewis J. Newhouse, at their home in Center township. The baby has been named, John Emmert Newhouse.

4 DIE AT GRADE CROSSING Attica, O., Oct. 26—Authorities today probed a grade crossing accident which claimed four lives near here last night. An automobile waited while a freight train pulled past the crossing. Then as the automobile started over the track, it was struck by a freight engine running from the other direction.

Can You Imagine?

A Can Without a Bore? An Apple Without a Core? A Session of our Sunday School that does not taste like more?

Tell It!

## TO HONOR BIRTH OF HARDING NOV. 2

Logansport Is Making Plans For Big  
Republican Gathering In Observance  
Of Harding Day

### PROGRAM NOT ANNOUNCED

Plan of All Republicans Is To Make  
The Gathering Outstanding  
Observance In State

Logansport, Ind., Oct. 26—Plans are being made here to care for a big Republican gathering in observance of Harding Day on November 2, the birthday anniversary of the late President. John B. Smith of this city, and Robert C. Hilles, also of this city, are in charge of the arrangements, but the detailed program has not yet been announced. Mr. Smith is the Republican county chairman.

Delegations of Republicans from many nearby cities are planning to be in attendance, coming from Lafayette, Peru, Rochester, Delphi, Winamac, Monticello, Kokomo, Tip-

ton and Wabash, according to word received by Mr. Smith. Many of the prospective visitors have informed Mr. Smith that they will motor to this city, some coming in the afternoon and others for the evening ceremonies.

While Harding Day will be observed throughout Indiana, the plan of the local Republicans is to make the gathering here the outstanding observance in the state. The record of constructive achievement made by Mr. Harding as President will be the theme of the program, which will seek to emphasize that he put into effect economies of administration that have saved and are saving billions of dollars to the taxpayers. The specific achievements to be cited are the reduced government expenditures, lowered taxes, the prosperity that restored work for 5,000,000 men, who were idle when Harding took office, the foreign policy, culminating in the arms limitation treaties that stopped competition in building warships at enormous annual expense, and the gradual improvement of agricultural conditions, due to the tariff.

"The farmer, the laborer and the merchant know the distance they have traveled from 16-cent corn, 5,000,000 unemployed, and the gloomy business outlook of two years ago," said Mr. Smith, summing up

## It's All the Bandits Left

These few pieces of twisted wood and steel mutely tell the story of the recent sensational Southern Pacific holdup in a tunnel near Ashland, Ore. The debris is all that remains of the mail car the bandits dynamited. Three trainmen and a mail clerk were killed in the robbery. And this picture also gives an idea of the damage done to the baggage car adjoining the wrecked coach.

reasons for tribute being paid to the Harding administration of government.

### CLARKSBURG

Samuel L. Dobyns aged 68, died last Friday morning at six o'clock after an illness of only one hour, apoplexy being the cause of his death. He is survived by the widow, who was formerly Miss Boling, and a brother, Lemuel Dobyns of Greensburg; two sisters, Mrs. Jesse Whitten of Greensburg and Mrs. McCracken of Alabama who were here to attend his funeral. The funeral was held Sunday afternoon at two o'clock in the Christian church, the Rev. Walter Crawley officiating. Burial took place in the Clarksburg cemetery.

Mr. and Mrs. J. H. Travis of near Rushville were the guests of Mrs. Lucy Wilkinson Sunday.

Mr. and Mrs. Roy Angle and family were the guests of Mr. and Mrs. Oscar Carroll of near Rushville Sunday.

Mr. and Mrs. Birney Bohannon of Richmond were the guests of Mr. and Mrs. Albert Ray Sunday.

William Boling has gone on a visit with Mr. and Mrs. Lum Thompson of near Milroy.

Mr. and Mrs. Chester Bergen and family of near Fayetteville were the guests of Mr. and Mrs. Walter Brodie Sunday.

Win Hite has been ill with neuralgia.

Mrs. Mrs. Clint Emmert spent Saturday in Cincinnati, Ohio.

Mrs. Seierest of Laurel was the guest of her sister, Mrs. Clint Emmert Wednesday.

Roland Dobyns, who lives in the

south, is the guest of relatives here. Dr. and Mrs. Prosser Clark spent Wednesday night in Indianapolis.

Mrs. Mollie Robinson has moved into Firman Linville's house by the school house.

Ed Christian and family of Connersville were the guests of Mr. and Mrs. Wess Christian Sunday afternoon.

Max Kanouse visited with friends here over the week-end.

Mrs. Queen Spillman of Greensburg has been the guests of Mrs. Alex Burns.

The Ladies Aid society of the M. E. church held an all day meeting at the home of Mrs. Bert Cooper Wednesday. Dinner and supper were served to the public. They made between \$25 and \$30.

Mr. and Mrs. Lum Thompson of near Milroy attended the funeral of S. L. Dobyns here Sunday.

Several from here attended the Sunday school parade Saturday afternoon in Greensburg.

Fred Goddard's house caught fire on Tuesday afternoon but was put out before much damage was done.

## MOVIES

### "Penrod" At Princess

All the impishness of American boyhood jumps to the screen in "Penrod," the first National attraction which will be the feature picture at the Princess today and Saturday. Produced by Marshall Neilan from Booth Tarkington's inimitable stories the picture makes no pretence of "high brow" study, but offers an ebulliently of American boyhood for sheer entertainment.

Just how many scraps an enterprising American youth can get into is apparently the chief object Penrod starts out to demonstrate. One of the most humorous scenes shows how he makes his bow in amateur theatricals when Mrs. Laura Reubush produces her own childbrain "The Children's Pageant of the Table Round."

Unlike modern femininity Penrod carries a strict aversion to bare legs, especially when his upper trunks are a recognizable remnant from Dad's last winter red flannel underwear. So Penrod scurries into the dressing room of the leading lady and jumps into a borrowed pair of underwear that is about four sizes too large.

Just about the time that Queen Guinevere of the Table Round is making her most beautiful speech Penrod's upholstery begins to slip and descend. The ridicule of Maurice Levy, a rival for the hand of his lady fair, complicates matters and a general fight ensues, during which the curtain is rung down.

Freddie Barry in the role of Penrod is said to give the most creditable and laughable performance of the year in this production.

### DRIVER OF CAR RELEASED

Fort Wayne, Ind., Oct. 26—After a coroner's investigation, Willis Green, held in connection with the death of Carl Piepenbrink, was released from custody here. Green was arrested when it was reported that Piepenbrink's death was indirectly due to injuries received in a fight with Green.

### DRY AGENT'S HOME BLASTED

Dr. S. E. Conrad, Youngstown, O.,  
And Family, Not Injured

Youngstown, Ohio, Oct. 26—The home of Dr. S. E. Conrad, state dry agent of Salem, was destroyed by a blast of dynamite early Thursday.

Dr. and Mrs. Conrad and their daughter were badly shaken up but not severely injured.

The blast shattered windows in the Methodist church next door and cracked windows in buildings for several blocks.

Dr. Conrad, known as the "lone wolf" of dry raiders, has figured in several sensational raids in Youngstown recently.

Police believe the explosion today was the work of bootleggers.

### NEW LAMP BURNS 94% AIR

#### Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be a superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. N. Johnson, 609 W. Lake St., Chicago, Ill., is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

## The Hot Blast Air Tight FLORENCE

Will heat three times more space, at one-quarter the cost, in burning soft coal than any other stove with the same size firepot.

### WHY?

Because the damper back of the firepot burns the cheapest soft coal or screenings and all the smoke and soot with the same regularity and cleanliness as the burning of gas, producing a steady heat day and night.

### No Smoke! No Soot! No Dirt!

Two tons out of every three tons of soft coal are wasted in all heating stoves constructed without a damper back of the firepot. Besides the offense inside and outside the house from the accumulation of soot.

The Florence makes its own gas and burns it and makes its own coke and burns it.

You will have steady heat day and night. The medium size holds fire 3 days and 3 nights with one filling, other sizes in proportion.

The Florence is an investment. It pays for itself every two years in the saving of coal. In zero weather it will pay for itself the first season in the saving of doctor bills by elimination of irregular heat.

### GLENWOOD

Mr. and Mrs. Charles F. Donthitt had as guests Monday and Tuesday, Mr. and Mrs. J. E. Liddick of Ladoga, Ind., and Mr. and Mrs. Marcellus Diddick of Westville, Ky. Other guests Monday were Mr. and Mrs. Elmer Scholl, Mr. and Mrs. Emory Scholl and Mrs. Sarah Scholl of Lyonsville, Mrs. Charles Stoneker and daughter Norma of Connersville and Lawrence Gness, principal of the school here.

Mrs. Ida Young of Connersville visited with her sister, Mrs. Effa Davidson and family Tuesday.

Ray Beaver was in Indianapolis Tuesday transacting business.

Mrs. M. V. Bell of Gassaway, W. Va., came Thursday to spend the winter with her daughter, Mrs. Thomas Young, and husband.

Benjamin Carr of Ohio visited his uncle, G. B. Carr and other relatives part of last week.

Carl Thatcher and sister Alice spent the week-end with their grandmother, Mrs. Alice Worsha mat Bunkerhill.

Mr. and Mrs. Irvin Shortridge and daughter Norma and son Noel visited with the former's grandmother Mrs. Robert Dora, Sunday afternoon.

Mr. and Mrs. James Norris have moved to their new home near Blooming Grove.

Mr. and Mrs. Glenn Swift and daughter Marjorie of Lewisville visited with their mother, Mrs. Effa Davidson, Sunday afternoon.

Mr. and Mrs. Thomas Young at-

tended the all-day meeting at the Orange Christian church Sunday.

Miss Gladys Addison spent the week-end with her parents at Carthage.

Miss Ola Holloway of Rushville spent the week-end with her sisters, the Misses Ola and Emma Holloway.

Miss Bernice Donthitt returned home Saturday from a visit with her sister, Mrs. Glen Hiers, and husband of Urbana, Ill.

Mr. and Mrs. Clyde Matney and sons were among the guests who visited Mr. and Mrs. Russel Ruff Sunday.

Mr. and Mrs. D. C. Norris and son Harry have returned from a visit with relatives at Akron, Ohio.

Mrs. Elizabeth Kinder, Mrs. Amanda Brown, Mrs. Eva Reed and Mrs. Caroline McCopnell were guests of their brother, George Heizer and daughter, Mrs. Marion Rassel and family of near-Orange Sunday.

Several other relatives of different communities were there to spend the day together and enjoy the pitch-in dinner at the noon hour.

Miss Frances Carpenter visited from Wednesday until Sunday with relatives at Connersville and Alphonse.

Carl DeHaven of Connersville was a Sunday dinner guest of his aunts Miss May Nichols and Mrs. Zetta Harwell.

Mr. and Mrs. Charles Sparks of Indianapolis were the week-end guests of the latter's parents, Mr. and Mrs. George Dukate.

Charles Stamm and son Melville visited the former's son Percy Stamm and wife at Cincinnati Sunday.

Mr. and Mrs. W. F. Alexander motored to Indianapolis Sunday and visited friends. Their daughter returned home with them after several days visit there.

Mr. and Mrs. Forrest Brooks, Mr. and Mrs. Earl Ruff Mr. and Mrs. Nick Myers and Mrs. C. M. Books and son Donald attended the dedication of the new Christian church at Milton Sunday.

Mrs. A. Wines and children Norman and Isabell of Galveston, Ind., spent the week-end with Mr. and Mrs. G. B. Carr.

Mr. and Mrs. Swartz of Homer visited with Mr. and Mrs. Orlando Jackson Sunday afternoon.

Mr. and Mrs. Robert Stamm of Indianapolis were guests of the former's brother, Frank Stamm and family Sunday.

Mr. and Mrs. Ray Carpenter visited the latter's brother, Ralph May and family at Connersville Saturday night and Sunday spent the day with their parents, Mr. and Mrs. John B. May and family at Alpine.

Mrs. Effie Stevens of near Orange has moved in the home lately purchased of Mr. and Mrs. James Morris.

Mrs. Elizabeth Kinder entertained to dinner Thursday, Mrs. Louise Lewis and sister, Mrs. Emma Powell of Rushville and Mrs. W. S. Saxon and Mrs. Curtis Scholl and daughter of Fairview.

Mrs. Margaret Vandivere has returned from a visit with relatives at Indianapolis.

Mr. and Mrs. Charles Combs and son Eugene were Sunday dinner guests of Mr. and Mrs. G. M. Leapey at Connersville.

### RICHLAND

Joseph Fey was a business visitor at Greensburg Monday.

Mr. and Mrs. Otis Miller and family and Mr. and Mrs. George Moore and family were the Sunday guests of Mrs. Smith at Clarksburg.

Mr. and Mrs. Gayle Pike have moved to Laurel. Mr. Pike has a position with the Standard Oil Co.

Mr. and Mrs. Arthur George and family spent Sunday with Mrs. Clara Meyers and family near Rushville.

The Parent Teachers association will hold their next meeting Friday night at the M. E. church. A play will be rendered, "Not A Man In The House." Refreshments of pumpkin pie and coffee will be served.

Mr. and Mrs. Ed George and Mr. and Mrs. Verne Lewis motored to Waldron Sunday afternoon.

Mr. and Mrs. Arthur Browning were business visitors in Rushville Thursday.

Gayle McHenry underwent an operation for appendicitis at the Dr. Sexton hospital in Rushville last week. He is getting along nicely.

The teachers of this township attended the state teachers association in Indianapolis the latter part of last week.

**KNIGHTS TEMPLAR MEETING**  
Rushville—Commandery No. 49 K. T. will confer the Temple degree Friday evening at 7:30.

**EXCHANGE**  
The Ladies of St. Mary's Church will hold an exchange Saturday, October 27th at Tyner's Tailor-Shop.

## DeLaval

DID YOU KNOW that the 1924 DeLaval Cream Separator has a smaller bowl than ever before.

DID YOU KNOW that you could get any part of your separator, it doesn't matter how old it is.

DID YOU KNOW that we could fix your separator if it's a DeLaval.

DID YOU KNOW that TEN years ago I tried to sell a fellow a DeLaval Cream Separator and he bought another make and since that time he has had two different make separators and the other day he bought a DeLaval.

DID YOU KNOW that that man paid enough money for those other two machines to keep his DeLaval in repair and oil for a hundred years.

DID YOU KNOW that you need not buy but one DeLaval Separator, because you can get a new bowl and new bearings and shafts to fit your old frame.

DID YOU KNOW that sooner or later you will buy a DeLaval Cream Separator.

DID YOU KNOW that if you want to know anything about a DeLaval Cream Separator that our Mr. Pike can tell you.

## DeLaval

DID YOU KNOW that the DeLaval Separator is better and will out last any three of any other make.

DID YOU KNOW that we have never traded for an old DeLaval separator.

DID YOU KNOW that we would not trade for any other.

## Gunn Haydon

### NEFF'S CORNER

Mr. and Mrs. Roscoe Lefforge, Mr. and Mrs. George Cameron and Miss Mag Emsweller attended church at Connersville Tuesday night of last week.

Mr. and Mrs. Morris Kile and children were guests of relatives in Indianapolis Sunday.

Mr. and Mrs. John Vankirk and daughter of near Greensburg were dinner guests of Mr. and Mrs. Jacob Humes Monday.

Mr. and Mrs. Riley Lanning and children motored to Brookville Sunday morning and spent the day with relatives.

Mr. and Mrs. Roscoe Lefforge and sons Lowell and Angus and Miss Mildred Wilson motored to Oldenburg Sunday.

Miss Minnie Gwinnup was the guest of her sister, Mrs. Charley Hobbs and family of near Connersville Sunday.

Mrs. Gerie Wilson was in Andersonville Monday afternoon.

Mr. and Mrs. Philander Lefforge and grandsons Lowell and Angus were guests of Lewis Lefforge and family of Philadelphia, Ind., Thursday and Friday of last week.

Jacob Humes was a business visitor in Rushville Saturday.

Mrs. George Cameron visited friends in Andersonville Monday evening.

## 12 Good Reasons Why You Should Have An Account With This Strong Association

BECAUSE it is ABSOLUTELY SAFE. We loan on First Mortgages on improved Rushville and Rush County real estate.

BECAUSE we never go over two-thirds the value and generally about one-half.

BECAUSE with every payment our security gets better.

BECAUSE We HAVE NO BAD OR DOUBTFUL LOANS, and if any loss should develop in the future we have a fund of \$3500.00 to take care of it. This fund can be used for no other purpose.

BECAUSE the title to the property is investigated and is "good" before we will accept the loan.

BECAUSE we require borrowers to carry insurance to protect us in case of loss by fire or storm, usually to the full amount of the loan.

BECAUSE we are under State Examination the same as Banks and Trust Companies.

BECAUSE our active officers are under a heavy SURETY Company bond.

BECAUSE you can deposit to suit your convenience and you can withdraw in whole or in part WITHOUT NOTICE.

BECAUSE WE PAY 6 PER CENT AND NOT 3 OR 4 PER CENT. If not withdrawn this interest draws interest as it is compounded.

BECAUSE if you do not own your own home, possibly we can help you accumulate enough to make your payment of a part of the purchase price and we can help you with the balance.

BECAUSE there are many more GOOD reasons and no BAD ones.

Drop in and see us, maybe we can be of some benefit to you.  
We will be pleased to see you.

## BUILDING ASSOCIATION No. 10

## ROADS, SCHOOLS LARGEST ITEMS

Analysis of Tax Collections Show  
60 Percent Collected Goes to  
These Two Funds

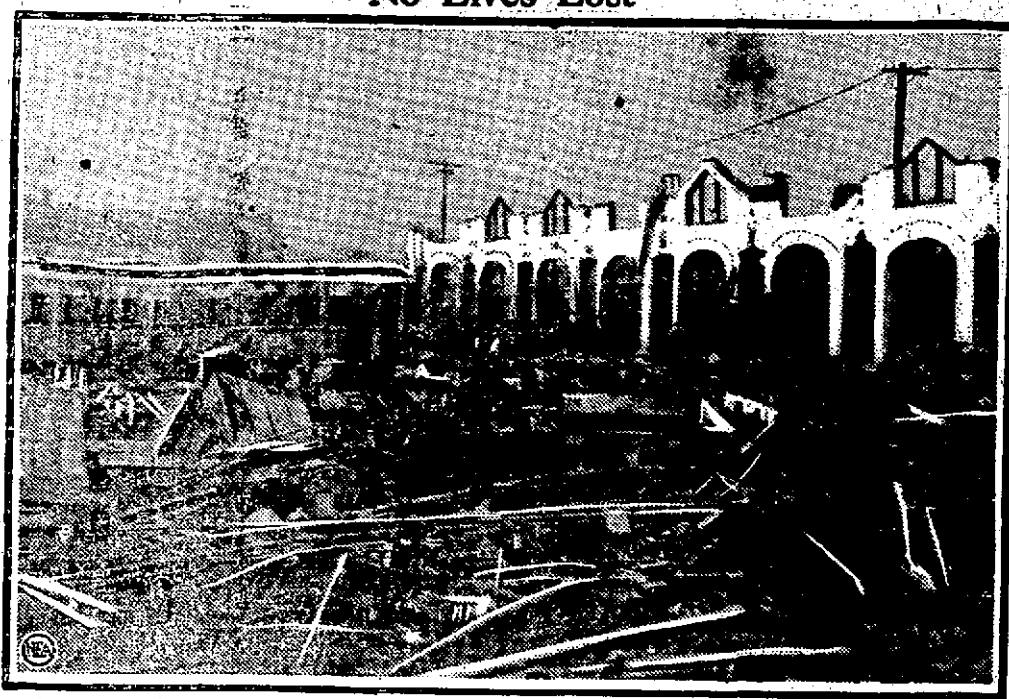

### OTHER DIVISIONS MADE

Study of Items Show That Schools  
Get 40 Cents And Roads 20 Cents  
of Each \$100

Indianapolis, Ind., Oct. 26—Sixty cents in every tax dollar is spent for schools and roads, according to the State Tax Board, which has completed an analysis of the use that is made of the taxes levied for collection this year. Particular interest attaches to the board's analysis because of the approach of Nov. 5, the last day for paying the last installment of the 1923 taxes.

While tax collections will not be completed by the county treasurers for almost three weeks, the board's analysis nevertheless applies to the 1923 taxes, being based on the amount levied for collection this year by the several units of government that exercise a taxing power.

In its analysis the board distinguishes between the various levies made for state, county, township and city purposes, and also points out that 12.69 cents of each tax dollar is under state control and that the remaining 87.31 cents are under local control. The showing that more than half the tax money goes for roads and schools is given by the board, adding together the various

A fierce blaze in the railroad yards at Camden, N. J., destroyed \$700,000 worth of property, leaving but the ashes and the charred shells of steel coaches. One fireman was injured, but no lives were lost.

educational and road levies of the four taxing units. A study of these items reveals that schools get about 40 cents, and roads about 20 cents, with a considerable part of the road money going to pay off bonds and interest for past improvements.

The division of the tax dollar by cents and fractions thereof according to the use made of the money is shown by the board's analysis, which follows:—

State	
State tax (administrative purposes)	1.19
Benevolent institutions	3.64

Tuition (grade teachers' salaries)	3.39
Purdue, Indiana & State Normal	2.27
Vocational education	.23
Teachers' pensions	.23
Agricultural Experiment Station	.18
State highways	1.30
World War Memorial	.18

County	
County tax (administrative purposes)	9.24
Gravel road repairs	5.60
Road bonds and interest	11.60

Township	
Township tax (administrative purposes)	1.46
Tuition	18.32
Special school	14.59
Roads and additions	2.27
Poor	.70

City	
General Fund	12.53
Street	.36
Light and water	.49
Miscellaneous (see note)	10.25
Note:—The miscellaneous items include local levies made to raise funds for special judgments, sinking funds for special judgments, sinking pools, playgrounds, street oiling, cemeteries, police pensions, etc.

### The Life of a Home

A healthy, happy, contented wife is the life and joy of the home and the greatest inspiration a man can have, yet how many homes in America are blighted by the ill-health and sufferings of the wife and mother. It may be backache, headaches, the tortures of a displacement or some other ailment peculiar to her sex, which makes her irritable, despondent, and her whole life a burden. Every woman in this condition should rely upon Lydia E. Pinkham's Vegetable Compound made from roots and herbs to restore her to health and happiness, for statistics prove that it benefits 98 out of every 100 women who try it.

## No Lives Lost

## STEEL INDUSTRY OUTLOOK BRIGHT

Many Inquiries And Large Orders  
Received From Railroads Has  
Given New Impetus

### 1924 ORDERS ARE LARGE

Japanese Industries And Reconstruction Firms Show Interest  
Following The Disaster

By BRUCE SHORT

President, Engineers Sales Corporation  
(Written for United Press)

Indianapolis, Ind., Oct. 26—The appearance of inquiries for large orders from railroads has given new impetus to the steel industry which brightens the outlook for general business conditions.

These railroads have been withholding their orders pending concession in prices. It remains to be seen what the concessions will be if any at all are granted.

Booking of orders for this period of October have been far above the average for September. This condition indicates an improving condition of all kinds of business, because steel is taken as a barometer of trade for enterprises in which it does not enter directly.

Orders for steel rails used on railroads and interurban lines for 1924 delivery are far in excess of the number of volume received at the various mills during the first nine months of 1923 for 1923 delivery.

Japanese industries and reconstruction firms have begun to place their orders which consist mostly of galvanized sheets of steel and nails. The Japanese disaster revealed to a greater extent than had ever been revealed before, the superiority of American concrete and steel construction.

All buildings and structures in the region of the earthquake, fire and tidal wave which were of American construction went through the catastrophe with small damage, while other buildings nearby were wrecked. This fact is sufficient to induce residents of Japan and other countries of the orient to buy American products in preference to those from other nations.

The imperial government of Japan has appointed a committee to investigate the advisability of rebuilding certain sections that were destroyed in the calamity. The government is considering the formation of a purchasing organization to buy all supplies and equipment. The purpose of this is to eliminate any unjust prices which "scalpers" of construction material may try to obtain.

### PROBES AUTO ACCIDENT

Muncie, Ind., Oct. 26—A grand jury investigation of the auto accident here two weeks ago which caused the death of Miss Matilda Shrout, 23, was asked by Coroner J. F. Downing in his verdict filed today. He charges that Jesse Lawson was responsible for the accident and that Lawson was intoxicated and driving at a furious speed when the crash happened.

### NURSES' OFFICERS TO MEET

Indianapolis, Ind., October 26—Officers of the Indiana State Nurses' Association will meet at the state-house Saturday to outline plans for the coming year and appoint standing committees. Miss Ina Gaskill, president announced today.

## CHAS. M. TROWBRIDGE'S SALE OF 50 High Class Duroc Jersey Hogs TO BE HELD AT WOODLAWN FARM Wednesday, Oct. 31, 1923

Farm three-quarters of a mile west of Mays, Ind.; ten miles north of Rushville; seven miles southeast of Knightstown. Midway between Indianapolis and Richmond—four miles south of National Road.

20 SPRING BOARS

30 SPRING GILTS

Sired by Hoosier Giant, Jr., Foust's Top Col. Jr., Uneeda Orion Sensation, Barton's Sensation Leader, Orion King Perfect  
Some of the greatest boars of the breed. Dams equally well bred and big room sows.

### A FARMER'S INSPIRATION

The Old Red Sow is the surest way for the farmer to avoid bankruptcy. Drive your corn off on four legs and leave the fertilizer on your farm. Work at your trade throughout the year, the same as the merchant and factory. The farmer carries the burden, but he will not balk. The greatest minds of the Nation are at work to tide the farmer over a business earthquake following a world war. Pork means profit. Ton litters pay taxes. Balanced rations mean better results. Sanitation means safety first. Pure bred hogs mean cheaper production.

Good Dinner will be served by Ladies of Center Church.

IGLEHART and BUTTON, Auctioneers.

EDGAR PHILLIPS, Clerk.

## CHICAGO WANTS CONVENTION

Believes It Can Snatch Democratic  
Meeting Away From New York

Chicago, Oct. 26—A campaign was launched today by businessmen and political leaders to bring the Democratic national convention to Chicago.

After conferring with George Brennan, Democratic chieftan of Illinois, who believes it is not yet too late to snatch the big convention away from New York City, two representatives of the Chicago Association of Commerce announced they would start a campaign to raise \$100,000 the amount Brennan said would be necessary.

While political leaders believe it is practically certain the Republican convention will be held in this city, the newly elected Democratic administration is anxious to have the second big conclave here also. New York has been suggested as the possible convention city for the Democrats.

## GOVERNMENT NOW FIGURES ECONOMY

It is An Unpopular Issue With Printers And Engravers Dismissed From Service

118 MEN WERE NOT NEEDED

Another Example How Big After-War Force of Employees is Being Reduced as Needed

Washington, Oct. 26—The difficulties which officials of the National Administration always meet when they endeavor to reduce the public payroll are illustrated by the turn of events when there was a recent dismissal of 118 plate printers at the Bureau of Engraving and Printing. It was found that there were more employees than were needed and an order was made for the dismissal of this number. In order that the dismissals might be made with a view to promoting the interests of the Government and without injustice to employees, an efficiency test was made so that the least efficient might be dismissed and the Government thereby retain those who will render the most acceptable service.

In this case, as in almost every other when dismissals are ordered, a protest went up from those who were to be severed from the Government payroll. This protest would have been heard regardless of the personnel to be dismissed. Not only did the individual employees protest personally but they took their complaints to their Senators and Congressmen in an effort to secure the assistance of their representatives in the legislative branch of the Government to retain their positions in the executive branch. Naturally, members of Congress, feeling it their duty to look after the welfare of all their constituents, backed up these protests as strongly as they felt they were justified in doing.

There were no charges of dishonesty or incompetence against the persons who were singled out for dismissal. The fact is that during the war, when the government was issuing bonds, there was an abnormal amount of work for the bureau of engraving and printing and the number of employees was greatly enhanced. There have already been large reductions in the force, and these reductions are continuing because the work of the bureau is

## Good News

Secretary of Navy Denby, his friends are glad to know, is again out of the hospital. He suffered with a torn tendon in one heel, and still must use the crutch, as the photo shows. Snapped as he came from the Orthopedic Hospital, New York.

steadily diminishing. Moreover, better methods have been instituted which also permit the employment of a smaller number of persons.

Feeling under obligations to protect the public interest by reducing the number of employees whenever possible, the administration ordered the dismissals and did everything that could possibly be done to guard against favoritism or the retention of the least efficient. Notwithstanding its good purpose and its effort to perform its duty as fairly as possible, the administration is subjected to severe criticism by the persons who are dismissed and by their friends, and influence is sought to prevent this reduction of public expense. Some newspapers at the national capital take up the cause of the dismissed employees and encourage the feeling that an injustice has been done.

From the practical standpoint the situation which confronts this administration and every other administration is this: Persons who are threatened with dismissal, and their friends, bring every possible influence to bear to prevent the reduction in the public payroll. On the other hand, there is no public interest in the effort at economy. The administration gets censure on the one hand and no praise on the other. No taxpayers' league will send in a communication commending the administration for its effort at retrenchment.

It is this fact that makes difficult the task of any administration following a period of abnormal governmental activity such as that during the world war.

## AUGMENTS STATE HIGHWAY SYSTEM

J. D. Williams Speaks of Future Plans of State Roads' Body Which Puts Indiana Well to Front

ROADS TOUCH 82 COUNTIES

Sixty-six Percent of Total Population of Indiana is Benefited From State Highway System

Indianapolis, Ind., Oct. 26—Distances are shortened, isolated parts of Indiana placed in touch with the larger commercial and industrial centers, and southern Indiana's fruit belt and great scenic beauty now have an outside market and is available to thousands of tourists respectively, by augmentation of the state highway system and the construction and maintenance work of the past year, John D. Williams director of the state roads' body declared today, speaking of future plans of that governmental agency which is putting the state well to the front in the good roads program of the nation.

Mr. Williams said that the federal aid system in Indiana now touches each of the 82 counties, and that state roads pass through all but four of ninety-three cities of over 2,500 population. Cities of this class excepted are Dunkirk, 2,532; Gas City, 2,870; Hobart, 3,450, and Nappanee, 2,678. A population of 1,472,483 or 89.22% of the population of the state residing in cities over 2500 are served.

Relative to towns under 2,500 population, the state system passes through 537 municipalities and serves 239,204 people or approximately 40% of the population living in towns of this class. State roads pass through a total of 626 towns and serve a population of 1,711,687 people or approximately 80% of the public living in cities and towns, and 58.41% of the total population of the state.

Assuming that 30 percent of the state's rural population is served by state roads, then a total of 1,951,687 people or 66.6% of the total population of Indiana benefits from the state highway system.

There are approximately 4,652.5

miles in the Indiana state road system. On the basis of population served in cities and towns only, the average population per mile of road is 367.9; on the basis of total population served, the average population per mile is 419.5, and on the basis of the state's entire population, the average population served per mile by state roads is 629.9.

## JOINTS-EASE

For  
Stiff, Swollen Joints  
RHEUMATIC OR OTHERWISE

Says: "When Joint-Ease Gets in—  
Joint Apony Gets Out."

It was a high-class pharmacist who saw prescription after prescription fail to help hundreds of his customers to get rid of rheumatic swellings and stiff inflamed joints.

And it was this same man who asserted that a remedy could and would be compounded that would make creaky, swollen, tormented joints work with just as much smoothness as they ever did.

Now this prescription, rightly named Joint-Ease, after being tested successfully on many obstinate cases, is offered through progressive pharmacists to the millions of people who suffer from ailing joints that need limbering up.

Swollen, twingy, inflamed, stiff pain-tormented joints are usually caused by rheumatism, but whatever the cause Joint-Ease soaks right in, through skin and flesh and gets right to and corrects the trouble at its source.

Remember Joint-Ease is for ailments of the joints, whether in ankle, knee, hip, elbow, shoulder, spine or finger, and when you rub it on, you may expect speedy and gratifying results.

It is now on sale at all druggists and druggists everywhere for 60 cents a tube.

## WILL FLING HAT INTO RING

Shank Expected To Announce Candidacy For Governor Saturday

Indianapolis, Ind., October, 26.—Mayor Samuel Lewis Shank will send his hat sailing into the ring for the gubernatorial race Saturday night, his friends said today.

The occasion of the announcement will be a dinner given for the mayor's cabinet by Charles E. Coffin president of the board of works. "I've received some mighty encouraging reports from big men over the state and unless something turns up, I expect I'll be in the race soon," Shank said.

The mayor indicated he is preparing a platform to present in his announcement speech. One of the planks probably will be a proposal that a few state highways be electrically lighter from border to border.

"I've got a lot of other stuff that hasn't been proposed before, too," the mayor said.

## CALLS ATTENTION TO 23 MOTOR ACT

(Continued from Page One)

the culpability of said operator, who, leaves the place of said injury or accident, without stopping and giving his name, residence, including street and street number, and operator's license number to the injured party, or to a police or peace officer, or in case no police or peace officer is in the vicinity of the place of said injury or accident, then reporting the same to the nearest police station, peace officer or judicial officer, shall be guilty of a felony.

The penalty for failing to comply with the above statute, is a fine not exceeding \$500, to which the court may add imprisonment in jail or at the penal farm, for a term not exceeding two years. The court may, if it sees fit, inflict either a fine or sentence, or both.

If a person shall be convicted for the second time on the charge of failing to stop, the crime becomes punishable with a prison term of not less than one year, nor more than five years, and upon conviction for the second time, it is the duty of the court to certify the facts to the secretary of state, who shall revoke the license of the person convicted for a period of one year.

The law sets out also that it shall be unlawful for any convicted person, having been twice found guilty, to operate any motor vehicle, either his own or anyone else's car, during that period of one year, in which the secretary of state designates by re-

voking the license. There is a penalty attached for the violation of this section.

Under the motor vehicle law, it relates that any person making a false statement in a verified application for registration shall be guilty of a misdemeanor, punishable by a fine not exceeding \$50.

The law also continues: "Any person operating a motor vehicle or motor bicycle, while in an intoxicated condition, or under the influence of drugs, shall be guilty of a misdemeanor punishable by a fine not exceeding \$500, to which shall be added imprisonment in the county jail or at the Indiana State Farm, for not less than ten days or more than six months, and for a second or subsequent offense, such person shall be deemed guilty of a felony, and shall be punished by imprisonment for a term of not less than 1 nor more than 5 years.

## M'GRAW GOING TO EUROPE

New York, Oct. 26.—John McGraw, manager of the Giants, and his assistant, Hughie Jennings, will sail November 13 for Europe where they will spend a vacation. McGraw will be back in time for the December major league meetings during which he is expected to make several big deals.

OXYGEN BIG FACTOR  
IF GIVEN CORRECTLY

Dr. McMeekham Declares Athletes  
Would Out-Do Themselves With  
Oxygen Stimulant

## WAS WHAT FIRPO NEEDED

Chicago, Oct. 24.—If Luis Angel Firpo had been given a shot of oxygen just before that fatal second round of his fight with Jack Dempsey in New York, the South American probably would have won the heavy weight championship, Dr. F. H. McMeekham, Avon Lake, Ohio, told the United Press today. Dr. McMeekham is attending the meeting of the National Anesthesia Research Society here, and is regarded as one of the leading anesthetists of the country.

"Oxygen is a powerful stimulant and if properly administered athletes could out-do themselves and send present world records toppling," Mr. McMeekham said.

"Take running for instance," he said. "If runners were given oxygen a few moments before they enter a race they could lower existing speed records by a considerable margin. The oxygen would give the runner his second wind, and you would never see him dropping at the tape. He would finish with a great burst of speed and be as fresh as when he started."

"If Firpo had been given oxygen during that minute's rest he would have come up for the second round with his second wind, a clearer head and we might have had to chase to Argentine to reclaim the title."

Dr. George W. Crile, noted surgeon of Cleveland, told the 13th annual conference of the American College of Surgeons that the human body is an electrical machine composed of twenty eight trillion electric cells. Death results when the body ceases to capture energy to run the organism he said.

TAX ON SIGNS ALONG ROADS IS  
URGED BY HIGHWAY OFFICIALS

Indianapolis, Ind., Oct. 26.—Massachusetts will hereafter put a tax on the highway sign even though erected on private property, according to GOOD ROADS MAGAZINE. Highway officials of that state contend that the value of the sign is derived from the public highway, not from the private property on which it is located, and that the first obligation is to the public who owns the highway and gives the sign an advertising value. Permission from the land owner is a secondary matter. It would be well for other legislatures to extend the Massachusetts idea and give the highway authorities some control over all signs erected on private property that in any way derive their value from their location.

As regards public highway, thinks the editor of this eastern magazine. This is the only way that the highway officials can keep any control over the sign and billboard nuisance along the public highways. It will be recalled that more than a year ago the Indiana highway commission through its director, John D. Williams, promulgated an order to remove all advertising signs on the right-of-way of state roads. Millions of signs were removed, and today state roads are practically free of advertising matter. Members of the Indiana commission after investigation, determined that such a step would reduce traffic hazards, because in the majority of cases

signs were erected at sharp turns and on steep grades thereby obstructing sight distances. Their version proved correct for with the removal of signs accidents are less frequent.

Mr. Williams has announced that as soon as the state system is marked with the new numbers and danger and information signs, which work is now progressing well, it is contemplated to remove all signs of whatsoever character off state controlled roads leaving nothing but signs erected by the commission.

## MORRISTOWN TO HOLD ELECTION

Two Tickets Are In The Field And  
Interest Is Being Shown In  
Forthcoming Ballotting

REPUBLICAN AND CITIZEN

Clerk, Treasurer And Two Council-  
men Are To Be Selected By Citi-  
zens Of Town Nov. 6

A general election will be held in  
Morristown on November 6, and two  
tickets have been placed in the field,  
with considerable interest being  
shown in the campaign, although it  
is an off-year in elections.

Morristown is the center of political  
interest and occupies somewhat  
of an uncommon station at this time  
as plans are going on for the town  
election that will be held there  
Tuesday, Nov. 6. Although this is an  
off year generally for elections in In-  
diana, the incorporated towns in  
practically every county will vote  
for town officials, keeping alive the  
feeling that politics is never quite  
entirely dropped in the state.

The residents of Morrilltown will  
elect a councilman for the second  
and third wards and a clerk and  
treasurer of the town at the Novem-  
ber election, the only political elec-  
tion held in this section this year.  
Reports from the community state  
that the interest in the election is  
very tense and that campaigning is  
being conducted with as much spirit  
as in the years of regular political  
elections.

Two tickets have been placed in  
the field for the November election  
at Morrilltown. The republican and  
citizens' tickets are both strongly  
organized with candidates named  
for each of the four offices to be  
filled in the election. The two tick-  
ets were organized at meetings held  
weeks ago by the citizens of the  
town.

The citizens' ticket has Charles  
Jackson as candidate for clerk; Carl  
Reece, candidate for town treasurer;

## THE OLD HOME TOWN By Stanley

Oliver Olinger, for councilman, sec-  
ond ward, and Charles Campbell,  
for councilman in the third ward.  
Republicans have nominated Hen-  
ry E. Barnard for town clerk; Levi  
Trimble, town treasurer; Robert F.  
Seng, for councilman in the second  
ward and Eugene Cole for council-  
man in the third ward.

### Prussia, Facing Hunger, Appeals To The Public

By GUS M. OEHM  
Berlin, Oct. 26. —At least one  
warm meal a day for every Prus-  
sian during the coming Winter is the  
slogan announced by the Prussian  
Government.

Pointing out the great need for  
community co-operation because of  
"results growing out of the war, the  
Ruhr occupation and the crash of  
the mark and high prices," the Prus-  
sian Ministry promising food for  
everybody who needs it, appeals for  
aid from those who have aid to give.

"Only he who breaks bread with  
the starving has a right to sit at his  
covered table in his warm dwellings,"  
the appeal declares, stressing the  
fact that great sums of money are  
needed to feed the thousands who  
will be without work this Winter.  
"Our plans must be put into im-  
mediate execution," it continues.  
"Every man whose hearth is still  
warm, whose pantries are still filled,  
who can supply his own daily needs,  
should be glad to aid those who  
power to work is breaking down  
through hunger. He must make it  
possible to shield our children, old  
folks and prospective mothers from  
want."

The Prussian Government will  
mobilize its technical relief organiza-  
tions in the shortest possible time to  
carry out its plan of establishing  
community feeding centers in every  
city and village. The poor people  
the suffering middle classes and  
others in need must have at least  
one warm meal a day."

Germany has taken steps to in-  
sure a potato reserve for the Win-  
ter—at the expense of the brandy  
industry. The Food Ministry, point-  
ing out that the coming potato har-  
vest will not live up to expectations  
and that the potato is Germany's  
cheapest and most utilized food, has  
instructed the Railroad Ministry  
temporarily to refuse to deliver po-  
tatoes to distilleries, flake factories,  
starch factories, dried potato and  
other alleged non-essential indus-  
tries.

Much of the present potato crop  
has been plundered by individuals  
and organized bands, who have gone  
into the fields by the thousands,  
carrying away tons upon tons of  
potatoes. This has discouraged the  
agricultural barons, who threaten  
not to plant a new crop.

Announcing the program "Pot-  
atoes for Food," the Government has  
taken a direct slap at the distilling  
business, which must now obtain  
either by private automobiles or other  
non-Governmental delivery  
means. The railroads, until enough  
potato reserves are gathered to in-  
sure a sufficient Winter supply, must  
refrain from delivering to them.

This step is considered a serious  
blow to alcohol distilleries, but is  
greeted with approval by the popu-  
lace.

### 1200 PURDUE MEN GOING

Lafayette, Ind.—More than 1,200  
Purdue students will make their an-  
nual pilgrimage to Chicago Saturday  
to witness the Purdue-Chicago foot-  
ball game. They will be accompan-  
ied by the famous Purdue University  
military band, which has the largest  
drum in the world. Before the grid  
battle, the Chicago and Purdue cross  
country teams will engage in the in-  
itial run of the season for both  
teams.

## M. E. CENTENARY GIVES NEW SPIRIT

Bishop McConnell's Statement Re-  
views Centenary Program Which  
Was Inaugurated in May 1919

TO REACH CLIMAX MAY 1, 1924

Movement Put Stress on Making  
Wind Serve God And Filled Col-  
leges With Service Candidates

Chicago, Oct. 26.—The Centen-  
ary program of the Methodist Epis-  
copal Church was the first large-  
scale attempt to give Christianity a  
new start—to adapt it to world-wide  
needs—to put a new spirit at work  
on a world-wide area," says Bish-  
op Francis J. McConnell of Pitts-  
burgh, Pa., in a statement issued to  
the four and one-half million mem-  
bers of the Methodist Episcopal  
Church and to its ten million adher-  
ents, by the Committee on Conser-  
vation and Advance.

Bishop McConnell's statement,  
which was issued today, reviews the  
Centenary Program, which was in-  
augurated in May, 1919, and will  
reach its climax on May 1st, 1924,  
when the General Conference as-  
sembles at Springfield, Mass. At that  
time one million dollars was sub-  
scribed for the Centenary Program  
for missionary and benevolent work  
at home and abroad for five years.

Bishop McConnell says, "The Cen-  
tenary Movement put the stress on  
making the mind serve God. It filled  
our colleges with candidates for ser-  
vice at home and abroad. It dared  
remind the church that the best of  
Christendom's equipment of train-  
ing is none too good for him who  
would preach the gospel at home or  
abroad."

"The funds already received make  
the Centenary the most outstanding  
enterprise of the sort in our history,  
perhaps the most outstanding in the  
history of Protestant Christianity."

"Let it not be forgotten that when  
through increased pressure of new  
fields the church was not able to  
send to college and theological  
school all the young men coming into  
her ministry the Centenary funds  
made possible at least a measure of  
training in institutes and by corres-  
pondence and by personal conference  
for nearly three thousand of our  
younger ministers."

"It is to the everlasting glory of  
Methodism that during a time when  
all the world was at war, when  
plausible excuses for religious inac-  
tivity were more plentiful than at  
any time in a generation, when the  
struggle to meet the rising cost of  
living was at its most acute stage,  
when the nation was calling on its  
citizens for almost incredible sacri-  
fices, the Methodist Church chal-  
lenged every one of its members to  
give to the utmost for the sake of  
that whole world which the founder  
of Methodism called his parish."

"When hereafter the critics ask  
as to when the church ever tried to  
make adequate response in deed to  
crisis affecting all humanity, the  
response can legitimately be the re-  
cital of the program of the Centen-  
ary movement."

"It is to the everlasting credit of  
the Centenary that from the begin-  
ning it conceived of service to the  
world in terms of prepared leader-  
ship."

"The Centenary, without granting  
any extravagant sums at all, never-  
theless gave enough to lift enter-  
prises which were immediately be-  
low the threshold of success over the  
threshold to positive triumph."

"I can conceive that, in a world  
where the temperature never got  
above thirty-two degrees, the inha-

in  
"YOUNG  
AND  
DUMB"

bitants might not believe the story  
of what would happen with just one  
more degree of heat. The thirty-third  
degree, Fahrenheit, however, in a  
thirty-two degree world would be al-  
together revolutionary. It would  
surely start things moving. To  
many a home and foreign missionary  
enterprise the Centenary was the  
thirty-third degree Fahrenheit.

"The Centenary officials from the  
beginning insisted upon a sympathet-  
ic approach to the laboring classes  
—and that, too, in spite of consid-  
erable opposition."

"The Centenary has made it possi-  
ble in more than one field to get the  
emphasis on the qualitative."

"I hereby acknowledge my indebt-  
edness to the special workers whom  
both the Foreign and Home Mission  
Boards have sent into fields where I  
have been at work. I never half new  
Mexico till some special workers of  
the Centenary told me what to look  
for. I never knew the Denver area  
till after the surveys by the Centen-  
ary. I never knew anything about  
the Coke Mission in Pennsylvania  
till workers of the Centenary had  
dug up and got out the basic facts.  
I have learned more than from years  
of my own observation."
